Advanced Practice Palliative Nursing is the first text devoted to advanced practice nursing care of the seriously ill and dying. This comprehensive work addresses all aspects of palliative care including physical, psychological, social, and spiritual needs. Chapters include symptoms common in serious illness, pediatric palliative care, spiritual and existential issues, issues around the role and function of the advanced practice nurse, APN reimbursement, and nursing leadership on palliative care teams. Each chapter contains case examples and a strong evidence base to support the highest quality of care. The text is written by leaders in the field and includes authors who have pioneered the role of the advanced practice nurse in palliative care. This volume offers advanced practice content and practical resources for clinical practice across all settings of care and encompassing all ages from pediatrics to geriatrics.

Pharmacology in Nursing Gayle McKenzie, Bonita Broyles, Mary E. Evans, Rachel Page, Susan Pleunik, Barry S. Reiss, 2016-10-05

Focuses on the use of drugs as medications within the healthcare environment in Australia and New Zealand. We use the term medication rather than drug throughout this book to refer to any drug that is used in the healthcare context, although the terms are generally interchangeable, and it is the generic name of a medication that does not change and is the essential name for the nurse to know. We also introduce some abbreviations that are commonly used by healthcare providers and pharmacists in writing and preparing medication prescriptions. Two new chapters have been included in the second edition. One chapter covers pharmacogenetics and pharmacogenomics, an area of growing interest in personalised

medicine and the other covers legal and ethical issues related to the administration of medications from preface
