Translated and Visiting Russian Theatre in Britain, 1945-2015 Cynthia Marsh, 2020-05-18 This book tackles questions about the reception and production of translated and untranslated Russian theatre in post-WW2 Britain: why in British minds is Russia viewed almost as a run-of-the-mill production of a Chekhov play? Is it because Chekhov is so dominant in British theatre culture? What about all those other Russian writers? Many of them are very different from Chekhov. A key question was formulated thanks to a review by Susannah Clapp of Turgenev's *A Month in the Country*: have the British staged a Russia of the theatrical mind?

Problems of Communism, 1972 Mandelstam Brown, 1973-10-26 Osip Mandelstam who died in 1938 in one of Stalin's labour camps is one of the greatest poets of this century Brown's 1978 volume is a very full and important book which tells of Mandelstam's earlier life and gives an introduction to the poetry Professor Brown tells as much as will probably ever be known about Mandelstam's early life his studies his literary relationships and recreates in piquant detail the intellectual world of prerevolutionary St Petersburg Indeed the criticism of Mandelstam's three collections of poetry quoted both in Russian and in translation manages the seemingly impossible the reader with no Russian begins to grasp as though at first hand how this poetry makes its effects and he senses its originality and importance and its place in European literature Professor Brown here presents the first critical study of the life and works University of Michigan Official Publication, 1964 Global Russian Cultures Kevin M. F. Platt, 2019-01-15 Is there an essential Russian identity What happens when Russian literature is written in English by such authors as Gary Shteyngart or Lara Vapnyar What is the geographic home of Russian culture created and shared via the internet Global Russian Cultures innovatively considers these and many related questions about the literary and cultural life of Russians who in successive waves of migration have dispersed to the United States Europe and Israel or who remained after the collapse of the USSR in Ukraine the Baltic states and the Central Asian states The volume's internationally renowned contributors treat the many different global Russian cultures not as displaced

elements of Russian cultural life but rather as independent entities in their own right. They describe diverse forms of literature, music, film, and everyday life that transcend and defy political, geographic, and even linguistic borders. Arguing that Russian cultures today are many, this volume contends that no state or society can lay claim to be the single or authentic representative of Russianness. In so doing, it contests the conceptions of culture and identity at the root of nation building projects in and around Russia.

Recording Russia Gabriella Safran, 2022-11-15. *Recording Russia* examines scenes of listening to the people across a variety of texts by Russian writers and European travelers to Russia. Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught, arguing instead that as in the West, the sense of separation or connection between intellectuals and those they interviewed or observed is as much about technology and performance as politics and emotions. Nineteenth-century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems, telegraphy, and stenography. Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes. They depicted scenes of listening as contests where one listener bests another; at times the contest is between two sides of the same person. They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence. As the mid-century generation witnessed the social changes of the 1860s and 1870s, their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people. Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies, *Recording Russia* looks at how writers, folklorists, and linguists such as Turgenev, Dostoevsky, and Vladimir Dahl, as well as foreign visitors, thought about the possibilities and meanings of listening to and repeating other people's words.

Publishing in Tsarist Russia Yukiko Tatsumi, Taro Tsurumi, 2020-02-20. According to Benedict Anderson, the rapid expansion of print media during the late 1700s popularised national history and standardised national languages, thus helping create nation states and national identities at the expense of the old empires. *Publishing in Tsarist Russia* challenges this theory and, by examining the history of Russian publishing through a transnational lens, reveals how the popular press played an important and complex Imperial role while providing a soft infrastructure which the subjects could access to change Imperial order. As this volume convincingly argues, this is because the Russian language at this time was a lingua franca; it crossed borders and boundaries, reaching speakers of varying nationalities. Russian publications then were able to effectively operate within the structure of Imperialism but, as a public space, they went beyond the control of the Tsar and ethnic Russians. This exciting international team of scholars provides a much needed fresh take on the history of Russian publishing and contributes significantly to our understanding of print media, language, and empire from the 18th to 20th centuries. *Publishing in Tsarist Russia* is therefore a

vital resource for scholars of Russian history comparative nationalism and publishing studies
