S O S Men Against The Sea:

Survivors of Enemy Action Bernard Edwards, 2023-06-30 The war years 1939 1945 were the most perilous in the long history of the British Merchant Navy The figures speak for themselves With 2 535 ships sunk and 36 749 merchant seamen lost the proportional casualty rate was higher than any branch of the Armed Forces except for Bomber Command The danger to the lightly armed merchant ships came from enemy air attacks surface warships raiders and of course submarines Prisoners were seldom taken so the crews of stricken vessels had to fend for themselves Those who survived enemy action faced death by drowning exposure and lack of food and water Compiled mainly from experiences related direct to the author this inspiring book draws on first hand accounts of the lucky few who survived With extraordinary honesty and modesty their stories describe the events leading up to the enemy attack the actions and the aftermath Readers will be struck by the courage and fortitude of these men who often suffered extreme hardship and privation Too many died before reaching land or being rescued These men are without doubt the unsung heroes of the Second World War and this fine book is an overdue recognition of their sacrifices and courage

Return of the Coffin Ships Bernard Edwards, 2010-04-20 this book deserves a very wide readership among those interested in safety at sea Cdr Brian Wainwright FNI Seaways September 2000 Wonderful Really terrific A first rate piece of research Stan Bernard NBC News Shameful tale of bulker tragedies Telegraph July 1999 In September 1980 the British ship Derbyshire sailed into the eye of Typhoon Orchid and on into oblivion taking all on board with her The destructive power of a typhoon is awesome but the Derbyshire was no small and ageing tramp running red rust with a crew of deadbeats culled from the backwaters of the world She was just four years old manned entirely by competent British seamen and maintained to the highest standards She matched the best afloat in her day How then could this great ship have disappeared so quickly and completely with not even a faint cry for help and leaving only a thin film of oil on the sea to mark her passing The only good thing to come out of whatever appalling calamity over whelmed the Derbyshire was that it turned the spotlight on a hitherto unrecognised phenomenon the disappearing bulk carriers In this powerful book Bernard Edwards master mariner turned writer reports on his investigations into the loss of a number of these giant bulk carriers and offers a new and controversial solution to the Derbyshire mystery at the same time taking the lid off the on going scandal of the disappearing bulk carriers

Attack & Sink, the Battle of the Atlantic, Summer 1941 Bernard Edwards, 2010-02-13 This convoy must not get through U boats pursue attack and sink This was the signal that Admiral D nitz sent to the commanders of the 21 U boats of the Markgraf wolf pack on September 9 1941 just before the United States entered the war Sixty three merchant ships a number old and dilapidated and all slow and heavy laden with vital supplies from the United States for the United Kingdom were strung out in 12 columns abreast covering 25 miles of inhospitable ocean They set sail from Nova Scotia at a time when the German U boats were sinking more than one hundred ships a month and the US Navy could do nothing but stand by and watch at least officially Around noon the three US destroyers Charles F

Hughes Russell and Sims wheeled away and made off to the west at speed The American ships had served their purpose for although they had taken great pains not to be associated with SC42 s official escort the mere presence of these modern powerful men of war had contributed to the withdrawal of the U boats The convoy s escort of one destroyer and three corvettes of the Royal Canadian Navy all untried in combat was hopelessly outclassed when the battle for SC42 commenced The battle lasted for seven days and covered 1 200 miles of ocean First hand accounts by participants on both sides add interest and drama

The Road to Russia Bernard Edwards,2002-01-22 The renowned naval historian chronicles three WWII convoy missions to Russia through dangerous Arctic waters and relentless Luftwaffe attacks During the Summer of 1942 Britain and America jointly agreed to supply desperately needed arms to Soviet Russia Determined to stop this potentially decisive operation the Germans relentlessly hounded the Allied convoys from the sky And the Arctic sea battleground could not have been more inhospitable The British and American merchantmen and their gallant naval escorts suffered grievous losses The cold was so intense that there were pitifully few survivors from the many vessels sunk in the running battles that raged In Road to Russia acclaimed naval historian Bernard Edwards vividly chronicles three of these courageous and harrowing voyages convoys PQ13 and PQ 17 bound from Iceland to North Russia and the Westbound convoy QP13 Attacked by aircraft and U boats PQ13 and PQ17 lost between them a total of thirty ships while QP13 untouched by the enemy ran into a British minefield off Iceland with the loss of seven ships The Road to Russia is an important addition to the bibliography of this bitterly fought campaign

Airmen Against the Sea George Albert Llano,1956 Airmen Against The Sea is the fourth in a series of ADTIC studies to determine how military personnel survived under meegency conditions in variaous parts of the world Its predecessors 999 Survived Sun Sand and Survival and Down In the North dealt with survival respectively in the Southwest pacific Tropics in ther African Deserts and in the Arctic This study concerns survival at sea dn like its predecessors employs the topical approach It is not a water survival manual but is a factual report of what happened to men who bailed out or ditched at sea and whose only refuge for days on end was a rubber lifeaft Under such topical headings as bailout versus ditching survival equipment the lifeaft food hazards injuries morale and many others the experiences of the survivors themselves are emphasized The result is a new and fresh insight into the problems of survival at sea which will eb of inteest to all those wh ofly over water and of particular value to those concerned directly with rescue operations with water survival training and with the development of survival materiel

