Central Asia in Art Aliya Abykayeva-Tiesenhausen,2016-06-20 In the midst of the space race and nuclear age Soviet Realist artists were producing figurative oil paintings Why How was art produced to control and co opt the peripheries of the Soviet Union particularly Central Asia Presenting the untold story of Soviet Orientalism Aliya Abykayeva Tiesenhausen re evaluates the imperial project of the Soviet state placing the Orientalist undercurrent found within art and propaganda production in the USSR alongside the creation of new art forms in Kazakhstan Kyrgyzstan and Uzbekistan From the turmoil of the 1930s through to the post Stalinist era the author draws on meticulous new research and rich illustrations to examine

the political and social structures in the Soviet Union and particularly Soviet Central Asia to establish vital connections between Socialist Realist visual art the creation of Soviet identity and later nationalist sentiments [Soviet Nation-Building in Central Asia](#) Grigol Ubiria,2015-09-16 The demise of the Soviet Union in 1991 resulted in new state led nation building projects in Central Asia The emergence of independent republics spawned a renewed Western scholarly interest in the region s nationality issues Presenting a detailed study this book examines the state led nation building projects in the Soviet republics of Kazakhstan and Uzbekistan Exploring the degree forms and ways of the Soviet state involvement in creating Kazakh and Uzbek nations this book places the discussion within the theoretical literature on nationalism The author argues that both Kazakh and Uzbek nations are artificial constructs of Moscow based Soviet policy makers of the 1920s and 1930s This book challenges existing arguments in current scholarship by bringing some new and alternative insights into the role of indigenous Central Asian and Soviet officials in these nation building projects It goes on to critically examine post Soviet official Kazakh and Uzbek historiographies according to which Kazakh and Uzbek peoples had developed national collective identities and loyalties long before the Soviet era This book will be a useful contribution to Central Asian History and Politics as well as studies of Nationalism and Soviet Politics **Routledge Handbook of Contemporary Central Asia** Rico Isaacs, Erica Marat,2021-09-14 The Routledge Handbook of Contemporary Central Asia offers the first comprehensive cross disciplinary overview of key issues in Central Asian studies The 30 chapters by leading and emerging scholars summarise major findings in the field and highlight long term trends recent observations and future developments in the region The handbook features case studies of all five Central Asian republics and is organised thematically in seven sections History Politics Geography International Relations Political Economy Society and Culture Religion An essential cross disciplinary reference work the handbook offers an accessible and easy to understand guide to the core issues permeating the region to enable readers to grasp the fundamental challenges transformations and themes in contemporary Central Asia It will be of interest to researchers academics and students of the region and those working in the field of Area Studies History Anthropology Politics and International Relations Chapter 23 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Movement, Power and Place in Central Asia and Beyond* Madeleine Reeves,2013-09-13 Central Asia is a region singularly marked by attempts to transform social life by transforming place Drawing together established scholars and a new generation of historians geographers and anthropologists this volume brings empirical specificity and theoretical depth to debates about the politics of place making in this diverse region making an important contribution to Central Asian studies and a distinctive regional comparison to the spatial turn in social analysis Case studies draw on archival research and oral history to explore the workings and unintended consequences of policies aimed at sedentarizing collectivizing and resettling populations as a means to fix and territorialize space The book also

examines ethnographic studies attuned to the role of movement in sustaining social life from Soviet era trade networks that linked rural Central Asia and the Russian metropolis to pilgrimage routes through which kazakhness is articulated to the contemporary moralization of migration abroad in search of work Rather than analysing flows as abstract processes the book enquires about effortful activity material infrastructures political relations and social habits through which people ideas knowledge skills and material objects move or are prevented from moving As such it offers new insights into the complex intersections of movement power and place in this important region over the last two centuries This book was originally published as a special issue of Central Asian Survey Symbolism and Power in Central Asia Sally Cummings, 2013-09-13

