Lost Prime Minister:

The Lost Prime Ministers Michael Hill, 2022-02-22 After John A Macdonald's death four Tory prime ministers each remarkable but all little known rose to power and fell in just five years From 1891 to 1896 between John A Macdonald's and Wilfrid Laurier's tenures four lesser known men took on the mantle of leadership Tory prime ministers John Abbott John Thompson Mackenzie Bowell and Charles Tupper headed the government of Canada in rapid succession Each came to the job with qualifications and limitations and each left after unexpectedly short terms Yet these reluctant prime ministers are an important part of our political legacy Their roles were much more than caretakers between the administrations of two great leaders Personal tragedy terrible health issues backstabbing and political manipulation all led to their eventual downfalls The Lost Prime Ministers is the dramatic saga of these overlooked Canadian leaders Public Law John Stanton, Craig Prescott, 2020 With its fresh modern approach and unique combination of practical application and theoretically critical discussion Public Law guides students to a clear understanding of not only the fundamental principles of the subject but how they are relevant in everyday life Central Europe Thirty Years after the Fall of Communism Aliaksei Kazharski, 2022-05-23 This book examines the politics and international relations of Central Europe the Visegr d Four three decades after the fall of communism Once bound together by a common geopolitical vision of returning to the West the Czech Republic Hungary Poland and Slovakia now find themselves in a more ambiguous position The 2015 European migration crisis exposed serious normative differences with Western Europe leading to a collective V4 rebellion against the European Union s migration policies At the same time as this book demonstrates despite this normative rift with Western Europe and despite the democratic backsliding in some of the V4 states they remain deeply dependent on the West in both symbolic and material terms Furthermore ways in which individual Central European states position themselves vis a vis the West exhibit notable differences informed by their specific political and cultural legacies. The author examines these in separate country chapters This book also contains a chapter that analyzes the effect of the COVID 19 crisis on political discourses in the V4
