

AIRCRAFT OF WORLD WAR I

1914 - 18

Russian Aeroplanes 19141918

James K Libbey

Russian Aeroplanes 1914-1918:

Russian Aeroplanes 1914-1918 Mikhail Maslov, 2002-11-01 *Aircraft of the 1914-1918 War* Owen Gordon Thetford, E. J. Riding, 1946 *The Central Powers on the Russian Front 1914-1918* David Bilton, 2014-02-11 Arranged in five sections one for each year of the War this superbly illustrated book covers the fluid fighting that took place on the Russian Front from August 1914 The author describes how each year saw dramatic developments notably actions in Poland Tannenberg the Carpathian passes in 1914 the 1915 operations in Galicia and the Baltic and the 1916 Brusilov offensive 1917 saw the collapse of the German army leading to the 1918 Treaty of Brest Litovsk and continued fighting along the Baltic and in the Ukraine The informative text is complemented by over 200 mainly previously unpublished photographs The Central Powers on the Russian Front 1914-1918 with its emphasis on the German Army's actions against Russia but covering operations on many fronts makes it especially valuable to those who seek greater insight into the wider conduct of The Great War away from the Western Front **Reconnaissance & Bomber Aircraft of the 1914-1918 War** William Melville Lamberton, 1962

Heroes & Aeroplanes of the Great War, 1914-1918 Joseph A. Phelan, 1966 Story tracing the development of aeroplanes from the early 1900s to the deadly instrument it became during the great conflict and the great men who flew them **The Russian Baltic Fleet in the Time of War and Revolution, 1914-1918** Stephen C Ellis, 2020-04-30 The translation of these memoirs brings an important and authoritative historical source to those interested in Russian or naval history who are unable to access them in the original Russian Their author Rear Admiral S N Timiryov was well placed to make observations on the character of many of the significant commanding officers and also many of the operations of the Baltic Fleet from the beginning of the war in 1914 up to exit from it in 1918 He trained with many of the key figures and shared battle experience with them in the Russo Japanese War of 1904-05 and the siege of Port Arthur and he spent a year in Japan as a prisoner of war with a number of them In his subsequent career in the Navy he had roles which brought him into contact with new recruits as well as with many serving officers and as the Executive Officer on the imperial yacht Shtandart for some years he came into contact with senior members of the navy establishment and of the government including the imperial household His memoirs also exhibit an unusual degree of self-awareness Written in Shanghai in 1922 these memoirs remained unknown to scholars for several decades Since their publication in New York in 1961 in the absence of access to authoritative archives many historians in the West used them as a source for the study of the role of the Navy in the Russian revolution particularly as it unfolded in the north They have also been used as a source in numerous studies of the naval war in the Baltic and following the fall of the Soviet Union they were re-published in Russia and are regarded there as an authoritative source on the history both of the revolution and of the Russian Navy in the First World War This first English language edition complemented by extensive notes and commentary on issues which may not be familiar to many will fascinate scholars and naval historians alike **Foundations of Russian Military Flight, 1885-1925** James K

Libbey, 2019-05-15 *Foundations of Russian Military Flight* focuses on the early use of balloons and aircraft by the Russian military. The best early Russian aircraft included flying boats designed by Dimitrii Grigorovich and large reconnaissance bombers created by Igor Sikorsky. As World War I began, the Imperial Russian Navy made use of aircraft more quickly than the army. Indeed, the navy established a precursor to the aircraft carrier. The Imperial Russian Army came to respect over time the work of aircraft that evolved from reconnaissance and bomber to fighter planes. Over 250 army pilots during the war received awards of high distinction for their wartime flights. After the 1917 revolution, both the new Bolshevik government and the reactionary White forces created air arms to combat each other. In the 1920s, the Soviet Union and Germany negotiated agreements that allowed Germany to violate the Treaty of Versailles by building military aircraft and training German military pilots in the USSR. This provided the Soviet Union access to the latest aviation technology and prevented them from falling too far behind the West in this crucial sphere.

The First Air War Lee Kennett, 1999-07-30 Historian Lee Kennett takes on the vital task of detailing the World War I aviator in this complete overview of the first air war that Richard P. Hallion calls a welcome and long overdue addition to the literature of military aviation. The whole subject of the first air war is like some imperfectly explored country; there are areas that have been crisscrossed by several generations of historians; there are regions where only writers of dissertations and abstruse monographs have ventured, and others yet that remain terra incognita. Historian Lee Kennett tells his readers: "There are very few books that explore military aviation and its history to the fullest extent as Kennett has done in *First Air War*." The purpose of this book is to act as a complete overview on topics and histories that have previously gone unexplored. He tells of World War I fliers and their experiences on all fronts and skillfully places them in proper context. Edward M. Coffman, author of *The Old Army*. In considerate detail, Kennett tells the full story on how a few planes became the armies of the sky.

The Struggle in the Air, 1914-1918 Charles Cyril Turner, 1919 This is not an attempt to write a complete history of the aerial war or to record all the wonderful and brave deeds of our airmen. A book that would include all these would be valuable as a work of reference, but it would be essentially different from the aim of this small effort. A certain number of the incidents here related have been told elsewhere, and in some cases there has been no need to go beyond the official reports. Some have been published for the first time, and to some I have been able to add hitherto unpublished details. The Preface, page vi.

