Social Psychology of Pictures Pascal Moliner,2020-03-02 We see and represent our social environment not as it is but as we believe it to be This is the thesis defended in this book supported by conceptual elements and illustrated by numerous examples drawn from anthropology developmental psychology cognitive psychology and social psychology These examples show that people sharing different beliefs about the same object produce different images of that object such as drawings or photos and highlight that such people interpret the same image of this object differently Finally they show that when these people communicate through images they find it difficult to understand each other On the basis of these observations the book proposes a psychosocial theory of the link between beliefs and iconography This book is mainly intended for students and researchers in the humanities and social sciences interested in the problematic of images However it will also be of interest to communication practitioners and the general public *Psychological Review* James Mark Baldwin,James McKeen Cattell,Howard Crosby Warren,Herbert Sidney Langfeld,John Broadus Watson,Carroll Cornelius Pratt,Theodore Mead Newcomb,1905 Issues for 1894 1903 include the section Psychological literature **The Psychology of Childhood** Naomi Norsworthy and Mary Theodora Whitley,1918 *A Handbook of Visual Methods in Psychology* Paula Reavey,2020-08-23
