H. McLeod,2009-07-24 Contrary to popular opinion there is more to Sikhism than the distinctive dress First of all there is the emergence of Guru Nanak the founder of Sikhism and the long line of his successors There are the precepts many related to liberation through the divine name or nam There is a particularly turbulent history in which the Sikhs have fought to affirm their beliefs and resist external domination that continues to this day There is also more recently the dispersion from the Punjab throughout the rest of India and on to Europe and the Americas With this emigration Sikhism has become considerably less exotic but hardly better known to outsiders This reference is an excellent place to learn more about the religion It provides a chronology of events a brief introduction that gives a general overview of the religion and a dictionary with several hundred entries which present the gurus and other leaders trace the rather complex history expound some of the precepts and concepts describe many of the rites and rituals and explain the meaning of numerous related expressions All this along with a bibliography provides readers with an informative and accessible guide toward understanding Sikhism

political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies **Kundalini Yoga** Shakti Parwah Kaur Khalsa,1998-08-01

Kazemipur,2022-02-28 Debates about Islam and Muslim societies have intensified in the last four decades triggered by the 1979 Islamic Revolution in Iran and later by the events of 9 11 Too often present in these debates are wrongheaded assumptions about the attachment of Muslims to their religion and the impossibility of secularism in the Muslim world At the heart of these assumptions is the notion of Muslim exceptionalism the idea that Muslims think believe and behave in ways that are fundamentally different from other faith communities In Sacred as Secular Abdolmohammad Kazemipur attempts to debunk this flawed notion of Muslim exceptionalism by looking at religious trends in Iran since 1979 Drawing on a wide range of data and sources including national social attitudes surveys collected since the 1970s he examines developments in the spheres of politics and governance schools and seminaries contemporary philosophy and the self expressed beliefs and behaviours of Iranian men women and youth He reveals that beneath Iran s religious facade is a deep secularization that manifests not only in individual beliefs but also in Iranian political philosophy institutional and clerical structures and intellectual life Empirically and theoretically rich Sacred as Secular looks at the place of religion in Iranian society from a sociological perspective expanding the debate on secularism from a predominantly West centric domain to the Muslim world

Beyond Religion in India and Pakistan Virinder S. Kalra,Navtej K. Purewal,2019-12-12 Drawing on insights from

theoretical engagements with borders and subalternity *Beyond Religion in India and Pakistan* suggests new frameworks for understanding religious boundaries in South Asia. It looks at the ways in which social categories and structures constitute the bordering logics inherent within enactments of these boundaries and positions hegemony and resistance through popular religion as an important indication of wider developments of political and social change. The book also shows how borders are continually being maintained through violence at national, community and individual levels. By exploring selected sites and expressions of piety including shrines, texts, practices and movements, Virinder S. Kalra and Navtej K. Purewal argue that the popular religion of Punjab should neither be limited to a polarised picture between formal institutional religion nor the enchanted universe of rituals, saints, shrines and village deities. Instead, the book presents a picture of religion as a realm of movement, mobilization, resistance and power in which gender and caste are connate of what comes to be known as religious. Through extensive ethnographic research, the authors explore the reality of the complex, dynamic and contested relations that characterize everyday material and religious lives on the ground. Ultimately, the book highlights how popular religion challenges the borders and boundaries of religious and communal categories, nationalism and theological frameworks while simultaneously reflecting gender, caste, society.