American Cinematographers in the Great War, 1914-1918 James W. Castellan, Ron van Doppen, Copper C. Graham, 2015-02-09 A history of American cameramen covering the news of World War I from the dangerous front line and the risk of execution to red tape and censorship. At the start of hostilities in World War I, when the United States was still neutral, American newsreel companies and newspapers sent a new kind of journalist, the film correspondent, to Europe to record the Great War. These pioneering cameramen, accustomed to carrying the Kodaks and Graflexes of still photography, had to lug cumbersome equipment into the trenches. Facing dangerous conditions on the front, they also risked summary execution as supposed spies while navigating military red tape.

censorship and the business interests of the film and newspaper companies they represented Based on extensive research in European and American archives *American Cinematographers in the Great War 1914-1918* follows the adventures of these cameramen as they managed to document and film the atrocities around them in spite of enormous difficulties The first book to explore the work and working conditions of American cinematographers active on the different fronts of the First World War It is a pioneering study which has already attracted a good deal of attention in the academic and archive world
 Historical Journal of Film Radio and Television *The British Army in Mesopotamia, 1914-1918* Paul Knight,2013-07-30
 When war broke out between the British and Turkish empires in 1914 the 6th Poona Division sailed from India to Basra to bolster Britain's allies deny the port to enemy shipping and secure Britain's Persian oil supplies Further expansion followed the capture of Al Amara was the British Army's greatest victory of 1915 When an advance on Baghdad was repulsed the Siege of Kut became the British Army's longest siege and greatest surrender Attempts to relieve Kut led to unsuccessful battles that were bloody and muddy even by Western Front standards Under new leadership revitalized and reinforced the British avenged their defeat when Baghdad was captured in March 1917 Thereafter the British Empire committed in campaigns of limited value to the overall war effort huge levels of manpower and materiel desperately needed elsewhere What was created was modern Iraq and the first Arab government in Baghdad in over 400 years This detailed history places the campaign in context of Allied operations in the Middle East and sheds light on several unsung heroes of the war including General Charles Townshend whose spectacular 1915 victories led to humiliating defeat and captivity in 1916 General Frederick Stanley Maude whose March 1917 entry into Baghdad preceded General Allenby's entry into Jerusalem by eight months and Miss Gertrude Bell a female Lawrence of Arabia who played a central role in the creation of the new Iraqi state
The First Iraq War--1914-1918 A. J. Barker,2013-10-18 Had this book been in print in 2003 things would have been different **R. F. C. H. Q., 1914-1918** Maurice Baring,1920 The German Air Raids on Great Britain, 1914-1918 Joseph Morris,1925 **The German Air Force I Knew 1914-1918** Bob Carruthers,2014-03-31 Major Georg Paul Neumann was a former German Air Force officer who had served in the Great War He produced his outstanding survey of the German Air Force in 1920 while the events were still recent history He was able to draw on his own experience and his contacts to compile a large number of personal accounts from officers and men who had so recently fought in the cause The result is an accurate faithful and comprehensive review of the aircraft personnel and organisation of the force which began life in 1910 as the Imperial German Army Air Service and ended the war as the Luftstreitkräfte This comprehensive and compelling review includes a series of primary sources dealing with some of the unusual and lesser known aspects of the Luftstreitkräfte including a gripping account of defending a Zeppelin against attack by British fighters Major Neumann's indispensable work has never been surpassed and this English language translation is essential reading for anyone with an interest in the realities of the war in the air in the Great War **Merchant Adventurers, 1914-1918** F. A. Hook,1920 A compilation of

the war records of the P and O British India and associated lines *Indian Aircraft Industry: Possible Invention for Success in the Twenty First Century* Group Captain Vivek Kapur, 2017-09-15 India's Aircraft Industry despite having been formed as early as in December 1940 has been unable to meet the equipment needs of the aviation users whether military or civil in the country As a consequence India imports all its aircraft needs from abroad This situation needs to change This book starts from an examination of the importance of aviation to the country both for military as well as or civil purposes From here it goes on to trace the development of aviation in India Then the book examines the Indian Aircraft Industry from studying the aircraft projects carried out by India From these aircraft projects lessons and learning have been culled for use later in the book Thereafter there are case studies carried out of the two leading airpower capability countries the USA and erstwhile Soviet Union Russia There are also case studies of Brazil and China as these two countries were behind India in aviation in the 1950s but are globally competitive today unlike India The lessons and learning from the case studies are compiled and then used finally to develop possible models that could help make India's aircraft industry globally competitive Military Operations, France and Belgium, 1914-1918 Sir James Edward Edmonds, 1925 The First World War, 1914-1918; Personal Experiences Of Lieut.-Col. C. À Court Repington Vol. I [Illustrated Edition] Lieut.-Col. Charles à Court Repington C.M.G., 2015-11-06 Includes the First World War Illustrations Pack 73 battle plans and diagrams and 198 photos A fascinating history of the First World War seen through the eyes of a highly respected and connected War Correspondent Lieut Col Charles Court Repington was a career soldier in the British Army renowned for his service in the Sudan Burma and the Boer War he was drummed out of the service for having an affair with the wife of British official in 1902 He was well known as an excellent staff officer and remained closely tied to the comrades that he had fought and served with including the future leaders of the British Army in the First World War Cutting his teeth as a war correspondent during the Russo Japanese War of 1904 1905 he was ideally placed as the War Correspondent of the Times when war broke out in 1914 to report on the unfolding tragedy Using all of his connections and influence he visited the Western Front many times and was in intimate correspondence and contact with the senior figures of the British Army such as Sir John French Sir Douglas Haig Herbert Plumer and Horace Smith Dorrien No great respecter of private conversations or confidences he lost many friends when he wrote The First World War his work was critical well written caustic and unbiassed These classic memoirs remain as valuable and vivid as they when they were written This first volume covers the outbreak of the war to early 1917 **The Great War, 1914-1918** , 1914
