Psychoanalysis And The Sacred:

Psychoanalysis and the Sacred Frank Malone (PsyD.), Claude Barbre, 2005 *In Search of the Spiritual* Paul Marcus, 2018-04-17 This book is a most impressive and important study of the presence of the spiritual and the sacred in the writings of the twentieth century French philosopher Gabriel Marcel offering immense help in understanding Marcel and in seeing the usefulness of his ideas in psychoanalysis

Psychoanalysis as a Spiritual Discipline Paul Marcus, 2021-04-27 The great existential psychiatrist Ludwig Binswanger famously pointed out to Freud that therapeutic failure could only be understood as the result of something which could be called a deficiency of spirit Binswanger was surprised when Freud agreed asserting Yes spirit is everything However spirit and the spiritual realm have largely been dropped from mainstream psychoanalytic theory and practice This book seeks to help revitalize a culturally aging psychoanalysis that is in conceptual and clinical disarray in the marketplace of ideas and is viewed as a theory in crisis no longer regarded as the primary therapy for those who are suffering The author argues that psychoanalysis and psychoanalytic psychotherapy can be reinvigorated as a discipline if it is animated by the powerfully evocative spiritual moral and ethical insights of two dialogical personalist religious philosophers Martin Buber a Jew and Gabriel Marcel a Catholic who both initiated a Copernican revolution in human thought In chapters that focus on love work faith suffering and clinical practice Paul Marcus shows how the spiritual optic of Buber and Marcel can help revive and refresh psychoanalysis and bring it back into the light by communicating its inherent vitality power and relevance to the mental health community and to those who seek psychoanalytic treatment

Psychoanalysis and Religious Experience William W. Meissner, 1986-01-01 In this provocative book W W Meissner a Jesuit and psychoanalyst attempts to bring about a rapprochement between psychoanalysis and religious thinking Utilizing the resources of modern psychoanalytic insight he examines Freud's views on religion explores the dialectical relationship between psychoanalysis and religion and applies more contemporary concepts in psychoanalysis to the understanding of religious experience Dr Meissner has written a book which is consistently interesting often challenging and impressive for its wide range of scholarship in two fields not often combined in the same work Dr Meissner has done us a service in this scholarly work by demonstrating how two perspectives of the human condition have over the course of the last several decades come to similar conclusions Otto F Thaler M D *Journal of the American Academy of Religion* A rich and stimulating book addressing important issues that lie at the intersection of psychoanalysis and religion Paul C Vitz *Contemporary Psychology* Meissner has made a challenging useful contribution that will be pondered applied and debated It will undoubtedly also achieve the goal of bringing about more understanding between analysts and theologians Lowell Rubin M D *Newsletter Boston Psychoanalytic Society and Institute*

The Religious and Romantic Origins of Psychoanalysis Suzanne R. Kirschner, 1996-02-23 In this book Suzanne Kirschner traces the origins of contemporary psychoanalysis back to the foundations of Judaeo Christian culture and challenges the prevailing view that modern theories of the self mark a radical

break with religious and cultural tradition Instead she argues they offer an account of human development which has its beginnings in biblical theology and neoplatonic mysticism Drawing on a wide range of religious literary philosophical and anthropological sources Dr Kirschner demonstrates that current Anglo American psychoanalytic theories are but the latest version of a narrative that has been progressively secularized over the course of nearly two millennia She displays a deep understanding of psychoanalytic theories while at the same time raising provocative questions about their status as knowledge and as science

Violence and the Sacred René Girard, 2005-04-13 Ren Girard 1923 was Professor of French Language Literature and Civilization at Stanford University from 1981 until his retirement in 1995 Violence and the Sacred is Girard s brilliant study of human evil Girard explores violence as it is represented and occurs throughout history literature and myth Girard s forceful and thought provoking analyses of Biblical narrative Greek tragedy and the lynchings and pogroms propagated by contemporary states illustrate his central argument that violence belongs to everyone and is at the heart of the sacred Translated by Patrick Gregory

The Sacred Complex William Kerrigan, 1983 This reading of Milton juxtaposes the poet s theology and Freud s account of the Oedipus complex in ways that yield both new understanding of Milton and a model for psychoanalytic interpretation of literature The book ranges widely through the art and life of Milton including extensive discussions of his theological irregularities and the significance medical and symbolic he assigned to his blindness Kerrigan analyzes the oedipal aspect of Milton s religion examines the nature of the Miltonic godhead studies Milton s analogies linking human angelic and cosmic bodies and explores Milton s symbolism of home In a commanding demonstration Kerrigan delineates how the great epic and the psyche of its author bestow meaning on each other

Terror and Transformation James William Jones, 2002 At the heart of living religion is the idealization of everyday objects Such idealizations provide much of the transforming power of religious experience which is one of the positive contributions of religion to the psychological life However idealization can also lead to religious fanaticism which can be very destructive Drawing on the work of various contemporary relational theorists within psychoanalysis this book develops a psychoanalytically informed theory of the transforming and terror producing effects of religious experience It discusses the question of whether or not if idealization is the cause of many of the destructive acts done in the name of religion there can be vital religion without idealization

