James, 2014 If you've found yourself almost inconsolable after your pet died please know that you're normal If you've found that your family and friends don't seem to understand the level of your grief please know that too is normal Without comparing our relationships with our pets to those with people we know that because of the unique emotional relationships we have with our pets their deaths produce a level of pain that is difficult to describe If you relate to any or all of these sentences this book is for you We have been there and most probably will be there again We will be with you on this journey to help your heart deal with the absence of your cherished companion Russell Cole and John Your relationship with your pet is special it's a bond that is very different than those that human beings share with each other When a beloved pet passes away people often resort to incorrect mechanisms to deal with the grief such as trying to move too quickly past the loss dismissing the real impact or even attempting to replace the pet immediately However these are merely two myths out of six that the authors discuss and dismantle in The Grief Recovery Handbook for Pet Loss Based on the authors Grief Recovery Method R this book addresses how losing a pet is different from losing a human loved one and ultimately how to move on with life
