Cardoza-Orlandi, Dr. Justo L. Gonzalez, 2013-04-01 Sharing the Good News might be understood as the prime directive of the Church from its earliest times but the Church soon discovered unforeseen obstacles and its own set of temptations including its lust for power and domination Although the gospel might be joyfully offered it was not always received in the same spirit And the Church was not always gracious with dissent and criticism Even so the Church continues to reach out to the least the last and the lost attempting to bring them into the family of God But for mission to be effective today it must take advantage of indigenous resources and recognize its limitations as well as its gifts This book broadly introduces prominent missionary practices and major historical figures using three perspectives First it takes into account the missionary activity proceeding from the margins rather than only discussing the center of theological and ecclesial activity Second it narrates the cross cultural cross confessional and cross religious dynamics that characterize Christian missionary activity And third it emphasizes that much missionary activity is generated by national rather than international missionaries The text concludes with a chapter on the postmodern and postcolonial world **Community Health Nursing** Karen Saucier Lundy, Sharyn Janes, 2009 Historically community health nursing has responded to the changing health care needs of the community and continues to meet those needs in a variety of diverse roles and settings *Community Health Nursing Caring for the Public's Health* Second Edition reflects this response and is representative of what communities signify in the United States a unified society made up of many different populations and unique health perspectives This text provides an emphasis on population based nursing directed toward health promotion and primary prevention in the community It is both community based and community focused reflecting the current dynamics of the health care system The Second Edition contains new chapters on disaster nursing and community collaborations during emergencies The chapters covering Family health ethics mental health and pediatric nursing have all been significantly revised and updated *All nations [afterw.] The Missionary review of all nations*.