The Decoys Bernard Edwards,2012-10-30 In November 1942 Britain and America launched Operation TORCH the ambitious invasion of French North Africa To convey 70 000 troops and their equipment required 600 merchant ships crossing the U boat infested North Atlantic The need for their protection meant withdrawing escorts from the routine convoys Amongst those left without adequate defence were RB 1 and SC 107 both eastbound from America and SL 125 northbound from Freetown All three were at sea at the same time as the TORCH convoys

Running the Gauntlet Bernard Edwards,2022-04-21 The British Merchant

Navy dominated the world trade routes in the years leading up to the Second World War. The star players of the fleet were the cargo liners, faster and larger than the tramps and offering limited passenger accommodation. On the outbreak of war, these cargo liners became crucial to the nation's survival, using their speed and expertise to evade Nazi warships, raiders, and U-boats. Initially operating alone but increasingly relying on Royal Navy-protected convoys, these key elements of the Merchant Navy plied the oceans and seas despite mounting losses throughout the war years. This superbly researched book describes numerous dramatic incidents. Some ended in disaster, such as the New Zealand Shipping Company's *Turakina*, which was sunk after a running battle with the German raider *Orion*. Others were triumphs, for example Operation Substance, when six fast cargo liners succeeded against all the odds in reaching besieged Malta with vital supplies. The common denominators in all these historic voyages were the courage and skilled seamanship of the Merchant Navy crews. As *Running the Gauntlet* vividly illustrates, their contribution to victory, too long overlooked, cannot be overstated.

The Quiet Heroes Bernard Edwards, 2010-08-19. The men of Britain's Merchant Navy, although unarmed civilians going about their lawful business, were the first to be involved with the enemy in the Second World War. Less than nine hours after the declaration of war on 3 September 1939, the Donaldson liner *Athenia* was sunk without warning by a German U-boat off the west coast of Ireland. From that moment onwards, British merchant seamen were constantly in the front line in all quarters of the globe. For almost six years, they faced without flinching their own private hell of torpedoes, bombs, shells, and mines, all the while fending off their old arch-enemy, the sea. Sorely pressed and often tired, near to death, they kept open Britain's tenuous lifelines, bringing millions of tons of raw materials, food, oil, arms, and ammunition, without which the country could not have survived. As always, their spirit was indomitable, their professionalism unchallenged. The price they paid for their bravery and dedication was horrendous: 2,246 ships lost, 29,180 men killed, and countless hundreds maimed and wounded. This book tells the story of just a few of these quiet heroes.

Blood And Bushido Bernard Edwards, 2010-03-02. Imperial Japan's wartime atrocities left a bloody stain on the waters of the Pacific. This is a story that might have quietly slipped beneath the waves of history had Bernard Edwards not written this important book. The book vividly recounts the barbaric actions of Japan's navy in the wake of its attacks on Allied shipping, including the ramming of lifeboats, the machine-gunning of survivors, and the bayoneting and beheading of captives. As Edwards explains, the ancient Japanese warrior code of Bushido, under which capture is forbidden, was in stark and lethal contrast to the humane code of conduct usually honored by seafarers. Anyone unfortunate enough to fall victim to the Imperial Navy paid a terrible price. Drawing on the dramatic accounts of Allied survivors, this book serves as a reminder of the Imperial Navy's inhumane acts and a tribute to those who perished because of them. A selection of the Military Book Club.

Convoy Will Scatter Bernard Edwards, 2013-06-12. A naval historian reveals the full story of the HMS *Jervis Bay* and the merchant ships that valiantly saved lives during the WWII Battle of the Atlantic. On November 5th 1940, the thirty-eight merchant ships of Convoy HX84 were making their way across the North Atlantic.

escorted by the armed cruiser HMS Jervis Bay In mid ocean they were attacked by the German pocket battleship Admiral Scheer Though the Jervis Bay charged at the enemy she was hopelessly outgunned Within twenty two minutes the ship was destroyed Meanwhile the merchantmen scattered under the cover of a smokescreen But the radar equipped Admiral Scheer was still capable of picking them off one at a time Captain Hugh Pettigrew commanding the highly armed Canadian Pacific cargo liner SS Beaverford began a desperate game of hide and seek with the Scheer which continued until the Beaverford was sunk with no survivors Thanks to this sacrifice thirty three merchantmen were able to escape Later the neutral flag Swedish freighter Stureholm commanded by Captain Olander picked up survivors from the Jervis Bay While Jervis Bay s Captain Edward Fegen was rightly awarded the Victoria Cross for his bravery and sacrifice the history books only mention the Beaverford and the Stureholm in passing This thrilling book puts the record straight
