Russia: a picture memory Bill Harris, 1991 **Russian Modernism in the Memories of the Survivors** Slav N. Gratchev, Margarita Marinova, Irina Evdokimova, 2021-06 Russian Modernism in the Memories of the Survivors tells the stories of participants in the Russian avant garde movement who lived through and continued to work under Stalin's repressive A Russian Childhood S. Kovalevskaya, 2013-12-11 In the year 1889 Sofya Vasilievna Kovalevskaya Professor of Mathematics at the University of Stockholm published her recollections of growing up in mid nineteenth century Russia Professor Kovalevskaya was already an international celebrity and partly for the wrong reasons less as the distinguished mathematician she actually was than as a mathematical lady A bizarre but fascinating phenomenon Her book was an immediate success She had written it in Russian but its first publication was a translation into Swedish the language of her adopted homeland where it appeared thinly disguised as a novel under the title From Russian Life the Rajeviski Sisters Sonja Kovalevsky Ur ryska lifvet Systrarna Rajeviski Heggstrom 1889 In the following year the book came out in Russia in two My gifted Mathematical Assistant Mr Hammond exclaimed Why this is the first handsome mathematical lady I have ever seen Letter to S V Kovalevskaya from Sylvester Professor of Mathematics New College Oxford Dec 25 1886 **Brief Honors** Moses Lewis Scudder, 1877 **Russian Irrationalism from Pushkin to Brodsky** Olga Tabachnikova, 2016-10-27 Russia once compared to a giant sphinx is often considered in the Anglophone world an alien culture often threatening and always enigmatic Although recognizably European Russian culture also has mystical features including the idiosyncratic phenomenon of Russian irrationalism Historically Russian irrationalism has been viewed with caution in the West where it is often seen as antagonistic to and subversive of the rational foundations of Western speculative philosophy Some of the remarkable achievements of the Russian irrationalist approach however especially in the artistic sphere have been recognized and even admired though not sufficiently investigated Bridging the gap between intellectual cultures Olga Tabachnikova discusses such fundamental irrationalist themes as language and the linguistic underpinning of culture the power of illusion in national consciousness the changing relationship between love and morality the cultural roots of humour as well as the relevance of various individual writers and philosophers from Pushkin to Brodsky to the construction of Russian irrationalism Modern Russian Cinema as a Battleground in Russia's Information War Alexander Rojavin, Helen Haft, 2024-07-31 This book explores how modern Russian cinema is part of the international information war that has unfolded across a variety of battlefields including social media online news and television It outlines how Russian cinema has been instrumentalized both by the Kremlin's allies and its detractors to convey salient political and cultural messages often in subtle ways thereby becoming a tool for both critiquing and serving domestic and foreign policy objectives shaping national identity and determining cultural memory It explains how regulations legislation and funding mechanisms have rendered contemporary cinema both an essential weapon for the Kremlin and a means for more independent figures to publicly frame

official government policy In addition the book employs formal cinematic analysis to highlight the dominant themes and narratives in modern Russian films of a variety of genres situating them in Russia's broader rhetorical ecosystem and explaining how they serve the objectives of the Kremlin or its opponents Russian Realisms Molly Brunson, 2016-09-10 One fall evening in 1880 Russian painter Ilya Repin welcomed an unexpected visitor to his home Lev Tolstoy The renowned realists talked for hours and Tolstoy turned his critical eye to the sketches in Repin's studio Tolstoy's criticisms would later prompt Repin to reflect on the question of creative expression and conclude that the path to artistic truth is relative dependent on the mode and medium of representation In this original study Molly Brunson traces many such paths that converged to form the tradition of nineteenth century Russian realism a tradition that spanned almost half a century from the youthful projects of the Natural School and the critical realism of the age of reform to the mature masterpieces of Tolstoy Fyodor Dostoevsky and the paintings of the Wanderers Repin chief among them By examining the classics of the tradition Brunson explores the emergence of multiple realisms from the gaps disruptions and doubts that accompany the self-conscious project of representing reality These manifestations of realism are united not by how they look or what they describe but by their shared awareness of the fraught yet critical task of representation By tracing the engagement of literature and painting with aesthetic debates on the sister arts Brunson argues for a conceptualization of realism that transcends artistic media Russian Realisms integrates the lesser known tradition of Russian painting with the familiar masterpieces of Russia's great novelists highlighting both the common ground in their struggles for artistic realism and their cultural autonomy and legitimacy This erudite study will appeal to scholars interested in Russian literature and art comparative literature art history and nineteenth century realist movements *Encyclopedia of Human Memory* Annette Kujawski Taylor Ph.D., 2013-10-29 Providing clear comprehensible information for general readers this three volume A-Z encyclopedia covers the major theories and findings associated with our understanding of human memory and some of the crippling disorders associated with memory malfunction This encyclopedia comprehensively addresses one of the most critical components of human intelligence memory Comprising approximately 500 A-Z entries written by experts who have studied memory and its impacts the work defines complex terminology for lay readers and includes answers to the most common questions regarding human memory Readers will gain an understanding of the various psychological and physiological systems of memory such as short term or procedural memory comprehend the principles that underlie effective encoding storage and construction of memories and learn the truth about often misconceptualized conditions like amnesia or how our memories are stored in bits and pieces rather than linearly like a recorded tape or video This set is ideal for high school students writing term papers or studying for advanced examinations such as Advanced Placement AP in psychology The volumes also provide a breadth of information invaluable to family members friends and caretakers of individuals who suffer from various memory disorders including descriptions of major disorders explanations of specific memory deficits

