## **Nurses Matter Reclaiming Our Professional Identity:**

**Nurses Matter** Verena Tschudin,1999-11-11 Today's nurses find themselves in the position of having to redefine their identity. They must ask themselves why they matter, what is important about them as professionals and how they contribute as team members. Starting from an ethical standpoint, this book explores the nature of nursing and the dilemmas facing today's professionals. The author shares her vision of a new kind of professional, a vision which will empower readers to discover fresh meaning in their work and in their role.

**The Globalisation of Nursing** Verena Tschudin, Anne Davis, 2023-03-31 Globalisation affects health care and nursing and has the potential to change the very nature of what we now take for granted in health care and how we obtain it. Nursing as a profession faces multiple challenges, many of them because of globalization. Nurses have always seen their profession as a passport to the world. In the past, the movement was towards *Synergy for Clinical Excellence*. Roberta Kaplow, 2005. An essential reference for nursing students in developing and implementing the competencies necessary in caring for critically ill patients. Includes sample test questions relevant to the model that will assist nursing students in preparing for certification through AACN.

**Spiritual Care in Everyday Nursing Practice** Janice Clarke, 2013-05-31 As changes in technology, policy and management put an increasing emphasis on processes and procedures in nursing and health care, how do we continue to make room for compassion, the ancient human value that calls most nurses to the profession? In *Spiritual Care in Everyday Nursing Practice*, Janice Clarke argues that it is compassionate care of the whole person, body and soul, which is at the heart of nursing practice that values the individual and respects their dignity. Rather than seeing spiritual care as an addition to what nurses already do, this new approach considers it a natural part of compassionate care, which doesn't present the nurse with an extra, ambiguous burden to deal with. Providing a brief historical introduction to the concept of spirituality, Clarke examines the ways in which our spiritual life, a source of strength and meaning, can be influenced by factors such as age, illness and suffering, and mental illness, as well as our religious beliefs. Providing a practical guide to talking about and working with spirituality, she explores how nurses might imbue all their practice, including the physical aspects of care, from use of touch to helping patients to move, bathe and eat, with an attention to spiritual needs. A timely, accessible and practical introduction to a concept that is under-explored in contemporary nursing literature, this book will be of great value to students and professionals alike.

**Compassion, Caring and Communication** Jacqui Baughan, Ann Smith, 2013-11-26 Compassion and caring are at the very heart of nursing, possibly that's why you were attracted to the nursing profession in the first place. But what does compassionate caring really mean in nursing practice? *Compassion, Caring and Communication Skills for Nursing Practice* is a practical book that guides you through the complex dimensions of caring. It considers the ways in which you connect with patients, families and co-workers, and the long-lasting impact of emotions and feelings. Using real-life narratives, case studies and reflection activities, the authors demonstrate how you can develop and maintain the empathy and communication skills you need to create effective, compassionate and caring

partnerships New to the second edition Comprehensively updated throughout to reflect and highlight current professional pressures and public concerns around nursing practice Includes a broader range of relevant case studies discussions and scenarios to engage students and qualified nurses at all levels Contains new content about the impacts of recent government reports and policies on nursing care developing an awareness of contemporary issues and debates The BOND caring framework has been revised and updated alongside new caring indicators to support the development of compassionate caring skills All references have been updated using the latest sources and evidence based studies

A Companion to Bioethics Helga Kuhse, Peter Singer, 2013-04-16 This second edition of A Companion to Bioethics fully revised and updated to reflect the current issues and developments in the field covers all the material that the reader needs to thoroughly grasp the ideas and debates involved in bioethics Thematically organized around an unparalleled range of issues including discussion of the moral status of embryos and fetuses new genetics life and death resource allocation organ donations AIDS human and animal experimentation health care and teaching Now includes new essays on currently controversial topics such as cloning and genetic enhancement Topics are clearly and compellingly presented by internationally renowned bioethicists A detailed index allows the reader to find terms and topics not listed in the titles of the essays themselves

