The Cruel Radiance Susie Linfield, 2011-05-27 In *The Cruel Radiance* Susie Linfield challenges the idea that photographs of political violence exploit their subjects and pander to the voyeuristic tendencies of their viewers Instead she argues passionately that looking at such images and learning to see the people in them is an ethically and

politically necessary act that connects us to our modern history of violence and probes the human capacity for cruelty. Grappling with critics from Walter Benjamin and Bertolt Brecht to Susan Sontag and the postmoderns and analyzing photographs from such events as the Holocaust, China's Cultural Revolution and recent terrorist acts, Linfield explores the complex connection between photojournalism and the rise of human rights ideals. In the book's concluding section she examines the indispensable work of Robert Capa, James Nachtwey and Gilles Peress and asks how photography should respond to the increasingly nihilistic trajectory of modern warfare. A bracing and unsettling book, *The Cruel Radiance* convincingly demonstrates that if we hope to alleviate political violence we must first truly understand it and to do that we must begin to look.

Osho: The Luminous Rebel Vasant Joshi, 2015-04-23 Often described as a rebel, an iconoclast, an enlightened mystic and an intellectual giant, Osho also known as Acharya Rajneesh and Bhagwan Shree Rajneesh is all this and more. He brought about a spiritual revolution in the lives of those who cared to grow intellectually. He spoke fearlessly against orthodox religions, priests, politicians, age-old traditions and anything he thought was a hindrance to the path of self-realisation. This made him the most talked about and controversial mystic of the twentieth century. Enlightenment of this stature is not attained in a few years or even in a lifetime; it is spread over hundreds of years and over lives, as was with the case of Osho, who spoke about his previous life and birth. This is only one of the many astounding facts about Osho which this book reveals. *Osho: The Luminous Rebel* traces the story of Osho from his birth, talking about his spiritual search for truth and the wondrous story of his enlightenment. The book also takes the reader through those years of Osho's struggle with authority, figures his travels all over India to the much-hyped city of Rajneeshpuram in the US to one of the greatest mysteries of our times. Osho believes that he was poisoned by the US government when he was detained in various jails; there he was later denied visas in almost all countries across the world. Events he reveals that exposed the true face of democracy. *Osho: The Luminous Rebel* is for all Osho lovers and admirers, for the uninitiated but spiritually inclined and for those who are just curious to know more.

Radiance Catherynne M. Valente, 2015-10-20 *Radiance* is a decopunk pulp SF alt history space opera mystery set in a Hollywood and solar system very different from our own. From Catherynne M. Valente, the phenomenal talent behind the New York Times bestselling *The Girl Who Circumnavigated Fairyland in a Ship of Her Own Making*, Severin Unck's father is a famous director of Gothic romances in an alternate 1986 in which talking movies are still a daring innovation due to the patent hoarding Edison family. Rebelling against her father's films of passion, intrigue and spirits from beyond, Severin starts making documentaries traveling through space and investigating the levitator cults of Neptune and the lawless saloons of Mars. For this is not our solar system but one drawn from classic science fiction in which all the planets are inhabited and we travel through space on beautiful rockets. Severin is a realist in a fantastic universe. But her latest film, which investigates the disappearance of a diving colony on a watery Venus populated by island-sized alien creatures, will be her last. Though her crew limps home to earth and her story is preserved by the colony's last survivor.

Severin will never return Told using techniques from reality TV classic film gossip magazines and meta fictional narrative Radiance is a solar system spanning story of love exploration family loss quantum physics and silent film At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied [Toward the Poems of Mallarme](#)
