Nationalism, Labour and Ethnicity 1870-1939 Angel Smith, Stefan Berger, 1999 This text looks at the inter relationships between labour nationalist movements and ethnicity during the Age of Imperialism Two of the most debated contemporary issues focus on the decline of labour particularly socialist ideologies and the rise of nationalism It is sometimes assumed that the demise of one led to the triumph of the other It is also thought that labour as an internationalist movement underestimated and misunderstood the power of nationalism This text links these historical phenomena and sets the debate in more accurate historical context

Lenin's Revolution David R. Marples, 2014-06-06 This study examines one of the key events in history the Russian Revolution Since the late Gorbachev period a wealth of new material has become available to historians that has triggered intense scholarly debate on the nature of revolution This timely new book takes account of the new scholarship including for example the role of Lenin It is argued that the initial flexibility of Lenin and the Bolshevik party allowed them to take power but that the conduct of both changed considerably once they were obliged to take steps to maintain their authority This book charts the February Revolution the October Revolution the Civil War and the main individuals involved giving a remarkable degree of clarity to the tumultuous events in Russia whose consequences the world lived with for the rest of the twentieth century

An Intellectual Biography of N.A. Rozhkov John A. González, 2016-09-19 An Intellectual Biography of N A Rozhkov is the first English language study to follow Russia's most gifted and important historian to emerge from the school of V O Kliuchevskii through the transformative decades that bridged the nineteenth and twentieth centuries Rozhkov's early philosophical influences are examined to explain his radicalisation from middle class intellectual academic to Leninist Bolshevik to Menshevik social democrat His Marxist socialist beliefs landed him in gaol several times and eventually he was exiled to Siberia for a decade where he was able to refine his political worldview and develop his theory of historical development Critical of Lenin and the 1917 revolution he spent the last decade of his life being persecuted by the Bolshevik regime

Threads of Empire Charles Steinwedel, 2016-05-09 A history and analysis of Bashkiria and its transformation into a Russian imperial region of the course of three and a half centuries Threads of Empire examines how Russia's imperial officials and intellectual elites made and maintained their authority among the changing intellectual and political currents in Eurasia from the mid sixteenth century to the revolution of 1917 The book focuses on a region 750 miles east of Moscow known as Bashkiria The region was split nearly evenly between Russian and Turkic language speakers both nomads and farmers Ufa province at Bashkiria's core had

the largest Muslim population of any province in the empire The empire's leading Muslim official the mufti was based there but the region also hosted a Russian Orthodox bishop Bashkirs and peasants had different legal status and powerful Russian Orthodox and Muslim nobles dominated the peasant estate By the twentieth century industrial mining and rail commerce gave rise to a class structure of workers and managers Bashkiria thus presents a fascinating case study of empire in all its complexities and of how the tsarist empire's ideology and categories of rule changed over time An original and well researched study of the incorporation of the Bashkir lands and their transformation into a Russian imperial region over the course of three and a half centuries Steinwedel argues that the history of Bashkiria exposes a number of the empire's achievements as a multiethnic society He draws out both important shifts and abiding continuities in the history of the region and by employing a multi dimensional approach covering a range of intersecting topics provides a fuller appreciation for the region He also does a nice job pointing out the useful commonalities and differences between the Bashkir lands and other parts of the empire making a compelling case for Bashkiria's importance for understanding larger processes Willard Sunderland author of *Taming the Wild Field Colonization and Empire on the Russian Steppe* With its solid grounding in Russian archival and printed sources and its sophisticated comparative approach Steinwedel's work will serve as a point of departure for historians of the Russian Empire and will become a book of reference for any future study of empires in global history *American Historical Review* Steinwedel's book is both a skilful exercise in local and regional history and an important contribution to the history of Imperial Russia as a whole *Slavonic and East European Review* Late Imperial Russia, 1890-1917 John F. Hutchinson, 2014-10-14 This new interpretation of the final years of Imperial Russia provides a clear and concise introduction to a critical period in the history of modern Russia Professor Hutchinson outlines the key problems facing the Tsarist regime and the attitudes of its Liberal critics and revolutionary enemies In particular he considers how the monarchy was able to withstand the uprisings of 1904-06 but failed in 1917 This important new study provides an analysis of social as well as political developments and concludes with a brief historiographical essay which draws together alternative interpretations of the final years of the Tsars *The Great War against Eastern European Jewry, 1914-1920* Giuseppe Motta, 2018-06-11 This volume focuses on the consequences that the First World War had on the Jews living in the notorious Pale of Settlement within the frontiers of the Tsarist Empire The research is entirely based on a solid documentary study consisting of the documents of the Joint Distribution Committee and references to many historiographic works Rather than dealing with the military aspects of war the book focuses on the political consequences and in particular on the economic and social changes that the conflict generated The Jewish communities experienced a personal tragedy within the general tragedy of war as they were particularly damaged not only by violence and persecutions suffering from the pogroms of Cossacks and local populations but also by the evacuations and expulsions ordered by the military It meant that a great part of the Jewish population was forced to leave their residence and in many cases compelled to wander for several years or even

to emigrate In addition to this after the outbreak of World War I the Russian Jews became hostile elements who were viewed as potential spies and traitors and were subsequently targeted by a new wave of discriminatory measures that were based on two myths of contemporary antisemitism the stab in the back and the conspiracy of Jewish Bolshevism From this perspective what happened during the Great War could be seen as an anticipation of the tragedy that affected Eastern European Jewry in the following decades