*Caring for Older People in the Community* Angela Hudson, Lesley Moore, 2009-04-13 Caring for older people encompasses complex physical social and psychological needs and poses many diverse challenges for nurses Caring for Older People in the Community provides nurses with an up to date practical resource that explores these challenges Throughout the book the use of reflection points and scenarios enable the reader to reflect on current issues and consider how underpinning theory supports practice Each chapter is evidence based and fully referenced with full contact details of charities This book will appeal to health and social care practitioners working in community settings and will help nurses meet the challenge of nursing and the ageing population with empathy and understanding of diverse needs

Care in Nursing Wilfred McSherry, Robert McSherry, Roger Watson, 2012-02-09 Care in Nursing addresses the fundamental caring principles values and skills nurses require to provide sound care to their patients and to meet the challenges of nursing in the future Exploring essential knowledge and competencies the authors explore research evidence and real life practice before outlining practical skills which will empower nurses to deliver quality care Written by nurses and health professionals from both practice and academia Care in Nursing explores how care underpins every element of nursing including patient centred care cultural diversity sociology psychology communication partnership working law and ethics management and leadership and more A specific chapter also addresses how nurses can develop self care techniques to meet the pressures and demands of a challenging yet ultimately rewarding career Relevant to nurses in all fields and a diverse range of clinical and non clinical settings this is essential reading for nursing students qualified nurses mentors nursing academics as well as nurse managers and leaders

**Mindful Leadership** Christopher Johns, 2015-11-23 Leadership is liberating and the development of leadership in health care

organisations is vital In this timely and exciting textbook Christopher Johns addresses the most vital aspects of health care development and education and reveals the tensions of becoming a leader within health care organizations Being able to understand and work towards resolving these tensions is essential in becoming an effective leader To be an effective leader however requires an awareness and acceptance of circumstances that is best termed mindfulness Equipped with the theoretical and practical know how to drive forward health reform and ensure quality this book will enable health care students and practitioners to become reflective and genuinely mindful leaders

**Ethics in Health Care** Silvia Angelina Pera, Susara Van Tonder, 2005 Dealing primarily with nursing in South Africa and the particular challenges that the country's nurses encounter this book looks at the ethical questions confronting nurses as well as the moral philosophy behind those considerations Ubuntu the African notion that everyone in a community is responsible for the welfare of its members plays a large part in the moral deliberations of the book as do problems particular to South Africa This second edition is updated with new case studies on the AIDS pandemic as well as new ethical questions stemming from the legalization of abortion in South Africa and the rise in the power of health worker unions

A Theory of Cancer Care in Healthcare Settings Carol Cox, Maya Zumstein-Shaha, 2017-09-01 This book provides healthcare professionals with a practice theory for the care and management of patients who have been diagnosed with cancer It explores what patients experience and how healthcare professionals can assist them in dealing with their uncertainty and fear as well as planning for the future Unique to the book is its explication of the emerging theory The Omnipresence of Cancer which is set in the context of a discussion of earlier theories also concerned with cancer care Chapters demonstrate how The Omnipresence of Cancer has been developed validated through research and being further tested in relation to cancer care In particular a chapter on philosophical reflections using theory to produce knowledge for practice is included Each chapter provides essential background a synthesis of the current state of knowledge and practice examples associated with cancer care The combination of theoretical reflection and practice examples is designed to promote comprehension and guidance on implementation of the theory as well as recommendations for practice This book will be of significant interest to healthcare students and professionals working in the field of cancer care and oncology particularly healthcare professionals working in advanced practice roles and nurse educators It is also anticipated that professionals working in pastoral care occupational therapy social work and radiography will be interested in this book

