Stewart,1999 Series discusses the political economic and cultural life of the United States in the 20th century      The United States of North America as They are Thomas Brothers,1840      We Are All Americans, Pure and Simple Leroy G. Dorsey,2013-08-28 The turn of the 20th century represented one of the most chaotic periods in the nation s history as immigrants Native Americans and African Americans struggled with their roles as Americans while white America feared their encroachments on national identity This book examines Theodore Roosevelt s public rhetoric speeches essays and narrative histories as he attempted to craft one people out of many Leroy G Dorsey observes that Roosevelt s solution to the problem appeared straightforward everyone could become Americans pure and simple if they embraced his notion of Americanism Roosevelt grounded his idea of Americanism in myth particularly the frontier myth a heroic combination of individual strength and character When nonwhites and immigrants demonstrated these traits they would become true Americans earning an exalted status that they had heretofore been denied Dorsey s analysis illuminates how Roosevelt s rhetoric achieved a number of delicate if problematic balancing acts Roosevelt gave his audiences the opportunity to accept a national identity that allowed some room for immigrants and nonwhites while reinforcing their status as others thereby reassuring white Americans of their superior place in the nation Roosevelt s belief in an ordered and unified nation did not overwhelm his private racist attitudes Dorsey argues but certainly competed with them Despite his private sentiments he recognized that racist beliefs and rhetoric were divisive and bad for the nation s progress The resulting message he chose to propagate was thus one of a rhetorical if not literal melting pot By focusing on Roosevelt s rhetorical constructions of national identity as opposed to his personal exploits or his role as a policy maker We Are All Americans offers new insights into Roosevelt s use of public discourse to bind the nation together during one of the most polarized periods in its history      **Rage in the Streets** Jules Archer,2016-04-19 Why do people riot From the Boston Massacre in 1770 to the Los Angeles riots of 1992 mob violence in the United States is often sparked by unjust court decisions unfair taxes unpopular wars the fear of unemployment and racial and ethnic prejudice But there are also seemingly senseless riots over wild concerts and sports championships What causes a peacefully assembled crowd to turn into a mindless violent mob What causes a police force or militia to lose control In this timely comprehensive overview Jules Archer describes and explains the causes of mob violence in the United States and suggests that unless we make some basic changes in the nature of our society the despair and rage that ignite mob violence may always be with us      Aging Angry Amanda Smith Barusch,2024 Never before in the history of humanity have so many people lived to be so very old Throughout our past a few individuals might have made it to old age but mass aging is a new concept for the human species      **An American Dictionary of the English Language** Noah Webster,1850      **The Culture and Politics of Contemporary Street Gang Memoirs** Josephine Metcalf,2012-06-22 The publication of Sanyika

Shakur's *Monster: The Autobiography of an L.A. Gang Member* in 1993 generated a huge amount of excitement in literary circles. New York Times book critic Michiko Kakutani deemed it a shocking and galvanic book and set off a new publishing trend of gang memoirs in the 1990s. The memoirs showcased tales of violent confrontation and territorial belonging but also offered many of the first journalistic and autobiographical accounts of the much mythologized gang subculture. In *The Culture and Politics of Contemporary Street Gang Memoirs*, Josephine Metcalf focuses on three of these memoirs: Shakur's *Monster*, Luis J. Rodriguez's *Always Running: La Vida Loca*, Gang Days in L.A., and Stanley Tookie Williams's *Blue Rage, Black Redemption* as key representatives of the gang autobiography. Metcalf examines the conflict among violence, thrilling sensationalism, and the authorial desire to instruct and warn competing within these works. The narrative arcs of the memoirs themselves rest on the process of conversion from brutal young gang bangers to nonviolent enlightened citizens. Metcalf analyzes the emergence, production, marketing, and reception of gang memoirs. Through interviews with Rodriguez, Shakur, and Barbara Cottman Becnel, Williams's editor, Metcalf reveals both the writing and publishing processes. This book analyzes key narrative conventions, specifically how diction, dialogue, and narrative arcs shape the works. The book also explores how the memoirs are consumed. This interdisciplinary study fusing literary criticism, sociology, ethnography, reader response study, and editorial theory brings scholarly attention to a popular, much discussed but understudied modern expression.

**Mastering Wartime** J. Matthew Gallman, 2000-09-12 A pioneering study of a Northern city during the Civil War that challenges the long-held belief that the War was a second American Revolution. *The Baltimore Afro-American* Hayward Farrar, 1998-05-21 Traces the development of the Baltimore Afro-American, one of America's leading black newspapers, from its founding in 1892 to the dawn of the Civil Rights Era in 1950. It focuses on the Afro-American's coverage of events and issues affecting Baltimore and the nation's black communities, particularly its crusades for racial reform in the first half of the 20th century. Farrar examines how the Afro-American grew and prospered as a newspaper and as a business. How and why the Afro-American conducted its news and editorial crusades for a powerful local and national black community free of racial disabilities is discussed as well. He also evaluates whether or not the Afro-American succeeded or failed in its racial justice campaigns and to what extent these campaigns made a difference in the local and national black communities' struggle for racial equity. He asserts that the Afro-American was a black middle-class institution that wanted to shape its community according to bourgeois values but it also broke ground by looking at class issues in the early 20th-century black community. *Under Their Own Vine and Fig Tree: The African-American Church in the South, 1865-1900* William E. Montgomery, 1995 *Black Urban History at the Crossroads* Leslie M. Harris, Clarence Lang, Rhonda Y. Williams, Joe William Trotter Jr., 2024-10-22 Drawing on significant recent scholarship on African American urban life over three centuries, *Black Urban History at the Crossroads* bridges disparate chronological, regional, topical, and thematic perspectives on the Black urban experience beginning with the Atlantic slave trade. Across ten cutting-edge chapters, leading scholars explore the many

ways that urban Black people across the United States built their own communities crafted their own strategies for self determination and shaped the larger economy culture and politics of the urban environment and of their cities regions and nation This volume not only highlights long running changes over time and space from preindustrial to emerging postindustrial cities but also underscores the processes by which one era influences the emergence of the next moment in Black urban history     Book Review Digest ,1996
