Russian Views Of Japan An Anthology Of Early Travel Writing:

Russian Views of Japan, 1792-1913 David N. Wells, 2004-08-02 Before Japan was opened up in the 1850s contact with Russia as well as other western maritime nations was extremely limited Yet from the early eighteenth century onwards as a result of their expanding commercial interests in East Asia and the North Pacific Russians had begun to encounter Japanese and were increasingly eager to establish diplomatic and trading relations with Japan This book presents rare narratives written by Russians including official envoys scholars and later tourists who visited Japan between 1792 and 1913 The introduction and notes set these narratives in the context of the history of Russo Japanese relations and the genre of European travel writing showing how the Russian writers combined ethnographic interests with the assertion of Russian and European values simultaneously inscribing power relations and negotiating cultural difference **The Russian Discovery**

of Japan, 1670-1800 David N. Wells, 2019-08-30 During the period of the Tokugawa shogunate s seclusion policy from about 1630 onwards there was very little European interaction with the Japanese except through the restricted Dutch presence at Nagasaki During this period however Russians exploring Siberia and the Russian Far East came into contact with Japan and further exploration and information collecting was encouraged by the Russian government culminating in the first official Russian Embassy to Japan in 1792 This book examines the Russian discourse on Japan in the period tracing the gradual accumulation of knowledge and the development of Russian views sometimes distorted about Japan The book includes key historical documents some translated into English for the first time The book is a prequel to the author s previous book **Russian Views of Japan 1792 1913 An Anthology of Early Travel Writing** **Russian Views of Japan,**

1792-1913 David N. Wells, 2004 **Early Modern Southeast Asia, 1350-1800** Ooi Keat Gin, Hoang Anh Tuan, 2015-10-08 This book presents extensive new research findings on and new thinking about Southeast Asia in this interesting richly diverse but much understudied period It examines the wide and well developed trading networks explores the different kinds of regimes and the nature of power and security considers urban growth international relations and the beginnings of European involvement with the region and discusses religious factors in particular the spread and impact of Christianity One key theme of the book is the consideration of how well developed Southeast Asia was before the onset of European involvement and how during the peak of the commercial boom in the 1500s and 1600s many polities in Southeast Asia were not far behind Europe in terms of socio economic progress and attainments **Handbook of Japan-Russia Relations**

Kazuhiko Togo, Dmitry Streltsov, 2025-10-01 The history of official relations between Russia and Japan encompasses a period of a little more than one hundred and fifty years but stretch back unofficially for at least double that amount of time But for both Russia and Japan these relations have never been a key element of foreign policy indispensable or intrinsically important for their diplomatic strategy It is also noteworthy that for most of this time Russia and Japan were enemies rivals competitors For both parties the significance of bilateral relations to a large extent was determined by their geographical

proximity This geographically predestined relationship can be characterized as distant neighbors At the same time at certain historical stages this neighborhood was not so distant The countries managed to establish relations in the economic sphere while tourism cultural scientific and educational ties were actively developing The complexity of the relations which developed for just over three centuries is worthy of study This book analyzes these three centuries of Japan Russia relations so as not to miss out any essential factors of the relationship

China and Japan in the Russian Imagination, 1685-1922 Susanna Soojung Lim, 2013 Throughout the centuries as Russia strove to build itself into an imperial power equal to those in the West China and Japan came to occupy a special place in Russians view of the orient Never colonised by Russia or the West China and Japan were linked not only to the greatest of Russian imperial fantasies but also conversely to a deep sense of insecurity regarding Russia's place in the world a sense of insecurity which deepened as China and Japan began to modernise in the later nineteenth century Drawing on a wide range of works by Russian writers and thinkers Lim sets out how Russian perceptions of China and Japan were formed from Muscovy's first contacts with China in the late seventeenth century through to the aftermath of Russia's defeat by Japan in the early twentieth century

To Stand with the Nations of the World Mark Ravina, 2017-09-15 In 1868 samurai radicals overthrew the last shogun in the name of ancient Japanese ways Then they took an opposite course building a modern Japanese state with the help of Western advisors This book explains the paradox of the Meiji Restoration revering the ancient past while embracing the foreign and new

