Russian Nationalism Since 1856 Ideology The Making Of Foreign Policy

Natasha Kuhrt

Russian Nationalism Since 1856 Ideology The Making Of Foreign Policy:

Russian Nationalism Since 1856 Astrid S. Tuminez, 2000 This thoughtful book describes the range of nationalist ideas that have taken root in Russia since 1856 Drawing on a wide range of archival documents and unparalleled interview material from the post Soviet period Tuminez analyzes two cases_ Russian panslavism in 1856 1878 and great power nationalism in 1905 1914_ when aggressive nationalist ideas clearly influenced Russian foreign policy and contributed to decisions to go to war Yet not all forms of nationalism have been malevolent and the author assesses competing nationalist ideologies in the post Soviet period to clarify the conditions under which a particularly belligerent nationalism could flourish and influence Russian international behavior

Russian Nationalism, Foreign Policy and Identity Debates in Putin's Russia Marlene, 2014-04-15 The contributors to this book discuss the new conjunctions that have emerged between foreign policy events and politicized expressions of Russian nationalism since 2005 The 2008 war with Georgia as well as conflicts with Ukraine and other East European countries over the memory of the Soviet Union and the Russian interpretation of the 2005 French riots have all contributed to reinforcing narratives of Russia as a fortress surrounded by aggressive forces in the West and CIS This narrative has found support not only in state structures but also within the larger public It has been especially salient for some nationalist youth movements including both pro Kremlin organizations such as Nashi and extra systemic groups such as those of the skinheads These various actors each have their own specific agendas they employ different modes of public action and receive unequal recognition from other segments of society Yet many of them expose a reading of certain foreign policy events which is roughly similar to that of various state structures These and related phenomena are analyzed interpreted and contextualized in papers by Luke March Igor Torbakov Jussi Lassila Marl ne Laruelle and Lukasz Jurczyn

Russian Nationalism Marlene Laruelle, 2018-10-10 This book by one of the foremost authorities on the subject explores the complex nature of Russian nationalism It examines nationalism as a multilayered and multifaceted repertoire displayed by a myriad of actors It considers nationalism as various concepts and ideas emphasizing Russia s distinctive national character based on the country s geography history Orthodoxy and Soviet technological advances It analyzes the ideologies of Russia s ultra nationalist and far right groups explores the use of nationalism in the conflict with Ukraine and the annexation of Crimea and discusses how Putin s political opponents including Alexei Navalny make use of nationalism Overall the book provides a rich analysis of a key force which is profoundly affecting political and societal developments both inside Russia and beyond

Routledge Handbook of Russian Foreign Policy Andrei Tsygankov, 2018-03-20 Providing a comprehensive overview of Russia s foreign policy directions this handbook brings together an international team of scholars to develop a complex treatment of Russia s foreign policy The chapters draw from numerous theoretical traditions by incorporating ideas of domestic institutions considerations of national security and international recognition as sources of the nation s foreign policy Covering critically important subjects such as Russia s

military interventions in Ukraine and Syria the handbook is divided into four key parts Part I explores the social and material conditions in which Russia's foreign policy is formed and implemented Part II investigates tools and actors that participate in policy making including diplomacy military media and others Part III provides an overview of Russia's directions towards the United States Europe Asia the Middle East Eurasia and the Arctic Part IV addresses the issue of Russia's participation in global governance and multiple international organizations as well as the Kremlin's efforts to build new organizations and formats that suit Russia's objectives The Routledge Handbook of Russian Foreign Policy is an invaluable resource to students and scholars of Russian Politics and International Relations as well as World Politics more generally

Russian Foreign Policy in the Twenty-first Century and the Shadow of the Past Robert Legvold, 2007 Because the turbulent trajectory of Russia's foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation history offers a special vantage point from which to judge the current course of events In this book a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history The authors explain the impact of empire and its loss the interweaving of domestic and foreign impulses long standing approaches to national security and the effect of globalization over time Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today These patterns are driven by the country's political makeup geographical circumstances economic strivings unsettled position in the larger international setting and above all its tortured effort to resolve issues of national identity The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia's approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve A truly unique collection this volume utilizes history to shed crucial light on Russia's complex occasionally inscrutable relationship with the world In so doing it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined

Russia's National Security in Aleksandr Dugin's Neo-Eurasianism Marcin Skladanowski, 2023-09-05 Aleksandr Dugin is an extremely radical thinker Nevertheless it is worth dealing with his thought because it shows in an exaggerated form how the evolution of social and political ideas took place in the history of Russia which led to Putin's contemporary neo imperialism This book presents the Russian discourse on national security against a broader background of global academic reflection takes a closer look at the sources and ideological basis of the concept of Russia's security developed by Dugin discusses the subject and main dimensions of Russia's national security in Dugin's works and shows the importance of Russia's foreign policy for the creation of its national security

Reconfiguring Chinese Nationalism J. Leibold, 2016-09-23 The first full length treatment of ethnic and national identity in early Twentieth century China Leibold traces the political and cultural strategies employed by Han Chinese elites in the process of incorporating both discursively and physically the diverse inhabitants of the last Qing dynasty into a new homogenous

national community Russia and the World Natasha Kuhrt, 2014-10-14 This volume brings together analyses of key domestic foreign and security policy issues during the Putin and Medvedev administrations. Indeed, the chapters demonstrate the extent to which domestic and foreign policy issues are inextricably linked, in particular in the domain of security, whether hard or soft. Internal debates regarding Russia's trajectory, including issues of national identity, economic modernisation, human rights and democracy, continue to be at the forefront of concern. Moreover, these debates are intimately connected to Russia's self-image and the image therefore that it wishes to project in the wider world. The debates focus on Russia as energy superpower, as one of the BRICS, as an Eurasian landbridge or a window on the Asia Pacific. Such debates are a constant reminder of the uncertainty surrounding Russia's future path. This book expresses these uncertainties, which range from the role of nuclear weapons and energy to critiques of Russia's approach to concepts such as sovereignty and self-determination. The fight against terrorism, insurgency and the role of Islam within and without Russia may have left the chaos of the Yeltsin years behind, but as we move into Putin 3.0, the concerns of these chapters will remain critical both to Russia itself and to Russia's relations with the wider world. This book was published as a special issue of *Europe Asia Studies*.

Europe, Nationalism, Communism José M. Faraldo, 2008 This collection of articles on Polish history after 1945 begins with a study of the reconstruction of Polish towns after the World War II, presenting how ideological images of the nation transformed the physical form of urban landscapes. The book devotes also a long part to individual identities, exploring the most intimate level of representation of consciousness: autobiographies of Polish immigrants into former German territories. The last two articles explore the identitarian adaptation of Polish anticommunist emigrants in Spain and the possibilities of dispute about Europe at the beginning of Communist regimes in Poland and Central Europe. The book puts problems of private identities in the context of European discourses, showing how politics are a part of individual lives too. **Mobilizing the Russian Nation** Melissa Kirschke Stockdale, 2016-12-13 This study of Russian mobilization in the Great War explores how the war shaped national identity and conceptions of citizenship.

The Enthralling World of Kindle Books: A Comprehensive Guide Unveiling the Advantages of Kindle Books: A World of Ease and Flexibility Kindle books, with their inherent portability and ease of access, have freed readers from the limitations of physical books.
