Fitzpatrick, Ruth Chasek, 2001 Back of book copy This book will help you find the most reliable sources of health information on the Internet The sites in this book

have been selected and reviewed by expert nurses in over 40 specialties Sites have been reviewed for accuracy currency sponsorship ease of use by the general public and availability in languages in addition to English The result is a treasure of information sources for patients and health care professionals For professionals This book will help you find the most reliable sources of health information on the Internet for your patients All the sites in this book have been selected and reviewed by expert nurses in over 40 specialties most of them nursing educators with doctoral degrees Sites have been reviewed for ease of use by the general public accuracy currency sponsorship and availability in languages besides English The result is a treasure of information sources all judged accurate and current by knowledgeable professionals For consumers This book will help you find the most reliable sources of health information on the Internet All the sites in this book have been selected and reviewed by expert nurses in over 40 health specialties Sites have been reviewed for ease of use by the general public accuracy currency sponsorship and availability in languages besides English The result is a treasure of information sources all judged accurate and current by knowledgeable professionals All purpose This book gives both the professional and patient a tool for finding reliable health information on the Internet All the sites in this book have been selected and reviewed by expert nurses in over 40 specialties most of them nursing educators with doctoral degrees Sites have been reviewed for ease of use by the general public accuracy currency sponsorship and availability in languages besides English The result is a treasure of information sources all judged accurate and current by knowledgeable professionals Building and Managing Effective Physician Organizations Under Capitation Douglas E. Goldstein,1996 This resource offers you a unique Building Block system a proven effective tool used by organizations to survive and prosper in an era of different reimbursement schemes from discounted fee for service and primary care capitation to global capitation and percent of premium payment

**Practice-Based Nutrition Care, An Issue of Medical Clinics of North America** Scott Kahan,Robert F. Kushner,2016-10-18 This issue of Medical Clinics guest edited by Drs Scott Kahan and Robert Kushner is devoted to Practice Based Nutrition Care Articles in this outstanding issue include Principles and Practice of Nutrition Assessment in Primary Care Principles and Practice of Nutrition Counseling and Behavioral Medicine in Primary Care Nutrition for the Prevention of Chronic Disease Nutrition Recommendations in Pregnancy and Lactation Nutrition Recommendations in Children Nutrition Recommendations in Elderly and Aging Nutrition Interventions for Cardiovascular Disease Nutrition Interventions for Renal Disease Nutrition Interventions for Diabetes Mellitus and Metabolic Syndrome Nutrition Interventions for Chronic Liver Disease and NAFLD Nutrition Interventions for Obesity and Nutrition Interventions for Cancers The Medical Library Association Guide to Providing Consumer and Patient Health Information Michele Spatz,2014-05-01 Comprised of fifteen chapters written by experienced consumer health librarians The Medical Library Association Guide to Providing Consumer and Patient Health Information is designed for library and information science graduate students as well as librarians new to health and medical librarianship regardless of library setting It is comprehensive in scope covering all aspects of consumer

and patient health and medical information from their humble grassroots beginnings to the ever evolving applications of new technology and social media In between the mundane aspects of health and medical librarianship such as needs assessment costs budgeting and funding and staffing are discussed Adding richness to this discussion are the coverage of more sensitive topics such as patient friendly technology ethical issues in providing consumer and patient health information meeting the needs of diverse populations and responding to individuals from various cultural backgrounds No comprehensive picture of consumer and patient health librarianship would be complete without addressing the critical importance of marketing and strategic partnerships such discussions round out this invaluable guide Patients today must be knowledgeable enough to participate in their health and well being Shorter hospital stays changing reimbursement patterns and the gradual shift towards focusing on proactively maintaining health and managing disease require patients to be informed and actively engaged Education information and understanding are important components of actively engaged patients Correspondingly in today's world there is a glut of information resources available through the Internet from YouTube videos to Googling to blogs and Twitter feeds What is lacking in these information rich times is the relevance of meaning and context for those who ask Does this health and medical information apply to me and my unique clinical picture or How do I use this information As knowledge navigators information technology wizards and content experts librarians offer focused responses to individuals specific and highly personal health and medical information queries In a new healthcare world order of optimizing health and minimizing hospitalizations such a service is invaluable Sadly there still exists in our highly networked and technological age an information gap for those who struggle in obtaining meaningful health or medical information These individuals may be foreign born non English speaking poor rural aged or semi literate Whatever their status librarians must have the wherewithal to find germane resources and also help create responsive mechanisms to bridge that health information gap for vulnerable citizens The Medical Library Association Guide to Providing Consumer and Patient Health Information will guide you on the road to providing that response

*The Complete Idiot's Guide to Online Medical Resources* Joan Price, 2000 From avoiding scams to getting what you need Price provides a reader friendly trustworthy guide to finding and evaluating reliable medical information online

• • • • •, 2016-09-28 vs vs Internet Resources For Nurses Joyce J. Fitzpatrick, 2003 This new edition of the award winning guide to the web for nurses is nearly double in size and twice as useful Expert nurses in more than 50 content areas have carefully selected and reviewed nearly 400 web sites available in their specialty areas resulting in an authoritative guide to the best the web has to offer for the professional nurse Each web description includes a summary of the site intended audience sponsor level of information and relevance to nurses The book also indicates sites which can be referred to patients
