Russian Philosophy Volume 1:

Russian Philosophy, Volume 1 James M. Edie, 2025-03-14 Russian philosophy begins through the impregnation of the ancient Byzantine tradition of Old Russia by the Western thought of the French Enlightenment and then by German Romanticism The first original Russian philosopher Gregory Skovoroda the Russian Socrates was followed by the early philosophy of history and culture Alexander Radishchev and Peter Chasadayev The fateful break of Russian philosophers into two opposed camps of the Slavophiles was accomplished by the middle of the nineteenth century [A History of Russian Philosophy](#) Valery A. Kuvakin, 1994-02 For the first time since the break up of the USSR and with the help of 21 leading historians of Russian philosophy from Moscow State University including M N Gromov Z A Kamensky M A Maslin B G Safronov and V V Serbinenko Valery A Kuvakin presents a comprehensive two volume work capturing the rich philosophical heritage of this diverse culture These scholars discuss its interpretation of the universe the essence of history and human existence the ideals of knowledge and a decent life the destiny of Russia and the life of the world community from the 10th century through the early 20th century These discussions are augmented with selected excerpts from original works which served as examples of the main schools of thought *A History of Russian Thought from the Enlightenment to Marxism* Andrzej Walicki, 1979 This book covers virtually all the significant Russian thinkers from the age of Catherine the Great Down to the eve of the 1905 Revolution [Russia and Western Civilization](#) Russell Bova, 2015-02-12 This volume introduces readers to an age old question that has perplexed both Russians and Westerners Is Russia the eastern flank of Europe Or is it really the heartland of another civilization In exploring this question the authors present a sweeping survey of cultural religious political and economic developments in Russia especially over the nineteenth and twentieth centuries Based on the inter disciplinary Russian studies program at Dickinson College this splendid collection will complement many curricula The text features highlight boxes and selected illustrations Each chapter ends with a glossary study questions and a reading list

Vladimir Solovyev and Max Scheler: Attempt at a Comparative Interpretation Helmut Dahm, 1975-05-31 This comparative study of the works of Vladimir Solovyev and Max Scheler explores some of the areas in which their thoughts seem to bear a direct relation to one another The author shows however that such a correlation is not based on any factual influence of the earlier Russian on the later philosophy of Scheler The similarities in their spiritual and philosophical development are significant as the author demonstrates in his chapter on systematic philosophy This comparison is not just of historical interest It is meant to contribute to a better understanding between the East and the West The author provides a basis for future discussions by establishing a common area of inquiry and by demonstrating a convergence of viewpoints already in regard to these problems The author also discusses the potential role of the ideas of Solovyev and Scheler in the formation of a consciousness which he sees now emerging in the Soviet Union a consciousness critical of any misrepresentation both of non Marxist Russian philosophy as well as of Western philosophy in general In regard to the

translation itself three things should be mentioned First of all the distinction between the important German words Sein and Seiendes is often difficult to preserve in translation Unless otherwise noted all references to being refer to Seiendes Second the abbreviations of the works of Solovyev and Scheler used in the footnotes are clarified in the summary of the works of these authors found on page 31 Off below

Arc of Utopia Lesley Chamberlain, 2017-11-15 Although Lenin and his fellow revolutionaries never called themselves Utopians believing strictly in a science of revolution they considered Utopians to be merely dreamers they were enormously inspired by the grand humanitarian aims of the French Revolution of 1789 Taking up this French revolutionary agenda and reinforcing it with German philosophy Russians formed a beautiful vision in which an imaginary theology blended with a premier role for art Arc of Utopia offers a fresh look at these German philosophical origins of the Russian Revolution In the book Lesley Chamberlain explains how influential German philosophers like Kant Schiller and Hegel were dazzled by contemporary events in Paris and how this led a century later to an explosion of art and philosophy in the Russian streets with a long repressed people reinventing liberty equality and fraternity in their own cultural image Chamberlain examines how some of the greatest Russian names of the nineteenth century from Alexander Herzen to Mikhail Bakunin Ivan Turgenev to Fyodor Dostoevsky defined their visions for Russia in relationship to their views on German enthusiasm for revolutionary France With the centenary of the Russian Revolution approaching Arc of Utopia is an important and timely revisioning of this tumultuous moment in history

William James in Russian Culture Joan Delaney Grossman, Ruth Rischin, 2003-01-01 Editors Joan Grossman and Ruth Rischin pose to their contributors an intriguing question What happens when the ideas of a thinker like William James who despite his originality was deeply rooted in American traditions are refracted through a culture that draws on a heritage profoundly different from his own Including studies of reception and interpretation of James s major works and analyses of the impact of his own philosophy on certain Russian writers and thinkers William James in Russian Culture reveals striking parallels among and divergences between the intellectual and the spiritual realms
