Rafting Rise:

Whitewater Rafting on West Virginia's New & Gauley Rivers Jay Young, 2011-07-14 A certain mixture of whimsy and derring do is required to shove off down or up the New or Gauley River with scant protection aside from a helmet life vest and ones compatriots Its a choice that could be so easily avoided but that wouldnt make sense to the proud and colorful characters who have long been shooting these rapids some of the most popular and treacherous in the country Here Jay Young a raft guide turned writer leads readers through the local lore and history of the rivers wheremuch to the delight of those brave enough to face these rapidsthe ordinary almost never occurs

Rafting Rise Joe Survant, 2002 Rafting Rise is a terrific book the richly detailed evocation of an entire world and an important contribution to the literature of the rural South Ted Kooser Rafting Rise has the strength of extended narrative and the quickness of lyric poetry There is a haunting visionary quality to Joe Survant s dramatic poem bringing to life a world of log rafting and floodplain dwellers along the Rough and Green Rivers in 1916 and 1917 The sections are snapshots and ballads of witness a counterpoint of voices that open a window on this long ago time and place of giant catfish and spells logjams and river witch The phrases shine and the lines sing out and the dead come back and speak again as the real enters the realm of legend Robert Morgan Joe Survant writes about turn of the century backwoods America with an uncanny sense of firsthand knowledge He knows whereof he writes and he writes with an authority that derives from a deep seated respect for the lives of river folk and trappers and the lone inhabitants of womenless shacks And for all the harsh realities of a life hacked out of such rough terrain Mr Survant never overlooks the beauty of sycamores grazing by the creek wild grapes growing in the river bottoms or a thicket lit by trumpet weed To read this book is to enter a world and to follow its narrative is to be carried on the current of a deeply compelling adventure Sherod Santos Set in the central Kentucky basins of the Rough Green and Ohio Rivers in 1916 17 Rafting Rise joins the storytelling virtues of fiction with the intensity of the poetic lyric to reach a wider audience including readers of poetry lovers of good tales and those interested in the small events of history recreated through the lives of carefully imagined characters The book s central action is the rafting of logs in winter down the rivers to the lumber mills in Evansville Indiana Survant re creates the whole fabric of the hardscrabble society that lives by this perilous trade They are tough people such as Carl Peters stranded on a raft run aground in a freezing rain walking in a figure eight all night to stay alive while his fellow rafter Tom Simpson who didn t make it lay like frozen wood in the bottom of our boat Elsewhere in love poems and poems celebrating the lush riverine landscape Survant conveys the simple sensuous moments that punctuate this hard life Here is Bill Balcom at a camp meeting eighteen and chafing for adventure on the river When I took a piece of Susie s buttermilk pie I saw her looking and when I ate I imagined her taste But none of the characters is more vivid than Sallie the female protagonist a half mad medicine woman living with her dogs in whatever shelter she can find Survant gives Sallie such a deep empathy with the countryside and its creatures that she becomes the spirit of the place But Sallie pays dearly for

her empathy with nature hearing voices over which she has no power Worse she has the curse of prophecy can see the hand of death before it strikes and is as much feared as needed by the community Through these and a handful of other characters Survant fashions a verse epic of Kentucky on the eve of the entry of the United States into World War I This volume continues the experiment begun in his earlier Anne Anne Alpheus 1842 1882 winner of the Arkansas Poetry Award **Tales of the Favorite Extreme Sports** MD Shar,101-01-01 The book is structured to provide both a deep dive into the specifics of each sport and a broader understanding of their impact Each chapter begins with an introduction to the sport followed by a detailed exploration of its rules regulations and significant milestones Readers will find accounts of major completions and notable achievements alongside the historical context that has shaped the development of these sports The stories of key figures and their contributions are interwoven with fascinating anecdotes and memorable events that illustrate the rich tapestry of the extreme sports world Extreme sports are not just about the adrenaline rush they are also about community culture and personal growth The athletes who participate in these sports often speak of the camaraderie the shared experiences and the profound sense of accomplishment that comes from pushing themselves to new heights The book captures these elements providing insight into how extreme sports foster connections between people and communities and how they inspire individuals to challenge their limits *Report of Professor George H. Cook Upon the Geological Survey of New Jersey* New Jersey. Geological survey, 1863-1915,1891 **Combined Pile-Raft Foundations** Oliver Reul,Mark Randolph,2024-12-16 This book presents the fundamental features of the design and performance of combined pile raft foundations CPRFs Whereas in a traditional foundation the loads are carried either by the raft or by the piles the capacity of CPRFs is assessed for the foundation as a whole reducing total and differential settlements economically The five chapters provide an overview of the historical development of piled rafts in practice and research and of the design concepts developed for piled rafts over the last decades Fundamental aspects of their bearing behaviour are presented as well as an overview of the framework of the design process for CPRFs including the safety concept the design approach summarised in the ISSMGE Combined Pile Raft Foundation Guideline ISSMGE TC 212 2013 and the interaction between structural and geotechnical engineering For numerical analysis based on the finite element method guidance is given on creating the model and performing the calculations before providing basic information on the requirements for the site investigation supervision of the construction process and monitoring of the foundation performance Detailed case studies illustrate the design and performance of CPRFs and a design example for the foundation of a multi storey office building founded in non cohesive soil is investigated carrying out 3D finite element analysis to estimate deformations and design parameters for structural engineering Based on the combined experience of the authors obtained in the last decades working in the industry and research the book particularly suits consulting engineers engaged in foundation engineering as well as graduate students and researchers interested in the bearing behaviour of piled rafts and pile groups Civil Engineering And Urban Planning -

