Poems to Night This evocative sequence of poems which echoes some of the great themes of German romanticism is now thought to represent one of the key stages in the creative breakthrough and spiritual evolution of the preeminent European poet of the twentieth century This translation was the 1st to bring all the poems together in English and is enhanced by the translator's valuable introduction and a rich selection of further poems Rilke dedicated to night at various stages of his life providing fascinating insight into Rilke's development The poems recall all of the great poet's important themes death and longing the troubling reconciliation of beauty and suffering and a search for transcendence These deep questions circle the imagery of night in Rilke's intensely lyrical style darkness the stars and the moon wheel through the verses and the play of light and dark becomes an evocation of life's duality No other poet was as singularly devoted to beauty or as capable of gifting its consolations to the reader a volume to cherish on stormy nights and peaceful ones Letters to a Young Poet Rainer Maria Rilke, 2021-04-14 Essential reading for scholars poetry lovers and anyone with an interest in Rainer Maria Rilke German poetry or the creative impulse these ten letters of correspondence between Rilke and a young aspiring poet reveal elements from the inner workings of his own poetic identity The letters coincided with an important stage of his artistic development and readers can trace many of the themes that later emerge in his best works to these messages Rilke himself stated these letters contained part of his creative genius Rainer Maria Rilke - Poems 1906 to 1926 J.
