Sabra And Shatila:

Lost Blood Marco Abraham,2007 Sabra and Shatila Bayan Nuwayhed al-Hout,2004-08-20 The book covers the history of the Sabra and Shatila massacre which took place over three bloody days in the Lebanese capital Beirut It was committed against Palestinian refugees by Lebanese militias aided and supervised by the Israeli Army which had encircled the district Now available for the first time in English this classic book is the most comprehensive authoritative account of what happened and who was responsible The author Bayan Nuwayhed al Hout was a Professor at the Lebanese University at the time Driven by the horror of what occurred she interviewed survivors and set up an oral history project immediately after the massacre to preserve testimonies This book is the result Following a general introduction the first part contains interviews mainly with victims families The second part analyses statistical data and attempts to determine the number of victims The conclusion Who Was Responsible sheds light on the various parties responsible Over five hundred pages long illustrated with photographs and maps unrivalled in detail and scope this book is a courageous attempt to make sense of what happened and an important political document in its own right Sabra and Shatila Abraham Weizfeld,2009-03-20 At this time of the 60th commemoration for the 1948 Palestinian Nakba ethnic cleansing of 88% of the Palestinian Arab population from what became the Zionist State of Israel this second edition of the documentary study Sabra Shatila brings us to contemplate the pogrom of these refugee camps resulting in some 3 000 deaths over a three day period The original edition in 1984 gave a voice for the Jewish oppositon to the rampage and tragedy of Zionism **Because They Hate** Brigitte Gabriel,2008-01-08 A political memoir and passionate call to arms from a Christian Arab who witnessed the deadly beginnings of fundamentalist Islam **Genocide** George J. Andreopoulos,1997-02 Part II The reality of genocide **Remembering Sabra and Shatila** Karine Hamilton,2006 The Israeli invasion of Lebanon in 1982 marked the first direct military confrontation between Israelis and Palestinians and controversially involved the employment of the Israeli military within densely populated civilian areas Most contentiously Israeli warfare in Lebanon prompted a massacre of civilians in the Palestinian neighbourhoods of Sabra and Shatila in west Beirut In this study I analyse a variety of primary and secondary sources including contemporaneous newspaper articles the autobiographies of Israeli political leaders the personal accounts of combat participants and studies of memory and violence to examine the representation of the Sabra and Shatila massacre in Israeli narratives of the conflict in Lebanon **Turmoil in the Middle East** Berch Berberoglu,1999-11-04 Berch Berberoglu examines the dynamic social forces and political turmoil that plague the contemporary Middle East **West Meets East** David Harb,2010-09-24 Although Israel and Palestine is a very small piece of land in the planet it has received more global attention over the last 60 years and perhaps any other part of the globe This primer is designed to help clarify the issues to give the reader a better understanding of the confl ict Israel claims it is theirs and Palestine claims it belongs to the Palestinians This book is intended to validate both claims with the purpose of creating a peace that both people can live side by side in harmony with

one another Many attempts have been made in the past to create a lasting peace This is the appropriate time in history to bring both parties to the table with the intentions of bringing together a comprehensive peace agreement to both sides

Terrorism: Creating a Climate of Fear Saghir Iqbal, 2018-08-07 This book looks at the concept of terrorism and its primary aim of creating a climate of fear Any discussion of terrorism has to firstly define its terms what do we mean by terrorism and how does it manifest itself in contemporary accounts and moreover what is the difference between legitimate military action and one based on terror The definitions of terrorism are complex and depend to a very large extent on who one is asking A government defence adviser would for instance have a markedly different notion of what constitutes terrorism than a member of a paramilitary organisation and an ordinary member of the public might have a notion based somewhere on the interaction between these two depending on their socio cultural background This is primarily the main reason why the term has not been universally accepted by all scholars or academics There are many reasons why political groups attempt to bring about radical change through terrorism People are often frustrated with their position in society They may in some way feel persecuted or oppressed because of their race religion or they feel exploited by a government Any group that uses terrorist actions have very complex and powerful reasons to engage in those activities The usual experience of violence by a stronger party has historically turned victims into terrorists State terror very often breeds collective terror Because terrorism is a word that has been used so much and so loosely that it has lost a clear meaning It can be argued that terrorists are not born but created as issues of today develop into the conflicts of tomorrow These Chains Will Be Broken Ramzy Baroud, Khalida Jarrar, Richard Falk, 2019-11-29 Ramzy Baroud's book of Palestinian prisoners stories is a remarkable work With each story there is a roll call of the best of humanity courage struggle determination generosity passion humility Everyone should read this searing and beautiful book JOHN PILGER you will delve into the lives of men and women read intimate stories that they have chosen to share with you stories that may surprise you anger you and even shock you But they are crucial stories that must be told read and retold KHALIDA JARRAR Palestine Legislative Council The rationale for Palestinian resistance is heightened by having law and morality on the side of demands for an end to the oppressive Israeli occupation and the persistent abuse of fundamental Palestinian rights RICHARD FALK former UN Special Rapporteur Prof Emeritus Princeton Hundreds of thousands of Palestinians have experienced life in Israel's prisons since 1967 as did many more in previous decades during the course of the ongoing Israeli military occupation Yet rarely has the story of their experiences in Israeli jails been told by the prisoners themselves Typically the Western media portrays them as terrorists while well meaning third party human rights advocates paint them as hapless victims They are neither This book permits the reader to access the reality of Palestinian imprisonment as told by Palestinian prisoners themselves stories of appalling suffering and determination to reclaim their freedom The stories in this book are not meant to serve as an account of Israeli torture methods Instead each story highlights a distinct experience each so personal so profound in order to underline the

