Multicultural Nationalism Asifa M. Hussain,William L. Miller,2006-07-20 When the focus is on black or Asian minorities Britain is frequently described as a multi cultural state But when the focus is on Scotland England and Wales Britain is also described as a multi national state Yet debates about multiculturalism and nationalism have been held in parallel without sharing even a common vocabulary This book is a pioneering study of how multiculturalism interacts with multinationalism especially within post devolution Scotland It gives equal attention to Scotland s largest visible and invisible minorities ethnic Pakistanis almost all of them Muslim and English immigrants Rising Scottish self consciousness could have posed a challenge both these minorities But in practice potential problems have proved themselves to be solutions integrating rather than alienating In the eyes of the minorities devolution has made Scots at once more proud and less xenophobic Even English immigrants feel devolution has defused tensions calmed frustrations and forced Scots to blame themselves rather than others for their problems Pakistanis have suffered increasing harassment but they attribute that to 9 11 not to devolution And Muslims adopt

Scottish identities Scottish attitudes even Scottish nationalism consciously or unconsciously using these as tools of integration The book is based in part on large scale surveys of Pakistani and English minorities within Scotland and of the majority populations in Scotland and England But it is also based on systematic analysis of transcripts of focus group discussions with minorities revealing the variety of opinion within minorities as well as the contrasts between them In particular it presents a unique account of how Scottish Muslims express their feelings in a time of crisis *The Palgrave Dictionary of Transnational History* A. Iriye, P. Saunier, 2016-04-30 Written and edited by many of the world's foremost scholars of transnational history this Dictionary challenges readers to look at the contemporary world in a new light Contains over 400 entries on transnational subjects such as food migration and religion as well as traditional topics such as nationalism and war

Bitter Harvest Suava Zbierski-Salameh, 2013-04-11 Bitter Harvest a historical ethnographic study examines the property changes prompted by the early post socialist neoliberal reforms designed to build capitalism in Poland Historically the book traces the halting but steady emergence of privatization and liberalization even under socialism and how these anticipated the reforms of the post socialist period Contrary to the view that the 1989 post socialist policy represented a radical departure from former state socialist policies via the importation of Western shock therapy reforms including the key economic institution of private property this book dispenses with the sharp divide between the socialist past and capitalist present and argues the lasting importance of these historical antecedents in shaping both post socialist policy and responses to it Ethnographically the book provides a detailed account of the different yet interdependent ways the post socialist reform program influenced existing

agricultural property forms small farmers production cooperatives and state farms leading in each case to unexpected economic results and political contestation of the policy objectives This historical and ethnographic study of multiple forms of ownership poses a challenge to the common conception of a homogenized socialism based on state property It also refutes the reductionist representation of the reality after socialism as the creation of Western style private property based economic systems unaffected by the unique Eastern European sociopolitical context Instead looking at Poland s property changes through the eyes and experiences of diverse agricultural owners this book employs the notion of conjoint property to unpack the complexity of ownership under socialism and theorize its evolution into an incomplete exclusive ownership after socialism This new conceptual framework of property changes in early transition helps us to understand current developments in Eastern Europe as it integrates with the European Union and intersects with global capitalism It further sheds light on the limits of the universality of the Western notion of private property European Nations and Nationalism Louk

Hagendoorn, György Csepeli, Russell Farnen, 2017-03-02 This rich source book informs its reader in a comparative perspective about the political and social economic past and present of fifteen Western Central and Eastern European countries This includes the economic and social aspects of the development of the nation state descriptions of the current political structures and institutions an account of the types of ethnic composition of the populations definitions of citizenship and a background to the existing political parties and preferences The countries involved are the Russian Federation Ukraine Romania Hungary Slovakia the Czech Republic Poland Germany Sweden The Netherlands Belgium Britain France Spain and Italy The authors are scholars in the fields of nationalism and ethnic conflict and they were invited to write their country chapters along the lines of a common format paying special attention to the notion of state and nation building processes citizenship definitions and minority issues This book is a comprehensive reference guide for students and scholars in the fields of social sciences European studies history and other related disciplines and generally to those who are interested in the past and present of any one of the large number of countries described **The SAGE Handbook of European Studies**
