Russia Paperback:

The New Russian Book Birgitte Beck Pristed, 2017-08-01 This book takes up the obtrusive problem of visual representation of fiction in contemporary Russian book design By analyzing a broad variety of book covers the study offers an absolutely unique material that illustrates a radically changing notion of literature in the transformation of Soviet print culture to a post Soviet book market It delivers a profound and critical exploration of Russian visual imaginary of classic popular and contemporary prose Among all the carelessly bungled covers of mass published post Soviet series the study identifies gems from experimental designers By taking a comparative approach to the clash of two formerly separate book cultures the Western and the Soviet that results both in a mixture of highbrow and lowbrow forms and in ideological re interpretations of the literary works this book contributes to opening an East West dialogue between the fields of Russian studies contemporary book and media history art design and visual studies The Russian Year-book Howard Percy

Kennard, Netta Peacock, 1912 *The Russian Reading Revolution* S. Lovell, 2000-02-24 Of all of Soviet cultural myths none was more resilient than the belief that the USSR had the world's greatest readers This book explains how the Russian reading myth took hold in the 1920s and 1930s how it was supported by a monopolistic and homogenizing system of book production and distribution and how it was challenged in the post Stalin era first by the latent expansion and differentiation of the reading public and then more dramatically by the economic and cultural changes of the 1990s **Russian Life**, 2000

Libraries in Russia Valerie Leonov, 2011-12-22 In *Libraries in Russia* the author Valerii Leonov pursues the history of the first Russian national library the Library of the Russian Academy of Science Bibliotheca Akademii Nauk short BAN from the beginning of the 18th century to the present The library was founded by Peter the Great in 1714 and served as a model for the foundation of further libraries during the 18th century This historical description is based on extensive historical and bibliographic material including unique archive material which is edited here for the first time The title will be of interest to all in the humanities and everyone interested in Russian history and culture The English Catalogue of Books ...:

1801-1836. Ed. and comp. by R.A. Peddie and Q. Waddington. 1914, 1917 **Russia's French Connection** Adam Coker, 2020-05-28 While it is generally acknowledged that Russia's culture has been influenced by France the present study goes beyond the Francophile preferences of the noble elite and examines Russian society more broadly exploring those elements of French cultural influence that are still relevant today This is done through an historical analysis of French loanwords in the Russian language from the time of Peter the Great to the present The result of this lexical analysis and subsequent study of eighteenth and nineteenth century archival periodical and memoir material is to empirically link Russia's present culture to two major Franco Russian events the wave of immigration to Russia following the French Revolution and Russia's war with Napoleon This is primarily a book for those interested in European history particularly imperial Russia the French Revolution and the Napoleonic Wars The study of Russian officer memoirs includes original campaign maps which

may be of interest to military historians The analysis of periodical literature will likewise be a resource for those studying the history of printing publishing and journalism in Russia The book's interdisciplinary nature however broadens its relevance to linguists cultural historians and those in the emerging field of Immigration Studies *The Regional Roots of Russia's Political Regime* William M. Reisinger, Bryon J Moraski, 2017-01-09 Insightful analysis of how regional politics shaped the executive branch's ability to retain power and govern under Yeltsin and Putin **The KGB's Poison Factory** Boris Volodarsky, 2013-11-30 A cracking good read and a chilling true story of Russia's assassination program begun more than a century ago and which continues today Tennent H Bagley former CIA chief of Soviet Bloc counterintelligence In late November 2006 Alexander Litvinenko a former lieutenant colonel of the Federal Security Service of the Russian Federation was ruthlessly assassinated in London by radiation poisoning The shocking murder was the most notorious crime committed by the Russian intelligence on foreign soil in more than three decades Here former Russian military intelligence officer and an international expert in special operations Boris Volodarsky who was consulted by the Metropolitan Police during the Litvinenko investigation offers readers a startling narrative of the Russian security services history of covert assassination by poisoning Beginning in 1917 with Lenin and his dreaded Cheka secret police Russian security services have committed killing after killing both in Russia and across the globe In *The KGB's Poison Factory* Volodarsky proves that the Litvinenko poisoning supposedly ordered by Russian strongman Vladimir Putin is just one episode in a chain of murders going back decades Some of these assassinations or attempted assassinations are already known others are revealed here for the first time With keen insight Volodarsky brings readers inside the assassinations of twenty individuals killed by order of the Kremlin in a revealing tell all that will fascinate students as well as general readers interested in international espionage Library Journal **Readings in Russian Civilization Volume I** Thomas Riha, 2009-02-15 This new and enlarged version of *Readings in Russian Civilization* is the result of fairly extensive revisions There are now 72 instead of 64 items 20 of the selections are new The first volume has undergone the least change with 3 new items of which 2 appear in English for the first time In the second volume there are 6 new items all of them appear in English for the first time The third volume has undergone the greatest revision with 11 new items of which 6 are newly translated from the Russian It is the editor's hope that items left out in the new edition will not be sorely missed and that the new selections will turn out to be useful and illuminating The aim throughout has been to cover areas of knowledge and periods which had been neglected in the first edition and to include topics which are important in the study of the Russian past and present The bibliographical headnotes have been enlarged with the result that there are now approximately twice as many entries as in the old edition New citations include not only works which have appeared since 1963 but also older books and articles which have come to the editor's attention From the Editor's Preface a judicious combination of seminal works and more recent commentaries that achieves the editor's purpose of stimulating curiosity and developing a point of view C Bickford O'Brien *The Russian Review*

These three volumes cover quite well the main periods of Russian civilization. The choice of the articles and other material is made by a competent and unbiased scholar Ivan A Lopatin, Professor of Asian and Slavic Studies, University of Southern California.
