## **S He Brain Science Sexual Politics And The Myths Of Feminism:**

*S/He Brain* Robert Nadeau, 1996-10-07 During the 1960s Margaret Mead's argument that gender identity is a product of learning in particular cultural contexts was incorporated into the sex gender system in feminist theory. In this system sex refers to physiological differences in the body and gender refers to learned sex specific bodies to be viewed as separate and distinct from gender neutral minds. In *S He Brain* Nadeau demonstrates that the sex gender system is not some arcane bit of academic jargon that has no impact on our daily lives. It is the greatest source of division and conflict in the politics of our sexual lives for a now obvious reason: the brains of men and women are not the same and the differences have behavioral consequences. Further, he argues that an improved understanding of the relationship between sex and gender could enlarge the bases for meaningful dialogue between men and women and lead to new standards for sexual equality that is more realistic and humane than the current standard. The individual most responsible for legitimating the modern distinction between sex and gender was the anthropologist Margaret Mead. According to the Mead doctrine, gender identity is almost entirely a product of learning in different cultural contexts and sex or biological reality is not a determinant of this identity. The assumption that gender identity is learned in sexless or gender neutral minds, separate and distinct from sex specific bodies, legitimated the sex gender system that has been foundational to feminist theory since the mid 1970s. In this system sex refers to physiological differences in the domain of the body and gender to learned behavior in the domain of mind. Since this two domain distinction obviated the connection between biological reality and gender identity, it allowed gender identity to be viewed as scripted or socially constructed by cultural narratives, stories, myths, legends, and the like, invented by men to control and oppress women. In *IS He Brain* R Nadeau demonstrates that the sex gender system is not in accord with biological reality for now obvious reasons: the brains of men and women are not the same and the differences have behavioral consequences. Yet the intent of the book is to serve the cause of full sexual equality and not to escalate the gender war. Nadeau attempts to accomplish this by demonstrating that an improved understanding of the relationship between sex and gender can not only enlarge the bases for meaningful communication between men and women, it could also serve as the basis for a new and improved standard of sexual equality that eliminates the grossly unfair treatment of women sanctioned by the current standard.

*Biology and Political Science* Robert Blank, Samuel M. Hines Jr., 2002-03-11 This book demonstrates the increasing interest of some social scientists in the theories, research, and findings of life sciences in building a more interdisciplinary approach to the study of politics. It discusses the development of biopolitics as an academic perspective within political science, reviews the growing literature in the field, and presents a coherent view of biopolitics as a framework for structuring inquiry across the current subfields of political science.

*Language, Eros, Being* Elliot R. Wolfson, 2009-08-25 This long awaited magisterial study an unparalleled blend of philosophy poetry and philology draws on theories of sexuality phenomenology comparative religion philological writings on Kabbalah Russian formalism Wittgenstein Rosenzweig William Blake and the very physics of the time space continuum to establish what will surely be a highwater mark in work on Kabbalah Not only a study of texts *Language Eros Being* is perhaps the fullest confrontation of the body in Jewish studies if not in religious studies as a whole Elliot R Wolfson explores the complex gender symbolism that permeates Kabbalistic literature Focusing on the nexus of asceticism and eroticism he seeks to define the role of symbolic and poetically charged language in the erotically configured visionary imagination of the medieval Kabbalists He demonstrates that the traditional Kabbalistic view of gender was a monolithic and androcentric one in which the feminine was conceived as being derived from the masculine He does not shrink from the negative implications of this doctrine but seeks to make an honest acknowledgment of it as the first step toward the redemption of an ancient wisdom Comparisons with other mystical traditions including those in Christianity Buddhism and Islam are a remarkable feature throughout the book They will make it important well beyond Jewish studies indeed a must for historians of comparative religion in particular of comparative mysticism Praise for Elliot R Wolfson *Through a Speculum That Shines* is an important and provocative contribution to the study of Jewish mysticism by one of the major scholars now working in this field
