McManus, Stanton Newman, Kenneth
Wallston, John Weinman, Robert West**

Psychology For Health Carers:

Introduction to Psychology for Health Carers Julia Russell, 2005 This book provides an accessible introduction to psychological research and theory relating these to healthcare experiences and practice It explains how psychological theories can be used to interpret explain and actively influence a students own experience of and practice in everyday contexts The book includes student interviews to enhance applicability of examples offered Introduction to Psychology for Health Carers Julia Russell, Craig Roberts, 2014 **Health Psychology for Health Care Professionals** Neil Niven, 1999 This book provides a readable introduction to health psychology and acknowledges that many of its readers will not have a background understanding of psychology The emphasis is on health and health promotion the stress and strain of everyday life communicating effectively with patients and their families understanding people s motivation to behave healthily or unhealthily The book also explores examples of how psychological models apply to illness and treatment Applied Psychology in Health Care Donnie J. Wilbanks, 2009 Applied Psychology in Health Care Care applies the basics of psychology to provide caregivers with an understanding of the mental health of patients and themselves The text prepares health care workers to effectively communicate and provide superior patient care Application sections present listening and communication skills for each area of specialization to improve healthcare at all levels A Psychologist's Proactive Guide to Managed Mental Health Care Alan J. Kent, Michel Hersen, 1999-12 This guide offers a concise overview of the evolution of managed mental health care its impact on the working lives of clinical counseling psychologists explores the ways in which they can make managed care work for rather than against them Health Promotion in Long-Term Care Facilities Kallol Kumar Bhattacharyya, 2025-06-11 This book discusses biopsychosocial barriers and facilitators of long term care services focusing on health promotional activities targeted to maximize quality of life This knowledge of meaningful activities helps to identify and improve strategies for supporting people living in long term care facilities with various chronic disorders at a deeper level Although no all encompassing theory of caregiving has yet been developed this book explores various theoretical formulations as central aspects of promoting health in long term care practices The current culture change in long term care controls the well being of the concerned person physically psychologically socially and economically In later life these issues profoundly impact individuals morbidity and lifespan Further it has been evidenced that the Centers for Medicare instead of clinical quality measures only it is influenced by residents their family members staff and administration Person centered care not only requires a culture change in how residents and caregivers work together but it also requires facilities to ensure staff deliver care with the highest possible level of empathy and adopt meaningful care practices Among the topics covered in this contributed volume Are Quality of Care and Quality of Life Synonymous in Long Term Care Aging in Place or Long Term Care Changing the Narrative to Promote Aging in Place in Long Term Care Person Centered Care and Culture Change Movement in Long Term Care Extending the Age Friendly Movement to Long Term Care Potential of Health Promotional

Practices in Long Term Care Health Promotion in Long Term Care Facilities is an essential resource for a diverse readership including academics and researchers in gerontology aging studies health management and policy health sciences nursing psychology social work and public health as well as caregivers and policymakers The book s academic value from a multidisciplinary perspective would be beneficial for students in the above mentioned fields

Cancer in Context James Brennan, Clare Moynihan, 2004 This book offers healthcare professionals academics and anyone affected by cancer a fresh and original approach to the supportive care of people with cancer It looks at the underlying reasons why cancer so often leads to high levels of distress and more importantly it suggests many practical ways distress can be minimised and prevented The actual experiences of cancer patients as recorded in their personal diaries are combined with theory research and practical clinical advice In each of its seven chapters *Cancer in Context* takes a different perspective towards supportive care in cancer It begins by considering how people in general manage and adjust to massive changes in their lives and in particular how they react to the threat of cancer It goes on to examine the lived experience of people with cancer as they negotiate the many changes and challenges that follow their diagnosis Of course cancer doesn t only affect the person who has the disease it also impacts on families partners and carers One chapter explores these and other issues such as sexual difficulties the needs of older people single people and gay and lesbian couples Chapter 4 shows that the social and cultural context of a person s life is critical to understanding their resources the way they are treated and the responses they make to serious illness However it is in the clinical context that professionals have an opportunity to minimise disruption to their patients quality of life as they endure the notorious demands of oncology treatments The book offers practical clinical advice on psychosocial aspects of conventional cancer treatments common treatment difficulties cancer rehabilitation and palliative care Chapter 6 provides a summary of the burgeoning area of information and communication skills within healthcare and finally the book ends by considering how doctors nurses radiographers and other healthcare professionals can maintain their supportive care in light of such high levels of stress and burnout among these staff groups

EBOOK: Psychological Care for Ill and Injured People: A Clinical Guide Keith Nichols, 2003-09-16 Is the psychological care of patients neglected in hospitals and health centres What is the impact of this neglect What type of psychological care is needed and how should it be organized In this new guide Keith Nichols examines the importance of psychological care for ill and injured people The book gives practical advice to develop health professionals personal clinical practice by providing a guide to the organization of psychological care and coaching in the essential skills Written in a tutorial style with an emphasis on clinical observation and case material that illustrates the psychological needs of patients and their partners the book demonstrates that the neglect of psychological care for the ill and injured can undermine progress in treatment and recovery and increase medical costs The need for urgent improvement is stressed This book is an essential tool for all health care professionals who have regular patient contact including nurses doctors the therapy professions and clinical health psychologists

Anti-discriminatory Practice in Mental Health Care for Older People Pauline Lane, Rachel Tribe, 2017-02-21 This book provides mental health students and practitioners with the key knowledge to carry out anti discriminatory practice while working with older people from minority groups With contributions from experts in the fields of mental health and care for older people it looks at issues for practice such as access to services for minority groups
