First Farmer on the Moon Phoenix Phoenix, 2016-05-25 The Soviet Union was about to launch its first man on the moon A young

Japanese reporter got assigned with a special assignment to document the man's first steps on the moon. She embarked on a mission to tell the world about the spaceflight by assisting the Russians in their spaceflight. Unknowingly the United States of America declared a space race with the Soviet Union and the race to plant the flag on Mons Pyrenaeus was set on a stage where the environment wasn't friendly. Upon landing on the moon, unusual things began to happen. The terror on the bald mountains was in its typical definition when they saw mysterious creatures from outer space known as Virusoids descending down to torment the glorious day of humanity which was soon to turn into a disaster. **Origamido** Michael G.

LaFosse, 2000 This book showcases the finest examples of origami art from around the world. Several diagrams are included that reveal the secrets behind some of the masters' most famous pieces. **And There I Was Volume V** DH

Koester, 2013-02-14 Number five of nine journeys in the And There I Was series begins in 1998 at the crossroads of civilizations Istanbul where the beautiful and haunting sounds of Adhan are heard once again. From there it's on to Eastern Turkey Kurdistan where the author hooks up with an old traveling friend before pushing on to the Black Sea and the former Soviet republics of Georgia and Armenia. Meet a Kurdish resistance fighter, visit the purported landing site of Noah's Ark, attend a Kurdish wedding, survive a visit to a Turkish haman and stand in the oldest continuously inhabited settlement in the world as you tread in the footsteps of the prophets Abraham and Job. Spend a week with three sisters in Tbilisi capital of Georgia, land of Kings and Queens and dine with a smuggler then head for the rugged Caucasus and the remote mountain outpost of Kasbegi on the Russian border where you learn to make katchapuri and drink the local cognac amidst rusting Russian tanks. By train travel across Georgia and into Armenia beneath the shadow of Mt Ararat, a country made entirely of grey stone with a dark mood to match. With the immensely talented daughter of a Russian Politburo member, mourn with the rest of the country at the eternal flame atop a hill marking the genocide of eighty years past when the Armenians were nearly extinguished as a people. Finally marvel at the origins of Orthodox Christianity in churches dug out beneath the earth where refuge was sought and listen to the most beautiful emotion-drenched song ever before sung. **Historical Dictionary of**

Russian and Soviet Cinema Peter Rollberg, 2016-07-20 Russian and Soviet cinema occupies a unique place in the history of world cinema. Legendary filmmakers such as Sergei Eisenstein, Vsevolod Pudovkin, Dziga Vertov, Andrei Tarkovsky and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world. The Soviet film industry was different from others because its main criterion of success was not profit but the ideological and aesthetic effect on the viewer. Another important feature is Soviet cinema's multinational Eurasian character while Russian cinema was the largest. Other national cinemas such as Georgian, Kazakh and Ukrainian played a decisive role for Soviet cinema as a whole. The Historical Dictionary of Russian and Soviet Cinema provides a rich tapestry of factual information together with detailed critical assessments of individual artistic accomplishments. This second edition of Historical Dictionary of Russian and Soviet Cinema contains a chronology, an introduction and a bibliography. The dictionary section has over 600 cross-referenced

Dick de Jongh on Intuitionistic and Provability Logics Nick Bezhanishvili, Rosalie Iemhoff, Fan Yang, 2024-07-25 This book is dedicated to Dick de Jongh's contributions to the theory of intuitionistic and provability logics. Consisting of 13 chapters written by leading experts, this book discusses de Jongh's original contributions and consequent developments that have helped to shape these fields. The book begins with an autobiographic note by Dick de Jongh which discusses the main themes of his work and places the other contributions in context. The next four chapters explore the De Jongh Sambin fixed point theorem and other contributions to provability and interpretability logics. The following four chapters focus on modal intuitionistic and intuitionistic modal logics. They discuss independence of formulas unification and de Jongh formulas in intuitionistic and modal logics. Then there follow two chapters on the other two areas to which Dick de Jongh made important contributions: the theory of well partial orders and formal learning theory. The second to last chapter on Origami Geometry can be seen as representing the Master of Logic program of the Institute for Logic Language and Computation ILLC in which de Jongh invested a lot of energy. The book ends with a complete bibliography of Dick de Jongh in the last chapter. This volume provides a vital overview and continuation of de Jongh's prolific work in the theory of intuitionistic and provability logics.

Freedom of Expression in Russia's New Mediasphere Mariëlle Wijermars, Katja Lehtisaari, 2019-11-14 In recent years the Russian government has dramatically expanded its restrictions on the internet while simultaneously consolidating its grip on traditional media. The internet, however, because of its transnational configuration, continues to evade comprehensive state control and offers ever new opportunities for disseminating and consuming dissenting opinions. Drawing on a wide range of disciplines including media law, human rights, political science, media and cultural studies, and the study of religion, this book examines the current state of the freedom of speech, freedom of expression, and media freedom in Russia, focusing on digital media and cross media initiatives that bridge traditional and new media spheres. It assesses how the conditions for free speech are influenced by the dynamic development of Russian media, including the expansion of digital technologies, explores the interaction and transfer of practices, formats, stylistics, and aesthetics between independent and state-owned media, and discusses how far traditional media co-opt strategies developed by and associated with independent media to mask their lack of free expression. Overall, the book provides a deep and rich understanding of the changing structures and practices of national and transnational
