**Spies and Scholars** Gregory Afinogenov, 2020-04-14 A Financial Times Best Book of the Year The untold story of how Russian espionage in imperial China shaped the emergence of the Russian Empire as a global power From the seventeenth to the nineteenth century the Russian Empire made concerted efforts to collect information about China It bribed Chinese porcelain makers to give up trade secrets sent Buddhist monks to Mongolia on intelligence gathering missions and trained students at its Orthodox mission in Beijing to spy on their hosts From diplomatic offices to guard posts on the Chinese frontier Russians were producing knowledge everywhere not only at elite institutions like the Academy of Sciences in St Petersburg But that information was secret not destined for wide circulation Gregory Afinogenov distinguishes between the kinds of knowledge Russia sought over the years

and argues that they changed with the shifting aims of the state and its perceived place in the world In the seventeenth century Russian bureaucrats were focused on China and the forbidding Siberian frontier They relied more on spies including Jesuit scholars stationed in China In the early nineteenth century the geopolitical challenge shifted to Europe rivalry with Britain drove the Russians to stake their prestige on public facing intellectual work and knowledge of the East was embedded in the academy None of these institutional configurations was especially effective in delivering strategic or commercial advantages But various knowledge regimes did have their consequences Knowledge filtered through Russian espionage and publication found its way to Europe informing the encounter between China and Western empires Based on extensive archival research in Russia and beyond *Spies and Scholars* breaks down long accepted assumptions about the connection between knowledge regimes and imperial power and excavates an intellectual legacy largely neglected by historians

McGuire, 2018 From a debut author an intimate multigenerational narrative of the Russian and Chinese revolutions through the eyes of the Chinese youth who traveled to the Soviet Union and the fate of their blended offspring *Mirrorlands* Ed Pulford, 2019-08-01 *Mirrorlands* is a journey through space and time to the meeting points of Russia and China the world's largest and most populous countries Charting an unconventional course southeast through Siberia Inner Mongolia the Russian Far East and Manchuria anthropologist and linguist Ed Pulford sketches a rich series of encounters with people and places unknown not only to outsiders but also to most residents of the capital cities where his journey begins and ends What Russia and China have in common goes much deeper than their status as authoritarian post socialist states or perceived

menaces to Western hegemony Their shared history can only fully be appreciated from an intimately local borderland perspective Along remote roads rivers and railways in cosmopolitan cities and indigenous villages of the northeast Asian frontiers Pulford maps the strikingly similar ways in which these two vast empires have ruled their Eurasian domains before during and after socialism With great cultural nuance Mirrorlands thoughtfully evokes the diverse daily interactions between residents of the Russia China borderlands and their resulting visions of Europe and Asia It is a vivid portrait of centuries of cross border encounter mimicry and conflict key to understanding the global place and identity of two leading world powers
