**Fantasy and Science Fiction Medievalisms: From Isaac Asimov to A Game of Thrones** Helen Young, 2015-06-08

From advertisements to amusement parks themed restaurants and Renaissance fairs twenty first century popular culture is strewn with reimaginings of the Middle Ages They are nowhere more prevalent however than in the films television series books and video games of speculative genres fantasy and science fiction Peter Jackson's *The Lord of the Rings* and *The Hobbit* film trilogies and George R R Martin's multimedia *Game of Thrones* franchise are just two of the most widely known and successful fantasy conglomerates of recent decades Medievalism has often been understood as a defining feature of fantasy and as the antithesis of science fiction but such constructs vastly underestimate the complexities of both genres and their interactions Medieval has multiple meanings in fantasy and science fiction which shift with genre convention and which bring about their own changes as authors and audiences engage with what has gone before in the recent and deeper pasts Earlier volumes have examined some of the ways in which contemporary popular culture re imagines the Middle Ages offering broad overviews but none considers fantasy science fiction or the two together The focused approach of this collection provides a directed pathway into the myriad medievalisms of modern popular culture By engaging directly with genre's this book acknowledges that medievalist creative texts and practices do not occur in a vacuum but are shaped by multiple cultural forces and concerns medievalism is never just about the Middle Ages

Harrington, Damian O'Byrne, 2025-01-07 Often the sky is conceptualised as a place of infinite possibilities past the limits of our scientific explorations and into the realms of our fiction and speculation it is the site for our thoughts on the future of the extra terrestrial and beyond Our representations in the media of space sky and the infinite invariably mediate social and cultural anxieties that are current looming and indeed threatening These concerns range from the environment and fears of ecosystem collapse the nuclear arms and space race modernity utopia and dystopia *Beasts of the Sky Strange Sightings from the Stratosphere* is the third and final collection in the *Beasts* series This collection offers its readers an in depth and interdisciplinary engagement with the skies above and their monstrous inhabitants through critical readings of science fiction and popular culture through the media of film television popular music digital games and animation Within this collection there are a multitude of convergent critical perspectives used to engage and explore fictional and real monstrosities of the sky and space in media As with previous collections *Skies* features chapters from a variety of academic perspectives genre and narrative textual analysis spectatorship and reception Tolkien studies performance studies digital media and indeed fiction are featured Under examination are a wide range of narratives and media forms that represent reimagine and create subjects as varied as the threat of nuclear weapons sightings of UFOs space exploration and flying creatures

**Catholic Literature and Film** Nancy Enright, 2016-11-21 *Catholic Literature and Film* Incarnational Love and Suffering is meant to be considered as a work of literary criticism not film adaptation studies In it the author explores six literary works dealing with Catholic themes and the film versions of these works The discussion of the films is at the service of analyzing the texts Underlying all the discussions is an incarnational sacramental view of the texts which links to my interpretation of the film versions of them Catholic and actually any Christian interpretation of literature or film or any other art form is rooted in an iconic and sacramental understanding of imagery as a means of conveying the sacred Catholic spirituality lends itself to this sort of approach as it is deeply rooted in the ability to see sacred things through physical means A key sub theme is romantic love in connection with salvation which Charles Williams one of the Inklings the group of British writers including J R R Tolkien and C S Lewis who met and discussed literature and theology calls the theology of romantic love as well as the sub themes of redemptive suffering and grace My interest in the book is not an analysis of cinematography per se but on the films as vehicles for religious ideas What makes this approach unique is that it doesn't deal with only faith and film as Peter Frazer does very well in his book *Images of the Passion The Sacramental Mode in Film* for example it also goes beyond the realm of strict literary criticism in its tackling of how religiously oriented works of literature are affected by the transformation into film

**Philosophy, Myth and Epic Cinema** Sylvie Magerstädt, 2014-12-15 *Philosophy Myth and Epic Cinema* looks at the power of cinema in creating ideas that inspire our culture Sylvie Magerstädt discusses the relationship between art illusion and reality a theme that has been part of philosophical debate for centuries She argues that with the increase in use of digital technologies in modern cinema this debate has entered a new phase She

discusses the notion of illusions as a system of stories and values that inspire a culture similar to other grand narratives such as mythology or religion Cinema thus becomes the postmodern mythmaking machine par excellence in a world that finds it increasingly difficult to create unifying concepts and positive illusions that can inspire and give hope The author draws on the work of Friedrich Nietzsche Siegfried Kracauer and Gilles Deleuze to demonstrate the relevance of continental philosophy to a reading of mainstream Hollywood cinema The book argues that our longing for illusion is particularly strong in times of crisis illustrated through an exploration of the recent revival of historic and epic myths in Hollywood cinema including films such as Troy The Lord of the Rings Trilogy and Clash of the Titans Focus On: 100 Most Popular New Line Cinema Films

Tolkien's Sanctifying**

**Myth** Bradley J. Birzer,2023-08-29 With a new introduction by the author Peter Jackson s film version of J R R Tolkien s Lord

of the Rings trilogy and the accompanying Rings related paraphernalia and publicity has played a unique role in the dissemination of Tolkien's imaginative creation to the masses. Yet for most readers and viewers the underlying meaning of Middle-earth has remained obscure. Bradley Birzer has remedied that with this fresh study. In *J.R.R. Tolkien's Sanctifying Myth: Understanding Middle-earth*, Birzer reveals the surprisingly specific religious symbolism that permeates Tolkien's Middle-earth legendarium. He also explores the social and political views that motivated the Oxford don, ultimately situating Tolkien within the Christian humanist tradition represented by Thomas More and T.S. Eliot. Dante and C.S. Lewis. Birzer argues that through the genre of myth Tolkien created a world that is essentially truer than the one we think we see around us everyday, a world that transcends the colorless disenchantment of our postmodern age. **The Invisible Art of Film**

**Music** Laurence E. MacDonald, 2013-05-02 Beginning with the era of synchronized sound in the 1920s, music has been an integral part of motion pictures. Whether used to heighten the tension of a scene or evoke a subtle emotional response, scores have played a significant if often unrealized role in the viewer's enjoyment. In *The Invisible Art of Film Music*, Laurence MacDonald provides a comprehensive introduction for the general student, film historian, and aspiring cinematographer. Arranged chronologically from the silent era to the present day, this volume provides insight into the evolution of music in cinema and analyzes the vital contributions of scores to hundreds of films. MacDonald reviews key developments in film music and discusses many of the most important and influential scores of the last nine decades, including those from *Modern Times*, *Gone with the Wind*, *Citizen Kane*, *Laura*, *A Streetcar Named Desire*, *Ben-Hur*, *Lawrence of Arabia*, *The Godfather*, *Jaws*, *Ragtime*, *The Mission*, *Titanic*, *Gladiator*, *The Lord of the Rings*, *Brokeback Mountain*, and *Slumdog Millionaire*. MacDonald also provides biographical sketches of such great composers as Max Steiner, Alfred Newman, Franz Waxman, Bernard Herrmann, Elmer Bernstein, Henry Mancini, Maurice Jarre, John Barry, John Williams, Jerry Goldsmith, Dave Grusin, Ennio Morricone, Randy Newman, Hans Zimmer, and Danny Elfman. Updated and expanded to include scores produced well into the twenty-first century, this new edition of *The Invisible Art of Film Music* will appeal not only to scholars of cinema and musicologists but also any fan of film scores. *The Tourist State* Margaret Werry, 2011 Examining the role of performance in state making
