Lost Rights The Destruction Of American Liberty:

Lost Rights James Bovard, 1994-03-15 From Justice Department officials seizing people's homes based on mere rumors to the IRS and its master plan to prohibit the nation's self-employed from working for themselves to the perpetrators of the Waco siege government officials are tearing the Bill of Rights to pieces Today's citizen is now more likely than ever to violate some unknown law or regulation and be placed at the mercy of an administrator or politician hungering for publicity Unfortunately the only way many government agencies can measure their public service is by the number of citizens they harass hinder restrain or jail James Bovard's *Lost Rights* provides a highly entertaining analysis of the bloated excess of government and the plight of contemporary Americans beaten into submission by a horrible parody of the Founding Fathers dream

Drugging America Rodney Stich, 2005-12 Former government agents former drug smugglers detail and document drug smuggling activities including the role of CIA operatives and others

The End of Racism Dinesh D'Souza, 1996-09-30 The first comprehensive inquiry into the history nature and ultimate meaning of racism

Last Rights James Bovard, 2023-11-27 Americans rights and liberties are being ravaged worse than ever before Government agencies are stealing citizens property banning their guns wrecking their currency and molesting them at airports and beyond From rampaging SWAT raids on innocent homeowners to the destruction of privacy to pandemic lockdowns blighting life around the clock the Constitution failed to prevent tyranny Thanks to hundreds of thousands of laws and regulations almost everyone is guilty of high crimes or misdemeanors Pervasive atrocities have destroyed faith in our political system More Americans believe in witches ghosts and astrology nowadays than trust the federal government At a time when many people fear our nation is spiraling towards dictatorship or civil war James Bovard's *Last Rights* explains how we went awry and how to rescue individual liberty

Hunting Down Social Darwinism Stuart K. Hayashi, 2015-02-17 *Hunting Down Social Darwinism* is the third and final installment in the trilogy *The Nature of Liberty* The trilogy gives a secular ethical defense of laissez faire capitalism inspired by Ayn Rand's ideas The trilogy's first book *The Freedom of Peaceful Action* provided the philosophic theory behind the ethics of a free enterprise system based on the individual rights to life liberty and private property which John Locke described The second installment *Life in the Market Ecosystem* explained how free enterprise functions much as a natural ecosystem wherein behavioral norms develop bottom up from repeat interactions among individual participants in the economy As such defenses of free enterprise are frequently criticized as social Darwinism however this third and final installment of the trilogy asks the question What is social Darwinism The book embarks on a hunt for the term's meaning explores social Darwinism's beginnings and examines whether it is fair to describe such nineteenth century free market advocates as Herbert Spencer and William Graham Sumner as social Darwinists It then addresses the accusation that the free market Darwinism commonly ascribed to Spencer and Sumner rationalized bigotry and founded the pseudoscience of eugenics In the process the book refutes various myths about the topic popularized by such scholars as Richard Hofstadter

and John Kenneth Galbraith The extent to which the popular narratives about social Darwinism prove to be inaccurate holds enormous ramifications for current controversies It has implications for debates over the ethical appropriateness of reducing taxpayer spending on social welfare programs and also sheds new light on the pros and cons of attempts to apply biological evolutionary theory to the study of human social institutions Additionally discussed is the manner in which various prominent figures in economics evolutionary psychology and Complexity Theory have grown famous for advancing ideas which Spencer and Sumner originated even as such figures simultaneously downplay the importance of Spencer and Sumner to their field Following the hunt for social Darwinism this work sums up the trilogy with some final thoughts on the importance that liberty holds for every effort to live life to the fullest

Why Lawyers Derail Justice John C. Anderson, 2010-11-01 *Nanny State* David Harsanyi, 2007-09-18 When did we lose our right to be lazy unhealthy and politically incorrect Move over Big Brother An insidious new group has inserted itself into American politics They are the nannies not the stroller pushing set but an invasive band of do gooders who are subtly and steadily stripping us of our liberties robbing us of the inalienable right to make our own decisions and turning America into a nation of children As you read this countless busybodies across the nation are rolling up their sleeves to do the work of straightening out your life Certain Massachusetts towns have banned school yard tag San Francisco has passed laws regulating the amount of water you should use in dog bowls The mayor of New York City has french fries and doughnuts in his sights In some parts of California smoking is prohibited outside The government under pressure from the nanny minority is twisting the public's arm into obedience Playground police food fascists anti porn crusaders whether they're legislating morality or wellbeing nannies are popping up all over America In the name of health safety decency and shudder good intentions these ever vigilant politicians and social activists are dictating what we eat where we smoke what we watch and read and whom we marry Why do bureaucrats think they know what's better for us than we do And are they selectively legislating in the name of political expediency For instance why do we ban mini motorbikes responsible for five deaths each year and not skiing which accounts for fifty deaths each year Why is medical marijuana a substance yet to claim a single life banned and not aspirin which accounts for about 7 600 deaths Exhaustively researched sharply observed and refreshingly lucid Nanny State looks at the myriad ways we are turning the United States into a soulless and staid nation eroding not only our personal freedoms but our national character