Proceedings Of The 5th International Conference On Civil Engineering And Urban Planning (Ceup2016) Ahmed Mebarki, 2017-06-02 The 5th International Conference on Civil Engineering and Urban Planning CEUP2016 was held in Xi'an, China on August 23-26, 2016. CEUP2016 gathered outstanding scientists and researchers worldwide to exchange and discuss new findings in civil engineering and urban planning associated with transportation and environmental topics. The conference program committee is also greatly honored to have four renowned experts for taking time off to present their keynotes to the conference. The conference had received a total of 410 submissions which, after peer review by the Technical Program Committee, only 108 were selected to be included in this conference proceedings which covers Architecture and Urban Planning, Civil Engineering, and Transportation Engineering. *House Documents, Otherwise Publ. as Executive Documents* United States Congress, House, Proceedings of the 5th International Conference on Geotechnics for Sustainable Infrastructure Development Phung Duc Long, Nguyen Tien Dung, 2024-07-10 This book presents 204 peer-reviewed articles from the 5th International Conference on Geotechnics for Sustainable Infrastructure Development GEOTEC HANOI 2023 held on 14-15 Dec 2023 in Hanoi, Vietnam. The papers come from nearly 40 countries of the five different continents and are grouped into six conference themes: 1 Deep Foundations, 2 Tunnelling and Underground Spaces, 3 Ground Improvement, 4 Landslide and Erosion, 5 Geotechnical Modelling and Monitoring, and 6 Offshore Wind Power. **Deep Foundations on Bored and Auger Piles - BAP V** William F. Van Impe, Peter van Impe, 2008-08-20 Although progressing very well over the last years, the design criteria for bored and auger piles are still not fully under control and in acceptable synergism with the real pile foundation behaviour. Although there has been a lot of research in the past years worldwide on deep foundation engineering, the strong and competitive market has... *Raft People 2: Floaters* M.L. Katz, 2014-05-30 The U.S. Navy conscripted Andrew Green before he ever got to join his family as they set out to become Raft People in order to survive the Big Flood. After the Big Flood, his old city of Houston lies under the new Sea of Mexico, but at least Andrew knows that his siblings Liz and Mark have been safely settled in Colorado. But Ensign Andrew Green is still far from Texas or Colorado as he patrols the Sea of Mexico over what used to be most of Florida. During this time, he works long hours to do his duty and retreats inside his head to relieve his loneliness and imagine a world that should have been. Then his group gets called to deliver supplies to the floating city of New Miami. Andrew meets a lovely young floater woman named Clara, but she's got secrets that can threaten Andrew's career and even his life. Andrew recruited and promoted too young feels like a kid in a sailor suit as the crew tries to beat the storm and rescue anybody they can. Still, he can't help thinking of Clara. But is this a good time to fall in love with a woman who may have almost ruined his career and even risked his life? Forest Leaves, 1919 **Design Applications of Raft Foundations** J. A. Hemsley, 2000 This book examines alternative design procedures for plain and piled raft foundations. It explores the assumptions that are made in the analysis of soil-structure interaction together with the associated calculation methods. The book gives many examples of project applications covering a wide

range of structural forms and ground conditions **The Giant Raft ...: 800 leagues on the Amazon** Jules Verne,1882

New Generation Design Codes For Geotechnical Engineering Practice - Taipei 2006 (With Cd-rom) - Proceedings Of The International Symposium Meei-ling Lin,Chung-tien Chin,Horn-da Lin,Yusuke Honjo,Kok Kwang Phoon,2006-10-25

Communication of design risk within a transparent and rational framework is necessary in view of the increasing interest in code harmonization public involvement in defining acceptable risk levels and risk sharing among client consultant insurer and financier Activities in code harmonization are particularly noteworthy For the geotechnical engineering profession there is added pressure for it to undergo a significant revamp because structural and geotechnical design are increasingly incompatible The contributions in this volume tackle the important issues relating to new generation geotechnical design codes in a bid to move geotechnical engineers forward together with the significant changes occurring at the global level
