The Elements of Justice David Schmitz,2006-01-09 What is justice Questions of justice are questions about what people are due However what that means in practice depends on the context in which the question is raised Depending on context the formal question of what people are due is answered by principles of desert reciprocity equality or need Justice therefore is a constellation of elements that exhibit a degree of integration and unity Nonetheless the integrity of justice is limited in a way that is akin to the integrity of a neighborhood rather than that of a building A theory of justice offers individuals a map of that neighborhood within which they can explore just what elements amount to justice

*Emotions, Genre, Justice in Film and Television* Deidre Pribram, 2012-05-23 Popular film and television are ideally suited in understanding how emotions create culturally shared meanings. Yet very little has been done in this area. *Emotion, Genre, and Justice in Film and Television* explores textual representations of emotions from a cultural perspective rather than in biological or psychological terms. It considers emotions as structures of feeling that

are collectively shared and historically developed Through their cultural meanings and uses emotions enable social identities to be created and contested to become fixed or alter Popular narratives often take on emotional significance aiding groups of people in recognizing or expressing what they feel and who they are This book focuses on the justice genres the generic network of film and television programs that are concerned with crime law and social order to examine how fictional police detective and legal stories participate in collectively realized conceptions of emotion A range of films Crash Man on Fire and television series Cold Case Cagney and Lacey serve as case studies to explore contemporarily relevant representations of anger fear loss and consolation and compassion