Killing for Show Julian Stallabrass, 2020-10-30 See firsthand how war photography is used to sway public opinion In the autumn of 2014 the Royal Air Force released blurry video of a missile blowing up a pick up truck which may have had a weapon attached to its flatbed This was a lethal form of gesture politics to send a 9 million bomber from Cyprus to Iraq and back burning 35 000 an hour in fuel to launch a smart missile costing 100 000 to destroy a truck or rather to create a video that shows it being destroyed Some lives are ended it is impossible to tell whose so that the government can pretend that it taking effective action by creating a high budget snuff movie This is killing for show Since the Vietnam War the way we see conflict through film photographs and pixels has had a powerful impact on the political fortunes of the campaign and the way that war has been conducted In this fully illustrated and passionately argued account of war imagery Julian Stallabrass tells the story of post war conflict how it was recorded and remembered through its iconic photography The relationship between war and photograph is constantly in transition forming new perspectives provoking new challenges what is allowed to be seen Does an image have the power to change political opinion How are images used to wage war Stallabrass shows how photographs

have become a vital weapon in the modern war as propaganda from close quarters fighting to the drone's electronic vision as well as a witness to the barbarity of events such as the My Lai massacre the violent suppression of insurgent Fallujah or the atrocities in Abu Ghraib Through these accounts Stallabrass maps a comprehensive theoretical re-evaluation of the relationship between war politics and visual culture Killing for Show offers 190 photographs encompassing photojournalism artists' images photographs by soldiers and amateurs and drones A comprehensive comparison of the role of photography in the Vietnam and Iraq Wars An explanation of the waning power of iconic images in collective memory An analysis of the failure of military PR and the public display of killing A focus on what can and cannot be seen photographed and published An exploration of the power and limits of amateur photography Arguments about how violent images act on democracy This full color book is an essential volume in the history of warfare and photography

Youth and Memory in Europe Félix Krawatzek, Nina Friess, 2022-06-06 This volume contends that young individuals across Europe relate to their country's history in complex and often ambivalent ways It pays attention to how both formal education and broader culture communicate ideas about the past and how young people respond to these ideas The studies collected in this volume show that such ideas about the past are central to the formation of the group identities of nations social movements or religious groups Young people express received historical narratives in new potentially subversive ways As young people tend to be more mobile and ready to interrogate their own roots than later generations they selectively privilege certain aspects of their identities and their identification with their family or nation while neglecting others This collection aims to correct the popular misperception that young people are indifferent towards history and prove instead that historical narratives are constitutive to their individual identities and their sense of belonging to something broader than themselves

Parallel Realities in Russian and Ukrainian Contemporary Cinema Tetyana Shlikhar, 2025-09-30 This book examines Russian and Ukrainian feature films to trace the roots and consequences of the Russian invasion of Ukraine It argues that the cultural war stems from a

colonial past where Russia viewed Ukraine as an inferior little brother By examining cinematic representations of the countries shared history this book reveals how Russia has used cinema to promote a strong unified state and patriotic narratives while Ukrainian cinema seeks to overcome colonial trauma and build a distinct national identity It also investigates how cultural memories of Kyivan Rus the Cossacks World War II the Soviet past and the Russian war in Ukraine are depicted differently in Russian and Ukrainian cinema

The Painter in History Ernest Henry Short,1929

The Return of the Russian Leviathan Sergei Medvedev,2019-12-18 Winner of the 2020 Pushkin House Book Prize Russia s relationship with its neighbours and with the West has worsened dramatically in recent years Under Vladimir Putin s leadership the country has annexed Crimea begun a war in Eastern Ukraine used chemical weapons on the streets of the UK and created an army of Internet trolls to meddle in the US presidential elections How should we understand this apparent relapse into aggressive imperialism and militarism In this book Sergei Medvedev argues that this new wave of Russian nationalism is the result of mentalities that have long been embedded within the Russian psyche Whereas in the West the turbulent social changes of the 1960s and a rising awareness of the legacy of colonialism have modernized attitudes Russia has been stymied by an enduring sense of superiority over its neighbours alongside a painful nostalgia for empire It is this infantilized and irrational worldview that Putin and others have exploited as seen most clearly in Russia s recent foreign policy decisions including the annexation of Crimea This sharp and insightful book full of irony and humour shows how the archaic forces of imperial revanchism have been brought back to life shaking Russian society and threatening the outside world It will be of great interest to anyone trying to understand the forces shaping Russian politics and society today Also available as an audiobook
