A Man of Many Parts Barbara Rawlinson, 2006 This comprehensive study of George Gissing's short stories and related non fiction is essential reading for students of nineteenth century realism For the first time readers will be able to follow the development which transformed Gissing's unremarkable early stories into the very individual tales that elevated his work to the vanguard of realistic short fiction Gissing's American period is notable for its accumulation of themes that were repeatedly refined and adapted for his later work causality emerging as the dominant voice On his return to England shifting political and philosophical beliefs expressed in his non fiction had a vital impact on his second phase of short fiction

and the part played by realism in the author's short stories and his writings on Charles Dickens added further dimensions to his work as a whole. By the final phase of Gissing's remarkable development it is evident that his interest in the concept of causality as the major force in his short work had been replaced by a more challenging preoccupation with the human psyche. This introduced philosophical, sociological and psychological dimensions to Gissing's work that established him in the field of short fiction as a leading exponent of late nineteenth century realism.

Hemingway, Fitzgerald and the Muse of Romantic Music Nicole J. Camastra, 2023-12-21 Both Ernest Hemingway and F. Scott Fitzgerald grew up in the Midwest and were strongly influenced by Romantic music anchored by the aesthetic tastes of the German immigrants who settled across that region. Hemingway's ear for form and Fitzgerald's penchant for lyricism stem from early and frequent exposure to such masters as Johannes Brahms and Franz Schubert. Nostalgia is typically associated with romanticism and the acoustic longing found in Hemingway and Fitzgerald's fiction resonates with it, characterized in the narrative voices in Hemingway's *Winner Take Nothing* and Fitzgerald's *Tender Is the Night* and other of their fiction from the early thirties. Understanding that each writer has his own kind of musical biography charts new ways to read material we already think we know. Reading their work within a musical-historical context means acknowledging it as an extension of the 19th century; it means reading them as Romantic Modernists. This work reads each author's prose musically, considering how Romantic music inspired their craft and distinguished their work through the pivotal juncture of the early to mid 1930s when each man faced an artistic crisis of conscience. Initial chapters provide background information in music history. Following chapters focus on how the life of each author was shaped by music and how they worked with specific influences that grew out of steady interactions with it, evidence of which is found in archival documents and collections.

The Riverside Counselor's Stories Robert L. Backus, 1985 A new translation of the Tsutsumi Chūnagon Monogatari. Nine of these ten short stories were written in the 11th and 12th centuries, presumably by women of Japan's court aristocracy. Like Lady Murasaki's *The Tale of Genji*, which predates them, several short narratives pursue romantic entanglements of Heian courtiers. But unlike Murasaki's classic, some of the stories satirize male characters cast in the *Genji* mold and others ridicule social convention.

Your Priceless Legacy: A Story That Must Be Told, *Political Initiation in the Novels of Philip Roth* Claudia Franziska Bruhwiler, 2013-04-25 *Political Initiation in the Novels of Philip Roth* exemplifies how literature and specifically the work of Philip Roth can help readers understand the ways in which individuals develop their political identity, learn to comprehend political ideas and define their role in society. Combining political science, literary theory and anthropology, the book describes an individual's political coming of age as a political initiation story which is crafted as much by the individual himself as by the circumstances influencing him, such as political events or the political attitude of the parents. Philip Roth's characters constantly re-write their own stories and experiment with their identities. Accordingly, Philip Roth's works enable the reader to explore, for instance, how individuals construct their identity against the backdrop of political transformations or contested

territories and thereby become initiands or fail to do so Contrary to what one might expect initiations are not only defining moments in childhood and early adulthood instead Roth shows how initiation processes recur throughout an individual's life