Russia and Japan in the Sea of Okhotsk Scott C.M. Bailey, 2023-12-01 Bailey describes how the Sea of Okhotsk area became integrated into a world system of economic and cultural ties between the seventeenth and nineteenth centuries This happened primarily because of maritime explorations travel and trade which led to increased connections with both Russia and Japan Individual chapters of the book provide analyses of historical sources which describe cross cultural encounters and changes in the Sea of Okhotsk area This includes analyses of explorers and travelers who traversed the region for commerce exploration diplomacy and possible colonization Historical sources are explored from the different perspectives of Russians Japanese Indigenous peoples and international observers from Western countries Cross cultural encounters in the region among these groups led to collaboration syncretism and resistance sometimes violent and sometimes peaceful The last chapter discusses how some international travelers and foreign residents of Hokkaid described the area at the end of the nineteenth century Their perspectives confirm that Hokkaid had become a fully colonized space An essential resource for students and scholars of cross cultural studies Russian history Japanese history and Ainu and Indigenous history

Xinjiang and the Expansion of Chinese Communist Power Michael Dillon, 2014-08-01 Xinjiang China's far northwestern province where the majority of the population are Muslim Uyghurs was for most of its history contested territory On the Silk Road a region of overlapping cultures the province was virtually

independent until the late nineteenth century nominally part of the Qing Empire with considerable interest taken in it by the British and the Russians as part of their Great Game rivalry in Asia. Ruled by warlords in the early twentieth century it was occupied in 1949-50 by the People's Liberation Army since when attempts have been made to integrate the province more fully into China. This book outlines the history of Xinjiang. It focuses on the key city of Kashgar, the symbolic heart of Uighur society, drawing on a large body of records in which ordinary people provided information on the period around the communist takeover. These records provide an exceptionally rich source showing how ordinary Uyghurs lived their everyday lives before 1949 and how those lives were affected by the arrival of the Chinese Communist Party and its army. Subjects covered by the book include Eastern Turkestan independence, regional politics, local government, the military, taxation, education and the press.

The Northern Region of Korea Sun Joo Kim, 2011-06-01. The residents of the three northern provinces of Korea have long had cultural and linguistic characteristics that have marked them as distinct from their brethren in the central area near the capital and in the southern provinces. The making and legitimating of centralized Korean nation states over the centuries, however, have marginalized the northern region and its distinct subjectivities. Contributors to this book address the problem of amnesia regarding this distinct subjectivity of the northern region of Korea in contemporary historical and cultural discourses which have largely been dominated by grand paradigms such as modernization theory, the positivist perspective and Marxism. Through the use of storytelling, linguistic analysis and journal entries from turn of the century missionaries and traveling Russians, in addition to many varieties of unconventional primary sources, the authors creatively explore unfamiliar terrain while examining the culture, identity and regional distinctiveness of the northern region and its people. They investigate how the northern part of the Korean peninsula developed and changed historically from the early Choson to the colonial period and come to a consensus regarding the importance of regionalism as a vital factor in historical transformation, especially in regard to Korea's tumultuous modern era.

Australian Slavonic and East European Studies, 2007. *Dissemination of Cartographic Knowledge* Mirela Altić, Imre Josef Demhardt, Soetkin Vervust, 2017-09-07. This book gathers 22 papers which were presented at the 6th International Symposium of the ICA Commission on the History of Cartography in Dubrovnik, Croatia, on 13-15 October 2016. The overall conference theme was 'The Dissemination of Cartographic Knowledge: Production, Trade, Consumption, Preservation'. The book presents original research by internationally respected authors in the field of historical cartography, offering a significant contribution to the development of this field of study but also of geography, history and the GIS sciences. The primary target audience includes researchers, educators, postgraduate students, map librarians and archivists.

The Brokered World Simon Schaffer, 2009. Collection of essays focusing on the roles of intermediaries such as brokers and spies, messengers and translators, missionaries and entrepreneurs in linking different parts of the ever more densely entangled systems of knowledge production and circulation at a key moment in the development of global scientific, commercial and political systems. The

period 1770 1820 was decisive for the reformation of imperial projects in the wake of military catastrophe and politico economic crisis both in the Atlantic and the Asian Pacific spheres economic and political worlds dominated by complex trade systems and violent contest This conjuncture also saw the overhaul of networks and institutions of natural knowledge whether commercial voluntary or organs of state Both the industrial and the second scientific revolutions have been dated to this moment New and decisive relations were forged between different cultures knowledge carriers The authors consider knowledge movements of the epoch that escape simple models of metropolitan centre and remote colonial periphery They question the immutable character of mediators and agents in knowledge communication *Russian Views of Japan* David (David N.)
