Music in Russia Marco Biasioli, 2025-06-27 This book explores Russian independent music *nezavisimaia muzyka* in a time of profound transformations in Russian society looking especially at the mutual influence between music and the socio political context in which it was created Contrary to what is commonly believed the book argues that *nezavisimaia muzyka* as a widespread form of non state sponsored culture was not necessarily oppositional to the Russian state instead it was rooted in identity quests that could overlap with some aspects of the official narrative as they could mock disrupt and refashion others The book demonstrates that Russian independent music is considerably more than the creation appreciation and dissemination of sounds For the practitioners to get involved in the scene is to participate in the construction of cultural legitimacy imagined communities and national identity involving values that can be cosmopolitan Western conservative supposedly Russian and often a mixture of all these In addition the book examines Russian independent music's interaction with Western and global trends and assesses its successes and failures in conquering a niche in foreign markets This book will be of interest to scholars of Russian culture media and politics as well as to scholars of popular music sociology national identity and Russia West relations **A Guide to Scholarly Resources on the Russian Empire and the Soviet Union in the New York Metropolitan Area**

History and Myth in Pictorial Narratives of the Russian 'Patriotic War', 1812-1914 Andrew M. Nedd,2024-07-08

This book reveals that the visual narrative of the events of the Russian campaign of 1812 was inextricably linked to Russia s search for national identity and helped to form competing definitions of Russianness No pre revolutionary military event was more celebrated in Russian literature and art than the Patriotic War of 1812 during which Napoleon advanced his Grand Arm e into Russia only to retreat months later in defeat as his army faced starvation and capture during the brutal winter The works of art that retold the story of 1812 extolled virtues that were represented as inherently Russian courage resourcefulness and unity Furthermore these values were increasingly contrasted with those of the foreign invader from the west While the emphasis is largely on academic painting this book also explores popular media and memorialization in order to reveal the role that images played in the process of constructing identities in nineteenth century Russia *Journeys through the Russian Empire* William Craft Brumfield,2020-06-12 At the turn of the twentieth century the photographer Sergey Prokudin Gorsky undertook a quest to document an empire that was undergoing rapid change due to industrialization and the building of railroads Between 1903 and 1916 Prokudin Gorsky who developed a pioneering method of capturing color images on glass plates scoured the Russian Empire with the patronage of Nicholas II Intrepidly carrying his cumbersome and awkward camera from the western borderlands over the Volga River to Siberia and central Asia he created a singular record of Imperial Russia In 1918 Prokudin Gorsky escaped an increasingly chaotic violent Russia and regained nearly 2 000 of his bulky glass negatives His subsequent peripatetic existence before settling in Paris makes his collection s survival all the more miraculous The U S Library of Congress acquired Prokudin Gorsky s collection in 1948 and since then it has become a touchstone for understanding pre revolutionary Russia Now digitized and publicly available his images are a sensation in Russia where people visit websites dedicated to them William Craft Brumfield photographer scholar and the leading authority on Russian architecture in the West began working with Prokudin Gorsky s photographs in 1985 He curated the first public exhibition of them in the United States and has annotated the entire collection In *Journeys through the Russian Empire* Brumfield who has spent decades traversing Russia and photographing buildings and landscapes in their various stages of disintegration or restoration juxtaposes Prokudin Gorsky s images against those he took of the same buildings and areas In examining the intersections between his own photography and that of Prokudin Gorsky Brumfield assesses the state of preservation of Russia s architectural heritage and calls into question the nostalgic assumptions of those who see Prokudin Gorsky s images as the recovery of the lost past of an idyllic pre Soviet Russia This lavishly illustrated volume which features some 400 stunning full color images of ancient churches and mosques railways and monasteries towns and remote natural landscapes is a testament to two brilliant photographers whose work prompts and illuminates monument by monument questions of conservation restoration and cultural identity and memory **The Oxford Handbook of the Phenomenology**

The Ethics of Postcommunism S. Prozorov, 2009-04-08 Prozorov offers a radical reinterpretation of contemporary Russian politics in terms of Agamben's philosophy Reconstructing Agamben's conception of the end of history that challenges the Hegelian thesis Prozorov approaches post communist Russia as a post historical terrain in which the teleological dimension of politics has been deactivated

Hybridity in Life Writing Arnaud Schmitt, 2024-04-28 This book offers new perspectives on text image hybridity in the context of life writing Each chapter explores the very topical issue of how writers and artists combine two media in order to enhance the autobiographical narrative and experience of the reader It questions the position of images in relation to text both on the page and in terms of the power balance between media It also shows how hybridity operates beyond a semantic and cultural balance of power as the combination of text and images are able to produce content that would not have been possible separately Including a range of life writing and different visual media from paintings and photography to graphic memoirs and social media this edited collection investigates the point at which an image whether fixed or moving enters the autobiographical act and confronts the verbal form
