Gourvish,N. Blake,1986 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board's extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial

performance investment and commercial policies of the British Transport Commission 1948 2 Railway Executive 1948 53 and British Railways Board 1963 73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948 73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war

War Administration of the Railways in the United States and Great Britain Frank Haigh Dixon, Julius Hall Parmelee, 1918 *The History and Practice of Britain's Railways* R. W. Ambler, 1999

These papers seek to address the question of what should be the future concerns of railway historians through the consideration of a number of themes of significance in railway history While recognizing the need to revisit old areas of study these papers seek to indicate new perspectives which might be opened up They are firmly rooted in the realities of railway history with its strong and continuing appeal for both amateur and professional Some of the material is as relevant for the privatized railways of the present as the well loved railways of the past