humanity of those who are constantly dehumanized by Israeli hasbara and the mainstream corporate media's biased accounts. Palestinian prisoners are an essential element in the collective resistance against Israeli colonialism, apartheid, and military occupation. Rather than being viewed as unfortunate victims, their steadfastness exemplifies the ongoing fight of the Palestinian people as a whole. In reality, all Palestinians living under Israeli occupation and siege are also prisoners. The Gaza Strip is often referred to as the world's largest open air prison. It is in this context that this book becomes an essential read.

The Ethics of Representation in Literature, Art, and Journalism Caroline Rooney, Rita Sakr, 2013-11-07. This transnational collection of essays, interviews, and creative pieces on the 1982 Siege of Beirut explores literary representations of the siege by a diverse set of writers alongside journalism and other media including film and art. The book investigates and promotes an awareness of an ethics of representation on questions of extreme emotional investment, comparing representations of the siege to representations of other traumatic events, visiting responses from those of different cultural backgrounds to the same event, and considering implications with respect to comparative approaches. Chapters explore how literature, journalism, and art contribute to overcoming the dangers of forgetting and denial, memorial excess, and fundamentalism, the radicalization of violence, and the complete breakdown of trust on international levels, asking how they challenge geopolitical, intellectual, and psychological states of siege and instead promote awareness, acknowledgement, mourning, and justice across divided communities. The book extends the use of postcolonial methodologies affiliated with history, international relations, and psychoanalysis, memory, trauma, to Middle Eastern studies and visits the siege's effect on different forms of memory and memorialization, selective memory, trauma gaps, and fissures in historical accounts, recording of eyewitness reports, and artistic reimaginings and realizations of alternative archives.

The Federation of Palestinian and Hebrew Nations Abraham Weizfeld, 2018-11-07. This work focuses on the political philosophy and the constitutional transformation of the contradiction between two major nations in one land, namely Palestine and Israel. While the notion of the Nation State has permeated the Levant since the 1917 British crusade into Jerusalem, the organic demographic actuality of the country's population is incompatible with the dominance of one nation in one land, with the subsequent degeneration into the series of war crimes that began in 1947. To move away from this conception of a Zionist State requires another methodology that offers an alternative to the domination of one nation by another that is rationalized by the myths of nation building promoted by the Nationalist school of thought. With an approach that is international in the root meaning of the term, this book fuses the Jewish Bundist concept of National Cultural Autonomy with the process of constituent assemblies as an expression of the parallel civil societies that become an organic social construction codified in a federal constitution. By avoiding the notion of the Nation State, this exit may then be named the No State Solution.

