The Oxford Handbook of Eighteenth-Century Satire Paddy Bullard, 2019-07-30 Eighteenth-century Britain thought of itself as a polite, sentimental, enlightened place but often its literature belied this self-image. This was an age of satire and the century's novels, poems, plays and prints resound with mockery and laughter, with cruelty and wit. The street-level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period's philosophers and poets, many of whom were part-time pamphleteers themselves. The novel, a genre that emerged during the eighteenth century, was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets. This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century. It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789. Outlier chapters extend the story back to the first decade of the seventeenth century and forward to the second decade of the nineteenth. The scope of the volume is not confined by genre; however, so prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature. *The Oxford Handbook of Eighteenth-Century Satire* reflects developments in historical criticism of eighteenth-century writing over the last two decades and provides a forum in which the widening diversity of literary, intellectual and socio-historical approaches to the period's texts can come together.