With the collapse of communism post communist societies scrambled to find meaning to their new independence Central Asia was no exception Events relationships gestures spatial units and objects produced conveyed and interpreted meaning The new power container of the five independent states of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan would significantly influence this process of signification Post Soviet Central Asia is an intriguing field to examine this transformation a region which did not see an organised independence movement develop prior to Soviet implosion at the centre it provokes questions about how symbolisation begins in the absence of a national will to do so The transformation overnight of Soviet republic into sovereign state provokes questions about how the process of communism turned nationalism could become symbolised and what specific role symbols came to play in these early years of independence Characterized by authoritarianism since 1991 the region's ruling elites have enjoyed disproportionate access to knowledge and to deciding what how and when that knowledge should be applied The first of its kind on Central Asia this book not only widens our understandings of developments in this geopolitically important region but also contributes to broader studies of representation ritual power and identity This book was published as a special issue of Europe Asia Studies **Russia and Central Asia** Shoshana Keller, 2020 This introduction to Central Asia and its relationship with Russia helps restore Central Asia to the general narrative of Russian and world history **Kazakhstan in World War II** Roberto J. Carmack, 2019-09-12

In July 1941 the Soviet Union was in mortal danger Imperiled by the Nazi invasion and facing catastrophic losses Stalin called on the Soviet people to subordinate everything to the needs of the front Kazakhstan answered that call Stalin had long sought to restructure Kazakh life to modernize the local population but total mobilization during the war required new tactics and produced unique results Kazakhstan in World War II analyzes these processes and their impact on the Kazakhs and the Soviet Union as a whole The first English language study of a non Russian Soviet republic during World War II the book explores how the war altered official policies toward the region's ethnic groups and accelerated Central Asia's integration into Soviet institutions World War II is widely recognized as a watershed for Russia and the Soviet Union not only did the conflict legitimize prewar institutions and ideologies it also provided a medium for integrating some groups and excluding others Kazakhstan in World War II explains how these processes played out in the ethnically diverse and socially backward

Kazakh republic Roberto J Carmack marshals a wealth of archival materials official media sources and personal memoirs to produce an in depth examination of wartime ethnic policies in the Red Army Soviet propaganda for non Russian groups economic strategies in the Central Asian periphery and administrative practices toward deported groups Bringing Kazakhstan s previously neglected role in World War II to the fore Carmack s work fills an important gap in the region s history and sheds new light on our understanding of Soviet identities **Modern Central Asia** Yuriy Malikov,2019-12-04

Modern Central Asia A Primary Source Reader is an academic resource that discusses the basic political social and economic evolution of Central Asian civilization in its colonial 1731 1991 and post colonial 1991 present periods Among other aspects of Central Asian history this source reader discusses resistance and accommodation of native societies to the policies of the imperial center the transformation of Central Asian societies under Tsarist and Soviet rule and the history of Islam in Central Asia and its role in nation and state building processes This primary source book will be instrumental for familiarizing students with the nationality policies of imperial Russian Soviet and post Soviet governments as well as the effects produced by these policies on the natives of the region The documents collected in this reader challenge the traditional approach which has viewed Central Asians as passive recipients of the policies imposed on them by central authorities Modern Central Asia A Primary Source Reader demonstrates the active participation of the indigenous peoples in contact with other peoples by examining the natives ways of organizing societies their pre colonial experience of contact with outsiders and the structure of their subsistence systems The source book will also help students situate the major events and activities of Central Asia in a global context In addition to the value of this collection to the Central Asian historical record many of the included texts will be essential for comparative analyses and cross disciplinary approaches in the study of world history Pipe Dreams Maya K. Peterson,2019-05-23 A long environmental history of the Aral Sea region focusing on colonization and development in Russian and Soviet Central Asia *Kazakhstan - Ethnicity, Language and Power* Bhavna Dave,2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a