The Sacred Cauldron Lionel Corbett, 2011 At a time when psychotherapy seems to be a purely secular pursuit with no connection to the sacred The Sacred Cauldron makes the startling claim that for both participants psychotherapeutic work is actually a spiritual discipline in its own right The psyche manifests the sacred and provides the transpersonal field within which the work of therapy is carried out This book demonstrates some of the ways in which a spiritual sensibility can inform the technical aspects of psychotherapy The Sacred Cauldron is truly a book to be read by both therapists and non therapists for it offers a thoughtful intelligent sensitive passage through the spiritual quarrels and complexities of our time and addresses our common summons which is to treat the life of the spirit with the respect the gravity and the centrality it deserves This book is instructive to all for Corbett not only marshals a wealth of scholarship and clinical experience but also expresses challenging insights through a calm reasonable and commonsense appeal After this book the reader will be more thoughtful more considered more sophisticated more appreciative of the importance of therapy as a vehicle for healing and for engaging the numinous James Hollis Ph D Jungian analyst and author of What Matters Most Living a More Considered Life Dr Lionel Corbett trained in medicine and psychiatry in England and as a Jungian analyst at

the C G Jung Institute of Chicago He is currently on the core faculty of Pacifica Graduate Institute in Santa Barbara California and the author of *The Religious Function of the Psyche* and *Psyche and the Sacred* as well as various professional articles His main interest is in the religious function of the psyche and the ways in which this function expresses itself through the structures of personality

Uncommon Friendships William Young, 2010-01-01 *Uncommon Friendships* explores the often overlooked dynamic of interreligious friendships considering their significance for how we think about contemporary religious thought By exploring the dynamics of three relationships between important religious thinkers Franz Rosenzweig and Eugen Rosenstock Huessey Emmanuel Levinas and Maurice Blanchot and Julia Kristeva and Catherine Clement this study demonstrates the ways such friendships enable innovation and transformation within religious traditions For each pair of thinkers the sustained engagement and disagreement between them becomes central to their religious and philosophical development helping them to respond effectively and creatively to issues and problems facing their communities and societies Through a rereading of their work Young shows how such friendships can help us rethink religion aesthetics education and politics as well as friendship itself

Gender, Genre and Religion Morny Joy, Eva K. Neumaier-Dargyay, 2006-01-01 Many feminists today are challenging the outmoded aspects of both the conventions and the study of religion in radical ways Canadian feminists are no exception *Gender Genre and Religion* is the outcome of a research network of leading women scholars organized to survey the contribution of Canadian women working in the field of religious studies and further to plot the path forward This collection of their essays covers most of the major religious traditions and offers exciting suggestions as to how religious traditions will change as women take on more central roles Feminist theories have been used by all contributors as a springboard to show that the assumptions of unified monolithic religions and their respective canons is a fabrication created by a scholarship based on male privilege Using gender and genre as analytical tools the essays reflect a diversity of approaches and open up new ways of reading sacred texts Superb essays by Pamela Dickey Young Winnie Tamm Morny Joy and Marsha Hewitt among others honour the first generation of feminist theologians and situate the current generation showing how they have learned from and gone beyond their predecessors The sensitive and original essays in *Gender Genre and Religion* will be of interest to feminist scholars and to anyone teaching women and religion courses

Sociology and the Sacred Antonius A.W. Zondervan Zondervan, 2016-06-16 The acclaimed American sociologist and cultural philosopher Philip Rieff gained great academic prestige with his thesis on the emergence of Psychological Man in western culture and with his classic book *Freud The Mind of the Moralists* published in 1959 In this work and the later *The Triumph of the Therapeutic* 1966 he not only offered a highly original interpretation of the work of Sigmund Freud but critically evaluated the enormous influence of psychotherapeutic thinking on Western culture However Rieff's later work on the theory of culture did not garner the same attention and his most recent writings have received very little critical engagement In *Sociology and the Sacred* Antonius A W Zondervan sets out to remedy this neglect arguing that

Rieff's work is ripe for intellectual reconsideration. Zondervan begins by presenting an outline of Rieff's entire body of work focusing on his theory of culture and explaining how the sacred is a key notion pivotal to the overall understanding of Rieff's work. The author argues that the present upsurge in religion in many varieties throughout the world cannot be explained by the classical secularization thesis, making Rieff's theory of sacred order in culture an essential contribution to a new social theory of religion. Including material from personal interviews with Rieff that enabled Zondervan to clarify important aspects of his work, *Sociology and the Sacred* is an essential contribution to the understanding of contemporary culture's maintenance of its ties to religion.

Methodology in Religious Studies Arvind Sharma, 2012-02-01

Methodology in Religious Studies assesses the impact of women's studies on the various methods employed in studying religion. Since its inception in the 1860s, the study of religion as an academic discipline has evolved over time, ranging from the classically historical to the boldly hermeneutical. The women's studies movement has since the 1980s become part and parcel of the intellectual landscape of our times, and the study of religion has become increasingly influenced by it. What are the implications of this new development for the methodology of religious studies? Leading practitioners of psychological, theological, sociological, anthropological, phenomenological, historical, and hermeneutic approaches examine the mutually enriching interface between religious studies and women's studies as they explore the broader issue of the interaction between method and the nature of the subject itself.

The Doctrine of Creation Bruce Riley Ashford, Craig G. Bartholomew, 2020-11-10

According to Bruce Ashford and Craig Bartholomew, one of the best sources for regaining a robust biblical doctrine of creation is the recovery of Dutch neo-Calvinism.
