Nunggubuyu Myths And Ethnographic Texts:

Nunggubuyu Myths and Ethnographic Texts Jeffrey Heath, 1980 Texts with interlinear and free translation dealing with myths traditional stories rituals and corroborees kinship social relations fighting sorcery naming practices animals hunting techniques bush foods and medicines material culture history and anecdotes **The Oxford Guide to Australian Languages** Claire Bowern, 2023 This book is a wide ranging reference work covering the more than 550 Indigenous languages of Australia The chapters in the book explore typology and classification linguistic structures sociolinguistics and language variation and language in the community The final part offers sketches of a selection of languages sub groups and families

Language Diversity in the Pacific Denis Cunningham, D. E. Ingram, Kenneth Sumbuk, 2006-01-01 The Southwest Pacific from Southern China through Indonesia Australia and the Pacific Islands constitutes the richest linguistic region of the world That rich resource cannot be taken for granted Some of its languages have already been lost many more are under threat The challenge is to describe the languages that exist today and to adopt policies that will support their maintenance *Justice and Warfare in Aboriginal Australia* Christophe Darmangeat, 2020-11-12 Meticulously examining ethnographic sources Christophe Darmangeat argues that warfare among Australian Aborigines was mostly an extension of their judicial systems He demonstrates how violent conflict occurred when circumstances prohibited regulated proceedings

Coordinating Constructions Martin Haspelmath, 2004-07-29 This is the first book on coordinating constructions that adopts a broad cross linguistic perspective Coordination has been studied intensively in English and other major European languages but we are only beginning to understand the range of variation that is found world wide This volume consists of a number of general studies as well as fourteen case studies of coordinating constructions in languages or groups of languages Africa Iraqw Fongbe Hausa the Caucasus Daghestanian Tsakhur Chechen the Middle East Persian and other Western Iranian languages Southeast Asia Lai Karen Indonesian the Pacific Lavukaleve Oceanic Nl mwa and the Americas Upper Kuskokwim Athabaskan A detailed introductory chapter summarizes the main results of the volume and situates them in the context of other relevant current research Indigenous Australian Youth Futures Kate Senior, Richard Chenhall, Victoria Burbank, 2021-07-08 Adolescents are at a critical life stage where they will soon be able to contribute to the wellbeing of humankind or do it great harm Consequently it is vital that the challenges and possibilities of adolescence be well understood and addressed In Australia such understanding is urgently needed with respect to Aboriginal adolescents Not only must they adjust to their changing bodies and minds but they must negotiate these changes within a context usually characterised by racism and poverty They must also do this within intercultural environments that include the disparate and sometimes incompatible beliefs and practices of their multicultural populations The chapters in this collection address these challenges to Aboriginal adolescents in the Northern Territory and the intercultural contexts in which they take place Their discussions include the adolescents experiences with health and health care education and the criminal justice system They also address

