The industrial republic: a study of the America of ten years hence Upton Sinclair,2021-11-05

Published in 1907 this book is an attempt to interpret in the light of evolutionary science the social problem of our present world to consider American institutions as they exist at this hour what forces are now at work within them and what changes they are likely to produce The subject matter dealt with is not abstract speculation but rather the

everyday realities of the world we know our present political parties and public men our present corporations and captains of industry our present labor unions and newspapers colleges and churches The thing sought is an answer to a concrete and definite question What will America be ten years from now