Huggins,2013-09-01 In a powerful argument for free market environmentalism Terry Anderson and Laura Huggins break down liberal and conservative stereotypes of what it means to be an environmentalist They show that by forming local coalitions around market principles stereotypes are replaced by pragmatic solutions that improve environmental quality without necessarily increasing red tape **Dependent on D.C.**

Charlotte A. Twight,2015-11-03 Dependent on D C raises serious concerns about the future of liberty in America and proves beyond a doubt that the growth of dependence on government in the past seventy years has not been accidental that its creation has been bipartisan and that it is accelerating Twight shows how growing federal power driven by legislation validated by Supreme Court decisions and accelerated by presidential ambition has eroded the rule of law in our nation leaving almost no activity that the central government cannot at its discretion regulate manipulate or prohibit Dependent on D C shows why Americans have not resisted this expansion of federal power In these uncertain times Dependent on D C is the book Americans need to read when thinking about the future of their individual liberty **Cancer and the Search for**

Selective Biochemical Inhibitors E.J. Hoffman,2007-06-25 The world of medicine has become splintered into two factions that of orthodoxy and its counterpart alternative or complementary medicine A problem with alternative medicine is of course that of anecdote and hearsay The solution the disclosure in an unassailable fashion of the underlying biochemical principles for alternative cancer therap **Crimes of the FBI-Doj, Mafia, and Al Qaeda** Rodney Stich,2009-07-15 The

book reveals the truth about the people responsible for the success of the greatest number of terrorist attacks in the nation s history and why the American public is totally unaware of these matters The publisher **Questioning History** Joe Regenbogen,2020-10-06 Since the days of the Ancient Greeks history has been perceived as the academic study of the past Unfortunately it has generally been taught as a litany of rigid boring facts intended to be accepted rather than questioned

This has been reinforced for decades by weighty textbooks that overwhelm the reader with mind numbing details presented in a chronological sequence. The end result is that students see little relevance of what they learn in history class to the real world and many simply struggle to stay awake. Compared to other subjects taught at the secondary level, history is frequently judged to be the most boring. This is largely because it is viewed as an intellectually lifeless subject that presents few opportunities for active engagement. *Questioning History* is a book built around 16 essential questions designed to challenge this common assumption. Each question is broad, open ended, and subject to vigorous debate. By examining the historical background behind each question and by analyzing the ways in which the question can be answered, the reader will come away with a deeper understanding of the past and a new appreciation for history as a cognitively dynamic subject. In addition, by using each chapter as a platform for engaging discussions and Socratic seminars, the reader will be able to refine the decision making skills necessary for effective citizenship in a democratic society. Depending on the classroom or the setting in which it is being used, *Questioning History* can either take the place of the more traditional textbook or at least be used as a supplement to make it come more alive. The best way to learn and to appreciate a subject is through active engagement. *Questioning History* provides a shot of adrenalin to the study of history. *The Ninth Circle (HB)* Mitchell Henderson, 2021-09-02

The Ninth Circle US Customs Operation Calico and Their Fall of the Cali Cartel HB A Critical Interpretation of the Military Law Enforcement and Our Society By Mitchell Henderson. In this adventurous story, we follow the journey of a soldier and cop who risks his life going to Colombia alone with no back up to successfully infiltrate the Cali Cartel. This brave man meets with the cartel's bosses and develops the case that put the cartel bosses in jail. The story of this hero reveals how political correctness and cultural Marxism have destroyed law enforcement and the military in America. This is a wake up call for all Americans and the truth no one wants to tell you. **The Philosophy of Taxation and Public Finance** Robert W. McGee, 2011-06-27. Most public finance books are texts which are aimed at undergraduate or graduate students. They are overly technical in nature and appeal only to a narrow range of bureaucrats and academics. Books on taxation are written for tax practitioners and usually emphasize either what the law is or how to maneuver through the labyrinth of tax law to minimize taxes for clients. Philosophy books on taxation or public finance simply do not exist. *The Philosophy of Taxation and Public Finance* is different. It is written in nontechnical language and is aimed to appeal to a wide range of readers including practitioners, academics, and students in the fields of taxation, public finance, economics, law, philosophy, and political science, as well as general readers who are interested in learning why they are being taxed the way they are. The author addresses the major issues and topics in taxation and public finance and injects them with philosophical insights. He discusses questions such as: What arguments have been used to justify taxation? When is tax evasion unethical? Are some taxes better than others? What are the proper functions of government? How much is enough? Is the ability to pay concept valid? When can punitive taxes be justified? **Terrorism Against America** Rodney Stich, 2008-09. Stich details the various

forms of aviation and other terrorist acts against the United States including the overt and covert actions by people in government Landmark Briefs and Arguments of the Supreme Court of the United States United States. Supreme Court,2014
