protections and Native sovereignty re centering women and their critical role in transmitting cultural knowledge reflecting on decolonization work in museums and examining how artworks function as living documents The volume exemplifies respectful and relational engagement with Indigenous art and advocates for more accountable scholarship and practices

Household Archaeology on the Northwest Coast Elizabeth A. Sobel, D. Ann Trieu Gahr, Kenneth A. Ames, 2006-07-01 Since the late 1970s household archaeology has become a key theoretical and methodological framework for research on the development of permanent social inequality and complexity as well as for understanding the social political and economic organization of chiefdoms and states This volume is the cumulative result of more than a decade of research focusing on household archaeology as a means to gain understanding of the evolution of social complexity regardless of underlying economy *The Oxford Handbook of Prehistoric Figurines* Timothy Insoll, 2017 The Oxford Handbook of Prehistoric Figurines is the first text to offer a comparative survey of figurines from across the globe bringing together myriad contemporary research approaches to provide invaluable insights into their function context meaning and use as well as past thinking on the human body gender and identity **Family origin histories** Edward Sapir, Morris Swadesh, Alexander Thomas, John Thomas, 2009-01-01 Nuuchah-nulth family histories are actually tribal histories since their idea of family encompasses the tribe Eighteen such histories are presented here chronicling the origins and resources of a number of tribal families In lieu of written records these oral traditions stood as Nuuchah-nulth history and were recited formally in public on ceremonial occasions Several accounts give long lists of foods Others describe the acquisition of important technological advances such as a salmon trap Half of the texts are short focusing on a particular item like a mask or a house decoration One text lists hundreds of Nuuchah-nulth place names given mythically by Swan Women to the Port Alberni region which was previously Salish in population and language Generally these histories explain how the world came to be and set forth family claims to material and spiritual resources Each account belonged to the family which had the exclusive right to tell it publicly Summary outlines are provided in the introduction Published in English **Spirits of Our Whaling Ancestors** Charlotte Coté, 2015-07-21 Following the removal of the gray whale from the Endangered Species list in 1994 the Makah tribe of northwest Washington State announced that they would revive their whale hunts their relatives the Nuuchah-nulth Nation of British Columbia shortly followed suit Neither tribe had exercised their right to whale in the case of the Makah a right affirmed in their 1855 treaty with the federal government since the gray whale had been hunted nearly to extinction by commercial whalers in the 1920s The Makah whale hunt of 1999 was an event of international significance connected to the worldwide struggle for aboriginal sovereignty and to the broader discourses of environmental sustainability treaty rights human rights and animal rights It was met with enthusiastic support and vehement opposition As a member of the Nuuchah-nulth Nation Charlotte Cote offers a valuable perspective on the issues surrounding indigenous whaling past and present Whaling served important social economic and ritual functions that have been at the core of Makah and Nuuchah-nulth

societies throughout their histories Even as Native societies faced disease epidemics and federal policies that undermined their cultures they remained connected to their traditions The revival of whaling has implications for the physical mental and spiritual health of these Native communities today Cote asserts Whaling she says defines who we are as a people Her analysis includes major Native studies and contemporary Native rights issues and addresses environmentalism animal rights activism anti treaty conservatism and the public s expectations about what it means to be Indian These thoughtful critiques are intertwined with the author s personal reflections family stories and information from indigenous anthropological and historical sources to provide a bridge between cultures A Capell Family Book

North American Indigenous Warfare and Ritual Violence Richard J. Chacon, Rubén G. Mendoza, 2007-09-15 Despite evidence of warfare and violent conflict in pre Columbian North America scholars argue that the scale and scope of Native American violence is exaggerated They contend that scholarly misrepresentation has denigrated indigenous peoples when in fact they lived together in peace and harmony In rebutting that contention this groundbreaking book presents clear evidence from multiple academic disciplines that indigenous populations engaged in warfare and ritual violence long before European contact In ten well documented and thoroughly researched chapters fourteen leading scholars dispassionately describe sources and consequences of Amerindian warfare and violence including ritual violence Originally presented at an American Anthropological Association symposium their findings construct a convincing case that bloodshed and killing have been woven into the fabric of indigenous life in North America for many centuries The editors argue that a failure to acknowledge the roles of warfare and violence in the lives of indigenous North Americans is itself a vestige of colonial repression depriving native warriors of their history of armed resistance These essays document specific acts of Native American violence across the North American continent Including contributions from anthropologists archaeologists historians and ethnographers they argue not only that violence existed but also that it was an important and frequently celebrated component of Amerindian life CONTENTS

Work, Class, and Power in the Borderlands of the Early American Pacific

Evan Lampe, 2013-12-12 This book traces the history of working people who helped established the foundation of the American empire in the Pacific from its origins after the American Revolution to its coming of age in the 1840s and 1850s Beginning with the expeditions of the Columbia and the Lady Washington Lampe argues that the early American Pacific can best be considered through the interaction of four major locations connected through the networks of trade the merchant ship the Northwest Coast Honolulu and Canton Guangzhou In each of these locations the labors of a diverse population of working people was harnessed in the critical labors of empire building including the transportation of goods The central question that the consideration of working people in the Pacific economy during this period is Lampe argues the role of power applied on these laborers by an international capitalist class emerging alongside the Pacific commercial empires Lampe also finds that this power was not uncontested and emerged in response to the activities of labor Working people on the ship and in the port cities found ways to secure their piece of the profitable trade often through illicit means