Doan,1994-09-09 Once upon a time everything was understood through stories The philosopher Friedrich Nietzsche once said that if we possess our why of life we can put up with almost any how Stories always dealt with the why questions The answers they gave did not have to be literally true they only had to satisfy people's curiosity by providing an answer less for the mind than for the soul From Chapter 1 Each of us has a story to tell that is uniquely personal and profoundly meaningful The goal of the modern therapist is to help clients probe deeply enough to find their own voice describe their experiences and create a narrative in which a life story takes shape and makes sense Emphasizing the vital connections among personal experience family and community the authors of this provocative new book explore the role of narrative therapy within the context of a postmodern culture They employ the interactional dynamics of family therapy to demonstrate how to help people deconstruct oppressive and debilitating perspectives replace them with liberating and legitimizing stories and develop a framework of meaning and direction for more intentional more fulfilling lives Blending scientific theory with literary aesthetics Story Re Visions presents a comprehensive collection of specific narrative therapy techniques inventions interviewing guidelines and therapeutic questions The book examines the development of the postmodern phenomenon tracing its evolution across time and disciplines It discusses paradigmatic traditions the meaning of modernism and the ways in which the ancient binding narratives have lost their power to inspire uncritical assent Methods for doing narrative therapy in a destoried world are presented with suggestions for meeting the challenges of postmodern value systems and ethical dilemmas Numerous case examples and dialogues illustrate ways to help people become authors of

their own stories and each of the last four chapters concludes with an appendix that provides additional information for the practicing clinician. Detailing ways in which a narrative framework enhances family therapy, the authors describe how the therapist and client may act together as revisionary editors and present techniques for keeping the story revision alive well and in charge. Finally, the book examines revision techniques for clinical training and supervision settings with discussion of how therapists may help one another create stories about their clients as well as themselves. Accessibly written and profoundly enlightening, *Story Re Visions* is ideal for family therapists, psychologists, psychiatrists, and anyone else interested in doing therapy from a narrative stance. It is also valuable as supplemental reading for courses in family therapy and other psychotherapeutic disciplines.

[Turning Point. Life is a Story - story.one](#) Judith Veld, 2024-08-31 For Diya, the loss of her twenties could potentially be the loss of her life. Now that she has turned 29, she has started her year of pilgrimage. It will end in a weighing by the Gods at age 30. At this weighing, she will be told what part of herself she must sacrifice. With each funeral of friends that she visits, the sinking feeling grows: her achievements are not valuable enough to save her. A Rendition of Thoughts Anya Kiral, 2023-08-30 *A Rendition of Thoughts* is Anya Kiral's debut collection of poetry that ranges from whimsical to spiritual, interspersed with her contemplations on truth, beauty, and character. Each poem is a journey through Anya's eyes, wandering on the earth, communing with angels, or ruminating on love and family. The author's deep connection with nature is also a common thread that connects her inspirational words as she explores the continuum of mindfulness and personal growth through the rhythm of poetry. Complemented by a carefully curated collection of photos, *A Rendition of Thoughts* will awaken the spirit, ignite the imagination, and comfort the soul.

Double Exposure Kathryn Millard, 2022-03-18 *Double Exposure* examines the role of cinema in shaping social psychology's landmark post-war experiments. The most influential experiments left a trail of visual evidence central to capturing the public imagination. Trauma and Grief R. Scott Sullender, 2018-07-06 In today's world, trauma and traumatic loss are increasingly common. This book surveys the important constructs, concepts, and dynamics of trauma, loss, grief, and growth, offering resources and strategies that ministers and other spiritual caregivers can use as they support and facilitate people in their journey from trauma recovery to grief work to spiritual growth. The book presents a framework for understanding the interrelationship between trauma recovery, grief work, and spiritual growth. The author argues that each of these components is essential for a full and complete healing from trauma and traumatic losses and that they work together in the ongoing process of healing. Traumas and traumatic losses are times of crisis in the sense that they are turning points in people's lives; people can either grow through the experience or decline under the weight of their unbearable sorrow and anxiety. How people handle traumas and significant losses may be the most important variable in their psychological, relational, and spiritual health. The

author gives special attention to describing ways in which God might draw close to the traumatized and bereaved in their process of recovery and healing
