ABC of Cancer Care Carlo Palmieri, Esther Bird, Richard Simcock, 2013-05-30 ABC of Cancer Care is a practical primary care guide to help health professionals better inform their patients manage and recognize the common complications of cancers and their

treatment and understand the rationale and implications of decisions made in secondary and tertiary care. It provides coverage of the diagnosis, management, treatment, and ongoing surveillance of common cancers within the multidisciplinary context of primary care. Individual chapters assess the different treatment options including surgery, radiotherapy, and chemotherapy and examine their possible side effects. The contribution of clinical trials and new advances in cancer treatment, including biological and targeted therapies, robotic surgery, and advanced radiotherapy techniques, are all described. Other aspects of cancer care, from nursing support and nutrition to psychological care and survivorship, are also covered. Edited by a specialist and general practitioner team with multidisciplinary contributors, *ABC of Cancer Care* is ideal for general practitioners, practice nurses, cancer care nurses, medical students, and all healthcare professionals treating and supporting cancer patients. National Library of Medicine (U.S.), *Nursing Adolescents and Young Adults with Cancer* Pia Riis Olsen, Sam Smith, 2018-05-30. This book describes and explains how caring for adolescents and young adults with cancer (AYA) has developed into what is now a recognized and distinct field of nursing practice. It captures current innovative nursing practices and interventions which have developed over the past 25 years across the globe and are supported by research and evidence achieved in many European and international oncology settings. By outlining and describing educational needs of the AYA cancer nursing profession, this book supports its education and professional development for the nursing profession and serves to develop and disseminate nurses' competencies worldwide. During the last decade, AYA have gained increased attention in healthcare. Today, it is recognized that AYA with cancer have distinct needs that are different to both children and older adults. Young people are in a unique developmental and transitional phase of their lives; thus, their treatment perspectives and experiences have been addressed in research, and the body of knowledge is growing accordingly. Some books are available that describe AYA cancer care service delivery and aspects of age-appropriate care, but this volume will be the first to focus on how nurses contribute to AYA cancer care in practice. It will appeal to the AYA clinical nurses in cancer care as well as to multidisciplinary healthcare professionals and healthcare professionals who support formal nursing