Refugees, Prisoners and Camps B. Møller, 2014-12-09 What do refugee and concentration camps prisons terrorist and guerrilla training camps and prisoner of war camps have in common Arguably they have all followed an outside inside model enforcing a dichotomy between perceived desirable and undesirable characteristics This separation is the subject of Møller s multidisciplinary study US Foreign Service Women in the Middle East and Islamic North Africa, 1945-2001 Anthony J. Barker, 2023-12-29 Focusing on the attitudes and experiences of American female diplomats and spouses this book examines the social political and cultural dimensions of American interactions with the Middle East and North Africa in the five decades after the Second World War A turbulent period marked by conflicts associated with the Cold War and decolonization it was also characterized by changing attitudes to women at odds with those in Moslem societies The impact of those changes is explored throughout this book principally drawing on personal oral histories included in the Frontline Diplomacy collection but reinforced by cables passing between regional U S embassies and the State Department in Washington DC The Palestine-Israel Conflict Gregory Harms, Todd M Ferry, 2012-06-14 The Palestine Israel conflict is the most notorious and ingrained conflict of the twentieth and now twenty first century Yet the way it is reported in the media is often confusing leading many to assume the hostilities stretch back to an ancient period The Palestine Israel Conflict is the first book to provide a clear accessible and annotated introduction that covers the full history of the region from Biblical times until today Perfect for the general reader as well as students it offers a comprehensive yet lucid rendering of the conflict setting it in its proper historical context Harms and Ferry show how today s violence is very much a product of recent history with its roots in the twentieth century This balanced account is now fully up to date including the ongoing situation in Gaza making it a valuable resource for anyone who wants a clear guide to the conflict between Israel and the Palestinian territories and its place in the history of Middle Eastern affairs *Landscape of Hope and Despair* Julie Peteet, 2011-06-03 Nearly half of the world s eight million Palestinians are registered refugees having faced partition and exile Landscape of Hope and Despair examines this refugee experience in Lebanon through the medium of spatial practices and identity set against the backdrop of prolonged violence Julie Peteet explores how Palestinians have dealt with their experience as refugees by focusing attention on how a distinctive Palestinian identity has emerged from and been informed by fifty years of refugee history

Concentrating ethnographic scrutiny on a site specific experience allows the author to shed light on the mutually constitutive character of place and cultural identification Palestinian refugee camps are contradictory places sites of grim despair but also of hope and creativity Within these cramped spaces refugees have crafted new worlds of meaning and visions of the possible in politics In the process their historical predicament was a point of departure for social action and thus became radically transformed Beginning with the calamity of 1948 Landscape of Hope and Despair traces the dialectic of place and cultural identification through the initial despair of the 1950s and early 1960s to the tumultuous days of the resistance and the violence of the Lebanese civil war and its aftermath Most significantly this study invokes space place and identity to construct an alternative to the received national narratives of Palestinian society and history The moving stories told here form a larger picture of these refugees as a people struggling to recreate their sense of place and identity and add meaning to their surroundings through the use of culture and memory *Perceptions of Palestine* Kathleen Christison,2023-04-28

For most of the twentieth century considered opinion in the United States regarding Palestine has favored the inherent right of Jews to exist in the Holy Land That Palestinians as a native population could claim the same right has been largely ignored Kathleen Christison s controversial new book shows how the endurance of such assumptions along with America s singular focus on Israel and general ignorance of the Palestinian point of view has impeded a resolution to the Arab Israeli conflict Christison begins with the derogatory images of Arabs purveyed by Western travelers to the Middle East in the nineteenth century including Mark Twain who wrote that Palestine s inhabitants were abject beggars by nature instinct and education She demonstrates other elements that have influenced U S policymakers American religious attitudes toward the Holy Land that legitimize the Jewish presence sympathy for Jews derived from the Holocaust a sense of cultural identity wherein Israelis are like us and Arabs distant aliens She makes a forceful case that decades of negative portrayals of Palestinians have distorted U S policy making it virtually impossible to promote resolutions based on equality and reciprocity between Palestinians and Israelis Christison also challenges prevalent media images and emphasizes the importance of terminology Two examples are the designation of who is a terrorist and the imposition of place names which can pass judgment on ownership Christison s thoughtful book raises a final disturbing question If a broader frame of reference on the Palestinian Israeli conflict had been employed allowing a less warped public discourse might not years of warfare have been avoided and steps toward peace achieved much earlier For most of the twentieth century considered opinion in the United States regarding Palestine has favored the inherent right of Jews to exist in the Holy Land That Palestinians as a native population could claim the same right has been largely ignored **Between Jerusalem and Athens** Nurit Yaari,2018-10-04 How does a theatrical tradition emerge in the fields of dramatic writing and artistic performance How can a culture in which theatre played no part in the past create a theatrical tradition in the modern world How do political and social conditions affect the encounter between cultures and what role do they play in creating a theatre with a distinctive identity This volume attempts

to answer these and other questions in the first in depth study of the reception of ancient Greek drama in Israeli theatre over the last 70 years Exploring how engagement with classical culture has shaped the evolution of Israel s theatrical identity it draws on both dramatic and aesthetic issues from mise en sc ne to post dramatic performance and offers ground breaking analysis of a wide range of translations and adaptations of Greek drama as well as new writing inspired by Greek antiquity The detailed discussion of how the performances of these works were created and staged at key points in the development of Israeli culture not only sheds new light on the reception of ancient Greek drama in an important theatrical and cultural context but also offers a new and illuminating perspective on artistic responses to the fateful political social and cultural events in Israel s recent history
