Brown, 2016-09-25 Daniel Jefferies was always happy even though he led a challenging life It was

not so much that Danny was bothered by his troubles rather life was hard on those who loved and cared about him At a very young age it became clear that Danny was a special person Whether that was special in a good way or special in a bad way was in the eye of the beholder Danny was neither a square or round peg so he never fit into the spaces that were laid out for him The only thing for sure was that Daniel Jefferies had an unmistakable effect on everyone around him And since Danny was a happy person it made sense that he would make those around him feel better But all that changed one day when researchers believed that they could harness his gift In doing so they unwittingly unleashed Daniel Jefferies to become something that was not meant to be unleashed Brain Storm is a story so real that you wonder when not if it is going to happen

Literature and the Metaphoric Universe in the Mind Nicolae Babuts,2017-07-05 Nicolae Babuts believes that the study of metaphoric thought and literature can be enriched by the application of recent discoveries from neuroscientific c experiments He maintains that metaphors are neither linguistic formations nor conceptual formations but instead the product of association of images and language They are a matter of vision Memory is an essential component in the creation of meaning and is the way the mind receives messages from the outside world In this process of transferring data from the outside world the mind s overriding tendency is to integrate and interpret Thus incoming messages are recognized and given meaning whether they are in harmony with the inner world of the mind or in confl ict with it Babuts argues that the literature we read is related to our perception of reality And reality has two identities the physical identity of the outside world and its symbolic identity within memory The symbolic identity of the outside world is represented internally by the metaphoric universe in the mind
