*The Oxford Handbook of European History, 1914-1945* Nicholas Doumanis, 2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis *The Oxford Handbook of European History 1914 1945* reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

**1900-1950** Nupur Chaudhuri, Sandra Trudgen Dawson, 2023-10-17 Europe was in turmoil during the first half of the twentieth century The political stability that emanated from nineteenth century political liberalism began to break down reaching climaxes in the Great War the Spanish Civil War and the Second World War Revolutions in Russia and Spain threatened parliamentary governments and the Armenian genocide that began in 1915 foreshadowed the systematic destruction of European Jews in the 1930s and 1940s Dictators seized power and established authoritarian regimes that stymied democratic expression and censored the press Much of the scholarship on each of the conflicts has tended to focus on the military male and the civilian female binary Women and children experienced every conflict during this tumultuous period as civilians consumers victims exiles and combatants As histories of women and war suggest there are exciting new areas of research and scholarship that resist simplistic binaries Women were not simply civilians or victims They were actors in the minutiae of wars revolutions dictatorships and genocides Children were present in these conflicts and not invisible as many histories suggest They too were actors and often politicized by propagandist literature and sectarian education through their own experiences and the politics of their families This collection seeks to complicate the child adult distinction and examine the experiences of women and children as lenses to view a more collective face of conflict While the volume brings to attention conflicts in Europe the editors acknowledge the global ramifications of the revolutions wars and genocides as well as the multitude of individual experiences This collection seeks to expand understanding of the personal as the political in European conflicts from 1900 1950 We believe the focus on women and children offers a diverse perspective on five tumultuous decades of European history Competing Voices from the Russian Revolution Michael C. **The Long Shadow** David Reynolds, 2013-11-07 In Britain we have lost touch with the Great War Our overriding sense now is of a meaningless futile bloodbath in the mud of Flanders of young men whose lives were cut off in their prime for no evident purpose But by reducing the conflict to personal tragedies however moving we have lost the big picture the history has been distilled into poetry In *The Long Shadow* critically acclaimed author David Reynolds seeks to redress the balance by exploring the true impact of 1914-18 on the 20th century Some of the Great War's legacies were negative and pernicious but others proved transformative in a positive sense Exploring big themes such as democracy and empire nationalism and capitalism and re-examining the differing impacts of the War on Britain Ireland and the United States *The Long Shadow* throws light on the whole of the last century and demonstrates that 1914-18 is a conflict that Britain more than any other nation is still struggling to comprehend Stunningly broad in its historical perspective *The Long Shadow* is a magisterial and seismic re-presentation of the Great War

*Cronies or Capitalists? The Russian Bourgeoisie and the Bourgeois Revolution from 1850 to 1917* David Lockwood, 2009-05-27 Why wasn't there a successful bourgeois revolution in Russia Was it because Russian capitalists were too servile in their relationship with the Tsarist autocracy Or was it because Russian states Tsarist republican and Soviet were just too strong This book is a political history of the Russian capitalist class from 1850 to 1917 that seeks to answer these questions The book covers the consistent opposition of the Russian bourgeoisie to the Tsarist autocracy up to and including the revolution of 1905 It then considers its alliance from 1909 with new state elements officials politicians army officers and technical experts who were convinced of the possibility of reform and renovation through a radically reorganised state cleansed of its autocratic detritus Such a reorganisation was expected as a result of the Great War While these ideas came to a temporary fruition in the February Revolution of 1917 they also laid the basis for a much more demanding Soviet state in October and the destruction of the bourgeoisie itself The book ends with a consideration of the wider implications for the concept of the bourgeois revolution implications that stretch well beyond Russia that are revealed by the rise and fall of the Russian bourgeoisie

*The Sources of Social Power: Volume 3, Global Empires and Revolution, 1890-1945* Michael Mann, 2012-09-17 This third volume of Michael Mann's analytical history of social power focuses on the interrelated development of capitalism nation