their hopes dreams plans and politics engagement with social media food preferences and nutrition engagement with language family and changing mores affecting sexual behaviour and marriage The book aims to provide readers with a greater understanding of the day to day lives of Aboriginal adolescents and some of the adults who care for or neglect them It seeks to provide readers with a better understanding of the circumstances processes and factors that affect adolescent health wellbeing and future prospects in their intercultural environments and glimpse the multiplicity of these circumstances processes and factors and the complexity of their interaction *Endangered Languages* Andrew Simpson, Peter Austin, 2018-09-17 Peter K Austin Andrew Simpson Introduction Nicholas Evans Warramurrungunji undone Australian languages in the 51st Millenium Knut J Olawsky Obvious OVS in Urarina syntax Larry M Hyman Imelda Udoh Length harmony in Leggb a counter universal Nora England The influence of Mayan speaking linguists on the state of Mayan linguistics Pamela Munro Oblique subjects in Garifuna Marina Chumakina Anna Kibort Greville G Corbett Determining a language s feature inventory person in Archi Friederike L pke Vanishing voice the morphologically zero coded passive of Jalonke Anju Saxena The ergative in Kinnauri narratives John Hajek Sound systems of the Asia Pacific some basic typological observations Martina Faller The Cusco Quechua Reportative evidential and rhetorical relations Emmon Bach Deixis in Northern Wakashan recovering lost forms Roberto Zavala Inversion and obviation in Mesoamerica **Customary Marine Tenure in Australia** Nicolas Peterson, Bruce Rigsby, 2014-02-19 The ownership of areas of sea and its resources is often overlooked however despite Aboriginal and Torres Strait Islander connections with the sea being just as important as those with the land *The Situationality of Human-Animal Relations* Thiemo Breyer, Thomas Widlok, 2018-11-09 Riding hunting fishing bullfighting Human animal relations are diverse This anthology presents various case studies of situations in which humans and animals come into contact and asks for the anthropological and philosophical implications of such encounters The contributions by renowned scholars such as Albert Piette and Kazuyoshi Sugawara present multidisciplinary methodological reflections on concepts such as embodiment emplacement or the *conditio animalia* in addition to the *conditio humana* as well as a consideration of the term situationality within the field of anthropology **Language Diversity** **Endangered** Matthias Brenzinger, 2015-07-31 This book presents a comprehensive overview of endangered languages with a global coverage It features such well known specialists as Michael Krauss Willem F H Adelaar Denny Moore Colette Grinevald Akira Yamamoto Roger Blench Bruce Connell Tapani Salminen Olga Kazakevich Aleksandr Kibrik Jonathan Owens David Bradley George van Driem Nicholas Evans Stephen A Wurm Darrell Tryon and Matthias Brenzinger The contributions are unique in analysing the present extent and the various kinds of language endangerment by applying shared general indicators for the assessment of language endangerment Apart from presenting the specific situations of language endangerment at the sub continental level the volume discusses major issues that bear universally on language endangerment The actual study of endangered languages is carefully examined for example against the ethics and

pragmatics of fieldwork Practical aspects of community involvement in language documentation are discussed such as the setting up of local archives and the training of local linguists Numerous case studies illustrate different language shift environments with specific replacing factors such as colonial and religious conquests migrations and governmental language education The book is of interest to students and scholars of linguistics with particular focus on endangered languages and their documentation typology and sociolinguistics as well as to anthropologists and language activists *Crocodile Undone* Marcus Baynes-Rock,2020-03-19 Across the world animals are being domesticated at an unprecedented rate and scale But what exactly is domestication and what does it tell us about ourselves In this book Marcus Baynes Rock seeks the common thread linking stories about the domestication of Australia's native animals arguing that domestication is part of a process by which late modernity threatens to undo the world In a deeply personal account the author tells of his encounters with crocodiles and emus behind fences dingoes and kangaroos crossing boundaries and native bees producing honey in his suburban backyard Drawing on comparisons between Aboriginal and colonial Australians Baynes Rock reveals how the domestication of Australia's fauna is a process of unmaking As an extension of late modernity the connections that tie humans and other animals to wider ecologies are being severed threatening to isolate us and our domesticates from the rest of the world It is here that Baynes Rock reveals a key difference between Aboriginal and colonial Australian modes of landscape management while one is focused on a systemic approach and sees humans as integral to ecological integrity the other seeks to sever domesticates from ecological processes The question that emerges is How might we reconfigure and maintain these connections without undoing humanity Written in the author's characteristically frank passionate and humorous style *Crocodile Undone* takes the reader on a journey across both physical and philosophical landscapes This fascinating narrative will appeal to anyone interested in the vital connections between humans and animals **The Languages and Linguistics of Australia** Harold Koch,Rachel Nordlinger,2014-08-19 The Languages and Linguistics of Australia A Comprehensive Guide is part of the multi volume reference work on the languages and linguistics of the continents of the world The volume provides a thorough overview of Australian languages including their linguistic structures their genetic relationships and issues of language maintenance and revitalisation Australian English Aboriginal English and other contact varieties are also discussed **Fillers, Pauses and Placeholders** Nino Amiridze,Boyd H. Davis,Margaret MacLagan,2010-09-29 Fillers are items that speakers insert in spontaneous speech as a repair strategy Types of fillers include hesitation markers and placeholders Both are used to fill pauses that arise during planning problems or in lexical retrieval failure However while hesitation markers may not bear any resemblance to lexical items they replace placeholders typically share some morphosyntactic properties with the target form Additionally fillers can function as a pragmatic tool in order to replace lexical items that the speaker wants to avoid mentioning for some reason The present volume is the first collection on the topic of fillers and will be a useful reference work for future investigations on the topic It consists of typological surveys

and in depth studies exploring the form and use of fillers across languages and sections of different populations including cognitively impaired speakers The volume will be interesting to typologists and linguists working in discourse studies