distinct brand of national consciousness

Curative Powers Paula A. Michaels, 2012-03-19 Finalist PEN Center USA

Literary Awards Research Nonfiction Rich in oil and strategically located between Russia and China Kazakhstan is one of the most economically and geopolitically important of the so called Newly Independent States that emerged after the USSR's collapse Yet little is known in the West about the region's turbulent history under Soviet rule particularly how the regime asserted colonial dominion over the Kazakhs and other ethnic minorities Grappling directly with the issue of Soviet colonialism Curative Powers offers an in depth exploration of this dramatic bloody and transformative era in Kazakhstan's history Paula Michaels reconstructs the Soviet government's use of medical and public health policies to change the society politics and culture of its outlying regions At first glance the Soviets drive to modernize medicine in Kazakhstan seems an altruistic effort to improve quality of life Yet as Michaels reveals beneath the surface lies a story of power legitimacy and control The Communist regime used biomedicine to reshape the function self perception and practices of both doctors and patients just as it did through education the arts the military the family and other institutions Paying particular attention to the Kazakhs ethnomedical customs Soviet authorities designed public health initiatives to teach the local populace that their traditional medical practices were backward even dangerous and that they themselves were dirty and diseased Through poster art newsreels public speeches and other forms of propaganda Communist authorities used the power of language to demonstrate Soviet might and undermine the power of local ethnomedical practitioners while moving the region toward what the Soviet state defined as civilization and political enlightenment As Michaels demonstrates Kazakhs responded in unexpected ways to the institutionalization of this new pan Soviet culture Ethnomedical customs surreptitiously lived on despite direct sometimes violent attacks by state authorities While Communist officials hoped to exterminate all remnants of traditional healing practices Michaels points to evidence that suggests the Kazakhs continued to rely on ethnomedicine even as they were utilizing the services of biomedical doctors nurses and midwives The picture that ultimately emerges is much different from what the Soviets must have imagined The disparate medical systems were not in open conflict but instead both indigenous and alien practices worked side by side becoming integrated into daily life Combining colonial and postcolonial theory with intensive archival and ethnographic research Curative Powers offers a detailed view of Soviet medical initiatives and their underlying political and social implications and impact on Kazakh society Michaels also endeavors to link biomedical policies and practices to broader questions of pan Soviet identity formation and colonial control in the non Russian periphery

[History of civilizations of Central Asia](#) Adle, Chahryar, UNESCO, 2005-10-03 This major six volume project co published with Macmillan covers the historical experience of the peoples and societies of the Caribbean region from the earliest times to the present day The sixth volume brings this series to an end as it takes in the whole of the modern period from colonial conquest and domination to decolonization the Cold War from start to finish the disintegration of the

Soviet Union and the renewed instability in certain areas Not only did the colonial regimes lay a new patina over the region but nationalism remoulded all old identities into a series of new ones That process of the twentieth century was perhaps the most transformative of all after the colonial subjugation of the nineteenth While it has been the basis of remarkable stability in vast stretches of the region it has been a fertile source of tension and even wars in other parts The impact and the results of such changes have been astonishingly variable despite the proximity of these states to each other and their being subject to or driven by virtually the same compulsions

Collectivization Generation Marianne Kamp, 2024-12-15 *Collectivization Generation* is a history of agricultural collectivization in Soviet Uzbekistan but it is not focused on Party decisions Instead Marianne Kamp offers a history of everyday life that relies on oral history accounts from those she calls the collectivization generation Born between the early 1900s and the early 1920s the collectivization generation were rural youth who participated in the transformation of agricultural life in the early 1930s as teens or young adults A top down restructuring ruptured their predictable life trajectories and created new categories for understanding self and society For many the newly formed kolkhozes became their economic social and political milieu throughout their working years shaping their identities and their material lives In *Collectivization Generation* we meet Uzbeks who were driven from their homes by bandits whose fathers disappeared in the Stalinist gulag who suffered starvation and orphanhood We also meet Uzbeks who told of embracing the project of collectivization of feeling rewarded with dignity recognition pay association with national triumphs and with the progress represented by a tractor

The Central Asian Revolt of 1916 Alexander Morrison, Cloé Drieu, Aminat Chokobaeva, 2019-10-02 The 1916 Revolt was a key event in the history of Central Asia and of the Russian Empire in the First World War This volume is the first comprehensive re assessment of its causes course and consequences in English for over sixty years It draws together a new generation of leading historians from North America Japan Europe Russia and Central Asia working with Russian archival sources oral narratives poetry and song in Kazakh and Kyrgyz These illuminate in unprecedented detail the origins and causes of the revolt and the immense human suffering which it entailed They also situate the revolt in a global perspective as part of a chain of rebellions and disturbances that shook the world s empires as they crumbled under the pressures of total war