Understanding Ethics and Ethical Decision-Making Vincent Icheke, BSc (Hons), PGCE, PGDi, 2011 This book has been about ethics and ethical decision making As ethical reflection permeates every decision made in practice the book discussed the importance of developing moral reasoning ability which is crucial for handling ethical dilemma and making ethical decisions in nursing and social work practice The book encouraged the use of models as another form of ethical decision making paradigms The book used discussions based on case studies to illustrate how ethics inform practice and allow one to make decisions that are morally justifiable This book will enable our students to

gain a step by step approach to the knowledge and application of Ethics to practice The book drew from the work of many scholars and designed a simple model to help students gain the knowledge of ethical analysis and decision making Vidal Johnson Senior Lecturer in Law and Ethics London South Bank University I was impressed by the way this author consistently addressed both social work and nursing ethical issues highlighting the importance of ethics and application in nursing and social work practice Michelle Evans Senior lecturer in Learning Disability Mental Health and Social Work London South Bank University Most other published books on nursing and social work ethics are often laden with theories and principles This book offers an excellent contribution to the understanding of the relationship between learning ethical theories and principles and their practice applications Jude C Ibe Principal lecturer in Dept of Family Care and Mental Health University of Greenwich London

*Essays on Nursing Leadership* Claire M. Fagin, PhD, RN, FAAN, 2000-09-07 This collection of works will lend valuable insights into current challenges from one of the masters I personally want to thank Claire for making this collection available so that many more will be inspired by her as I and many others have been from the foreword by Pamela J Maraldo PhD RN FAAN These selections represent the best of Claire M Fagin's writings over a 30 year period In her direct and vivid style she shares many of the skills necessary to become a nurse leader and passionately discusses many of the issues facing health care in which nurses can play a leadership role

Preemie Parents Lisa McDermott-Perez, 2007-01-30 The number of

premature births in the United States has risen dramatically in recent years with premature birth now designated the 1 obstetrics problem in the United States affecting some 12 percent of all births In the midst of these births where a mother's arms and joy are replaced by incubators and cautious hope are the parents whose strength and emotional stability may understandably wane in the face of the challenges and fears created with the birth It is about and for the benefit of these parents that this helpful book was written Psychotherapist Lisa McDermott Perez joined in this work by several medical experts also offering insights reveals the world of preemie parents and the emotional stresses they face before and after the birth From feelings of guilt and anger over real and imagined mistakes to depression jealousy and fear we learn how traumatic this time can be for mothers and fathers This book takes us step by step to either recover as Preemie Parents or to help loved ones who are facing the situation Appendices list resources and support networks definitions of terms and equipment commonly used in neonatal medicine and common medications and their potential side effects Moving with the Times Sreelekha Nair, 2020-11-29 This book is an attempt to penetrate the silence that surrounds the lives of nurses as migrant women It offers a perceptive understanding of the trials faced specifically by women from the state of Kerala in their personal and professional spheres in the challenges posed to single women migrants as such and the lower status ascribed to the job In highlighting aspects of their lived experiences it reveals how the identities of gender class and ethnicity unmask the realities behind claims of egalitarianism and equal citizenship Nurses from Kerala form one of the largest groups of migrant women workers in the international service sector along with Filipinos and Sri Lankans Comparatively better salaries work opportunities and financial independence along with a desire to travel across the world are often the reasons behind these migrations For many of these women the professional choice of nursing is usually the first step towards migration while finding employment in Delhi the urban capital of India is intended as a transition point before they migrate abroad a trajectory which may remain unrealised In focusing on nurses who choose to work in Delhi the author recounts how the patriarchy of the original place is recreated and relived in destination cities In as much as traditional stigmatisation of nursing as a dirty profession deeply entrenched gender prejudices and status and role anxieties act as deterrents these women remain undaunted in the face of adversities and treat their exposure to and experience of technology and nursing care in the bigger hospitals in Delhi as part of the training that is required to apply abroad Through extensive empirical research case studies and personal interviews Moving with the Times illustrates nurses' lives in Delhi providing an account of the dynamics between traditional patriarchy norms and associated identities low professional status and marginality coupled at once with the sense of personal freedom a new career and space that migration compels these women to negotiate This book will appeal to scholars of sociology gender and women's studies nursing and healthcare and those interested in migration and identities **Das Schweizer Buch**, 2000