Handbook of Australian Languages R.M.W. Dixon, Barry J. Blake, 1983-12-31 This handbook makes available short grammatical sketches of Australian languages Each grammar is written in a standard format following guidelines provided by the editors and includes a sample text and vocabulary text The contributions to this volume are salvage studies giving all the information that is available on four languages which are on the point of extinction and an assessment of what linguistic impressions can be inferred from the scant material that is available on the extinct languages of Tasmania *Australian Aboriginal Grammar (RLE Linguistics F: World Linguistics)* Barry Blake, 2014-01-10 This study covers a number of topics that are prominent in the grammars of Australian Aboriginal languages especially ergativity and manifestations of the hierarchy that runs from the speech act participants down to inanimates This hierarchy shows up in case marking number marking and agreement advancement and cross referencing Chapter 1 provides an overall picture of Australian languages Chapters 2 3 and 4 deal with case systems including voice alternations and other advancements Chapter 5 deals with the distribution of case marking within the noun phrase Chapter 6 deals with systems that allow the cross referencing of bound pronouns Chapter 7 deals with clauses which appear to have more than one verb Chapter 8 deals with compound and complex sentences Chapter 9 deals with word order and emphasises a theme introduced in Chapter 5 namely the widespread use of discontinuous phrases Chapter 10 draws together ergativity and various manifestations of the hierarchy and attempts to interpret their distribution The final section provides an interesting hypothesis about the evolution of core grammar in Australia *Nunggubuyu Dictionary* Jeffrey Heath, 1982 Nunggubuyu English dictionary with English Nunggubuyu index and thesaurus notes on lexicon style ethnobotany tape catalogue place names maps of mythical events **The Habitat of Australia's Aboriginal Languages** Gerhard Leitner, Ian G. Malcolm, 2008-08-22 The languages of Aboriginal Australians have attracted a considerable amount of interest among scholars from such diverse fields as linguistics political studies archaeology or social history As a result there is a large number of studies on a variety of issues to do with Aboriginal Australian languages and the social contexts in which they are used There is however no integrative reader that is easily accessible to the non specialist in any of the areas concerned The collection edited by Leitner and Malcolm fills this gap Looking at Aborigines and Torres Strait Islanders and their changing habitats from pre colonial times to the present the book covers languages from a structural and functional linguistic perspective moves on to the issue of cultural maintenance and then turns to language policy planning and the educational and legal dimensions Among the many themes discussed are the social and linguistic history of language contact after 1788 including the Macassans the demographic base of indigenous languages traditional indigenous languages results of language contact such as the modification of traditional languages and the rise of contact languages pidgins creoles esp Kriol Torres Strait Creole and Aboriginal English the impact of the

Aboriginal languages on mainstream Australian English maintenance shift revival and documentation of indigenous and contact languages language planning language in education language in the media language in the law courts The contributors are leading experts in their fields The book can serve as a reader for university courses but also as a state of the art work and resource for specialists like applied linguists or educational planners **Drawn from the Ground** Jennifer Green, 2014-05-08 Provides a multimodal analysis of women's sand stories from Central Australia showing how speech sign gesture and drawing work together Functional Grammar of Nunggubuyu Jeffrey Heath, 1984 Phonology morphology syntax one chapter 5 deals with kinship terminology *The Language of Hunter-Gatherers* Tom Güldemann, Patrick McConvell, Richard A. Rhodes, 2020-02-27 Offers a linguistic window into contemporary hunter gatherer societies looking at how they survive and interface with agricultural and industrial societies
