

Russia's Stillborn Democracy? From Gorbachev to Yeltsin

*Graeme Gill and
Roger D. Markwick*

Russias Stillborn Democracy

David R. Marples

Russias Stillborn Democracy:

Russia's Stillborn Democracy? Graeme Gill, Roger D. Markwick, 2000-03-23 The decade and a half since Gorbachev came to power has been a tumultuous time for Russia It has seen the expectations raised by perestroika dashed the collapse of the Soviet superpower and the emergence of a new Russian state claiming to base itself on democratic market principles It has seen a political system shattered by a president turning tanks against the parliament and then that president configuring the new political structure to give himself overwhelming power These upheavals took place against a backdrop of social dislocations as the Russian people were ravaged by the effects of economic shock therapy This book explains how these momentous changes came about and in particular why political elites were able to fashion the new political system largely independent of the wishes of the populace at large It was this relationship between powerful elites and weak civil society forces which has led to Russian democracy under Yeltsin being still born *Russia's Stillborn Democracy?* Graeme J. Gill, Roger D. Markwick, 2003 This study of the failure of democracy in Russia after the collapse of the USSR traces the origins of that failure into the Soviet era and shows how the political elite built a system based on maximising their own power rather than the people's **Before Intelligence Failed** Mark Wilkinson, 2018-05-15 A fascinating and sometimes shocking exposé this book presents a gripping account of intelligence held on chemical and biological weapons before the Iraq War Covering the thirty year period before the Iraq War the author draws on interviews with the key players as well as archival research **Securitising Russia** Edwin Bacon, Bettina Renz, Julian Cooper, 2013-07-19 Securitising Russia shows the impact of twenty first century security concerns on the way Russia is ruled It demonstrates how President Putin has wrestled with terrorism immigration media freedom religious pluralism and economic globalism and argues that fears of a return to old style authoritarianism oversimplify the complex context of contemporary Russia The book focuses on the internal security issues common to many states in the early twenty first century and places them in the particular context of Russia Detailed analysis of the place of security in Russia's political discourse and policy making reveals nuances often missing from overarching assessments of Russia today To characterise the Putin regime as the KGB resurgent is to miss vital continuities contexts and on going political conflicts which make up the contemporary Russian scene Securitising Russia draws together current debates about whether Russia is a normal country developing its own democratic and market structures or a nascent authoritarian regime returning to the past *Russia's Bitter Path to Modernity* Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says

Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia s Soviet development within Russia s own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former s mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states Russia: A History, new edition ,2002-03-28 From the formation of the Russian state in the 14th century to the political power struggles of the 1990s and the uncertainties of the new millennium this new history offers a fresh and systematic account of Russian history across six tumultuous centuries With greater access to previously unobtainable material and with the gradual depoliticization of what was once an intellectual Cold War battleground historians are now able to tell the story of Russia more dispassionately and with greater precision than was formerly possible Drawing on the best contemporary scholarship and informed throughout by the latest archival research into previously classified sources thirteen international experts here reassess and reinterpret the history of one of the world s great powers What emerges is a powerful sense of national destiny of repeated themes unchanging conditions and cycles of circumstance Throughout Russian history all powerful autocrats like Ivan the Terrible or Stalin have maintained their authority through brutality but their omnipotence was always under threat circumscribed by geography compromised by bureaucratic incompetence pervasive corruption and resistance from below A curious combination a veneer of omnipotence a void of operational power has periodically dissolved into times of trouble as in 1598 1917 and 1991 when the impotence of the regime became transparent to all Russian rulers have also had to contend with the same immense physical challenges a hugely dispersed population a perennial dearth of means and men to govern a primitive infrastructure Plagued by natural disasters hamstrung by structural problems the Russian economy whether pre revolutionary capitalist Soviet socialist or post Soviet semi capitalist has had enormous and disruptive difficulties adapting to the competitive world of international markets Another immutable elemental fact has been Russia s multinational composition which continues to generate discontent and disorder Yet Russia is a great survivor as the years from 1995 show characterized by economic recovery institution building and a new mood of self assertion in world politics For too long Russian history has been dominated by myths and counter myths concocted by those seeking either to legitimize the existing order or to destroy it This book containing many little known illustrations represents an important attempt to rethink Russian history and to provide a new understanding of Russia s complex but ever fascinating historical development A compelling story in its own right it is also essential reading for anyone with a private or professional interest in Russia and its place in the world **Russia in the Twentieth Century** David R. Marples,2014-01-14 The history of Russia as the natural successor to the Soviet Union is of

crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example

The Communist Party in Post-Soviet Russia Luke March, 2002 This pioneering analysis uses the results from the first ever Irish election study to provide a comprehensive survey of the motives outlook and behaviour of voters in the Republic of Ireland Building on the foundations laid down by previous work on comparative electoral behaviour it explores long term influences on vote choice such as party loyalties and enduring values as well as short term ones such as the economy the party leaders and the candidates themselves It also examines how people use their vote and why so many people do not vote at all Many features of Irish elections make such a detailed study particularly important The single transferable vote system allows voters an unusual degree of freedom to pick the candidates they prefer while electoral trends observed elsewhere can be found in a more extreme form in Ireland For example attachment to parties is very low differences between them are often obscure candidate profiles are very high and turnout is falling rapidly However Irish elections defy international trends in other respects most notably in the degree of personal contact parties and candidates make with their voters Findings are presented in a manner that is highly accessible to anyone with an interest in elections electoral systems and electoral behaviour The book is essential reading for anyone interested in Irish politics and is an important text for students of European Politics Parties and Elections Comparative Politics and Political Sociology

Historical Dictionary of the Russian Federation Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of Historical Dictionary of the Russian Federation contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia

The Return of Ideology Cheng Chen, 2016-07-06 As a nation makes the transition from communism to democracy or another form of authoritarianism its regime must construct not only new political institutions but also a new political ideology that can guide policy and provide a sense of mission The new ideology is crucial for legitimacy at home and abroad as well as the regime's long term viability In The Return of Ideology Cheng Chen compares post communist regimes with a focus on Russia under Putin and post Deng China investigating the factors that affect the success of an ideology building project and identifies the implications for international affairs Successful ideology building requires two necessary

but not sufficient conditions The regime must establish a coherent ideological repertoire that takes into account the nation s ideological heritage and fresh surges of nationalism Also the regime must attract and maintain a strong commitment to the emerging ideology among the political elite Drawing on rich primary sources including interviews surveys political speeches writings of political leaders and a variety of publications Chen identifies the major obstacles to ideology building in modern Russia and China and assesses their respective long term prospects Whereas creating a new regime ideology has been a protracted and difficult process in China it has been even more so in Russia The ability to forge an ideology is not merely a domestic concern for these two nations but a matter of international import as these two great powers move to assert and extend their influence in the world

If you ally infatuation such a referred **Russias Stillborn Democracy** ebook that will give you worth, get the enormously best seller from us currently from several preferred authors. If you want to comical books, lots of novels, tale, jokes, and more fictions collections are next launched, from best seller to one of the most current released.
