Russian Church Singing: History from the origins to the mid-seventeenth century Johann von Gardner, 1980 The history of church singing in Russia constitutes an essential aspect of that nation s culture and musical history For the first 650 years from the Christianization of Rus in the year 988 liturgical chant was the only documentable art music in that vast territory that eventually became the modern nations of Russia Ukraine and Belarus Indeed in Russia before the revolution of 1917 liturgical musicology was a bona fide scholarly discipline taught in conservatories universities and theological seminaries All activity in the field came to a halt however during the 75 year Soviet era when the study and practice of sacred music was severely repressed for ideological reasons with a resulting lack of published research and secondary material Consequently Russian and Western music historians church musicians and liturgical scholars as well as ordinary church goers whose interest in Orthodox Christianity and its art has been increasing of late have been deprived of reference works that would impart even a general knowledge of the history and development of liturgical singing in the Russian Orthodox Church The present Volume *Russian Church Singing Volume 2* is the second installment of Professor Johann von Gardner s monumental work to appear in English translation The 396 page volume translated and edited by Dr Vladimir Morosan considers the development and practice of liturgical chant in the Russian lands from a variety of aspects its origins and the various cultural influences upon its formation extant manuscripts the evolution of the notation and the problematics of deciphering it into modern day notes the forces involved in its performance its stylistic
