Russian Talk Culture And Conversation During Perestroika:

Russian Talk Nancy Ries, 1997 As one of the first Western ethnographers working in Moscow Nancy Ries became convinced that talk is one crucial way in which Russian identity is constructed and reproduced Listening to the grim stories people used to characterize their lives during perestroika and encountering the florid pessimism with which Muscovites described the unraveling of Soviet governance Ries realized that these dire tales played a crucial role in fabricating a sense of shared experience and destiny While many of the narratives aptly depicted the chaotic social and political events they also promoted key images of Russianness and presented Russian society as an inescapable realm of injustice absurdity and suffering At the height of perestroika in the early 1990s Moscow residents commonly used the phrase complete ruin to refer to the disintegration of Russian society encompassing in that phrase the escalation of crime the disappearance of goods from stores the fall of production ecological catastrophes ethnic violence in the Caucasus the degradation of the arts and the flood of pornography Ries argues that such stories became a genre of folklore consistent in their lamenting portentous tone and their dramatic culturally poignant details

Cultures of Crisis in Southeast Europe Klaus Roth, Asker

Kartari, 2016 Southeast Europe's history of the last two centuries is marked by deep transformations and upheavals: the emergence and disappearance of states, ethnic conflicts and wars, changes of political systems, economic crises, migration movements and natural disasters. Most of these upheavals have been experienced as deep crises forcing people to adapt to often radically new situations. This can cause crisis management to become a permanent way of life. The book focuses on the cultures of crisis. It analyzes the reactions of societies or individuals to them, their impact on everyday life, on peoples' strategies of coping, on the processes of adaptation and on peoples' attitudes. Focus is placed on crises relating to migration and post-socialist transformation to politics and religion and to labour relations. Series: *Ethnologia Balkanica* Vol 18. Subject: Sociology, Southeast European Studies, Politics. Performing Pain Maria Cizmic, 2012-01-12. Time after time people turn to music when coping with traumatic life events. Music can help process emotions, interpret memories and create a sense of collective identity. In *Performing Pain*, author Maria Cizmic focuses on the late 20th century in Eastern Europe as she uncovers music's relationships to trauma and grief. The 1970s and 1980s witnessed a cultural preoccupation in this region with the meanings of historical suffering, particularly surrounding the Second World War and the Stalinist era. Journalists, historians, writers, artists and filmmakers frequently negotiated themes related to pain and memory, truth and history, morality and spirituality during glasnost and the years leading up to it. *Performing Pain* considers how works by composers Alfred Schnittke, Galina Ustvolskaya, Arvo Pärt and Henryk Gorecki musically address contemporary concerns regarding history and suffering through composition, performance and reception. Taking theoretical cues from psychology, sociology and literary and cultural studies, Cizmic offers a set of hermeneutic essays that demonstrate the ways in which people employ music in order to make sense of historical traumas and losses. Seemingly postmodern compositional choices such as quotation, fragmentation and stasis create musical analogies to psychological and emotional responses to trauma and grief and the physical realities of their embodied performance. Focus attention on the ethics of pain and representation. Furthermore, as film music, these works participate in contemporary debates regarding memory and trauma. A comprehensive and innovative study, *Performing Pain* will fascinate scholars interested in the music of Eastern Europe and in aesthetic articulations of suffering. *Rethinking Class in Russia* Suvi Salmenniemi, 2016-04-08. Social differentiation, poverty and the emergence of the newly rich occasioned by the collapse of the Soviet Union have seldom been analysed from a class perspective. *Rethinking Class in Russia* addresses this absence by exploring the manner in which class positions are constructed and negotiated in the new Russia. Bringing an ethnographic and cultural studies approach to the topic, this book demonstrates that class is a central axis along which power and inequality are organized in Russia, revealing how symbolic, cultural and emotional dimensions are deeply intertwined with economic and material inequalities. Thematically arranged and presenting the latest empirical research, this interdisciplinary volume brings together work from both Western and Russian scholars on a range of spheres and practices including popular culture, politics, social policy, consumption, education, work, family and everyday life. By engaging with discussions in new class

analysis and by highlighting how the logic of global neoliberal capitalism is appropriated and negotiated vis vis the Soviet hierarchies of value and worth this book offers a multifaceted and carefully contextualized picture of class relations and identities in contemporary Russia and makes a contribution to the theorisation of class and inequality in a post Cold War era As such it will appeal to those with interests in sociology anthropology geography political science gender studies Russian and Eastern European studies and media and cultural studies Multiple Moralities and Religions in Post-Soviet Russia Jarrett Zigon,2011-09-01 In the post Soviet period morality became a debatable concept open to a multitude of expressions and performances From Russian Orthodoxy to Islam from shamanism to Protestantism religions of various kinds provided some of the first possible alternative moral discourses and practices after the end of the Soviet system This influence remains strong today Within the Russian context religion and morality intersect in such social domains as the relief of social suffering the interpretation of history the construction and reconstruction of traditions individual and social health and business practices The influence of religion is also apparent in the way in which the Russian Orthodox Church increasingly acts as the moral voice of the government The wide ranging topics in this ethnographically based volume show the broad religious influence on both discursive and everyday moralities The contributors reveal that although religion is a significant aspect of the various assemblages of morality much like in other parts of the world religion in postsocialist Russia cannot be separated from the political or economic or transnational institutional aspects of morality **Authoritarian Laughter** Neringa Klumbytė,2022-12-15 Winner of the 2024 BASEES British Association for Slavonic and East European Studies Women s Forum Authoritarian Laughter explores the political history of the satire and humor magazine Broom published in Soviet Lithuania Artists writers and journalists were required to create state sponsored Soviet humor and serve the Communist Party after Lithuania was incorporated into the Soviet Union in 1940 Neringa Klumbytė investigates official attempts to shape citizens into Soviet subjects and engage them through a culture of popular humor Broom was multidirectional it both facilitated Communist Party agendas and expressed opposition toward the Soviet regime Official satire and humor in Soviet Lithuania increasingly created dystopian visions of Soviet modernity and were a forum for critical ideas and nationalist sentiments that were mobilized in anti Soviet revolutionary laughter in the late 1980s and early 1990s Authoritarian Laughter illustrates that Soviet Western peripheries were unstable and their governance was limited While authoritarian states engage in a statecraft of the everyday and seek to engineer intimate lives authoritarianism is defied not only in revolutions but in the many stories people tell each other about themselves in jokes cartoons and satires Dilemmas of Reconciliation Carol Prager,Trudy Govier,2006-01-01 How can bitter enemies who have inflicted unspeakable acts of cruelty on each other live together in peace At a time in history when most organized violence consists of civil wars and when nations resort to genocidal policies when horrendous numbers of civilians have been murdered raped or expelled from their homes this book explores the possibility of forgiveness The contributors to this book draw upon the insights of history

political science philosophy and psychology to examine the trauma left in the wake of such actions using as examples numerous case studies from the Holocaust Russia Cambodia Guatemala South Africa and even Canada They consider the fundamental psychological and philosophical issues that have to be confronted offer insights about measures that can be taken to facilitate healing and summarize what has been learned from previous struggles Dilemmas of Reconciliation is a pioneering effort that explores the extraordinary challenges that must be faced in the aftermath of genocide or barbarous civil wars How these challenges of reconciliation are faced and resolved will affect not only the victims ability to go on with their lives but will impact regional stability and ultimately world peace
