president and vice president of the United States have fallen ill with mysterious flu like symptoms It is not long before both me receive the same devastating diagnosis pancreatic cancer But that is not the worst of it Soon many in Congress and the Supreme Court start to exhibit the same symptoms In less than four months the president is dead the vice president is barely hanging onto life and one third of Congress is deceased Unfortunately the United States is not the only country ravaged by the scourge By the time research leads medical experts to determine that only Muslims seem to be immune to the plague most governments around the world are left with few survivors As a Muslim takes over the presidency of the United States he declares that the cancer spares no one except true believers in Allah After he urges nonbelievers to convert to Islam in an effort to stop the population from dying off forever a ban on pork and alcoholic beverages is put into place But it is not long before experts discover what is truly causing the epidemic a sinister virus In this political thriller the world is thrown into turmoil as a powerful group of evil saboteurs hold the future of humanity hostage

The Trial Sadakat Kadri, 2007-12-18 For as long as accuser and accused have faced each other in public criminal trials have been establishing far more than who did what to whom and in this fascinating book Sadakat Kadri surveys four thousand years of courtroom drama A brilliantly engaging writer Kadri journeys from the silence of ancient Egypt's Hall of the Dead to the clamor of twenty first century Hollywood to show how emotion and fear have inspired Western notions of justice and the extent to which they still riddle its trials today He explains for example how the jury emerged in medieval England from trials by fire and water in which validations of vengeance were presumed to be divinely supervised and how delusions identical to those that once sent witches to the stake were revived as accusations of Satanic child abuse during the 1980s Lifting the lid on a particularly bizarre niche of legal history Kadri tells how European lawyers once prosecuted animals objects and corpses and argues that the same instinctive urge to punish is still apparent when a child or mentally ill defendant is accused of sufficiently heinous crimes But Kadri's history is about aspiration as well as ignorance He shows how principles such as the right to silence and the right to confront witnesses hallmarks of due process guaranteed by the U S Constitution were derived from the Bible by twelfth century monks He tells of show trials from Tudor England to Stalin's Soviet Union but contends that no trials in Guantanamo Bay and elsewhere are just as repugnant to Western traditions of justice and fairness With governments everywhere eroding legal protections in the name of an indefinite war on terror Kadri's analysis could hardly be timelier At once encyclopedic and entertaining comprehensive and colorful The Trial rewards curiosity and an appreciation of the absurd but tackles as well questions that are profound Who has the right to judge and why What did past civilizations hope to achieve through scapegoats and sacrifices and to what extent are defendants still made to bear the sins of society at large Kadri addresses such themes through scores of meticulously researched stories all told with the verve and wit that won him one of Britain's most prestigious travel writing awards and in doing so he has created a masterpiece of popular history
