Learning Outside the Classroom Simon Beames, Peter Higgins, Robbie Nicol, 2012-03-22 *Learning Outside the Classroom* outlines theory and practice that will enable and encourage teachers to systematically and progressively incorporate meaningful outdoor learning opportunities into their daily teaching activities in a wide variety of environments and with diverse populations of pupils This is the first textbook based around the curriculum for prospective and practising primary and secondary teachers and other outdoor educators The principles and examples presented are intended to be adapted by teachers to suit the needs of their students in ways that draw upon content offered by the local landscape and its natural and built heritage Although the focus of this book is the real world beyond the classroom it is also about good teaching wherever it takes place While there are chapters on practical issues such as risk management and supervising groups outdoors the chapters on curriculum sustainability curiosity responsibility and educational communities will serve as a valuable guide for anyone interested in applying educational theory to practice

Energy Humanities Imre Szeman, Dominic Boyer, 2017-04-22 Energy humanities is a field of scholarship that like medical humanities and digital humanities before it overcomes traditional boundaries between the disciplines and between academic and applied research Like its predecessors energy humanities highlights the essential contribution that the insights and methods of the human sciences can make to areas of study and analysis once thought best left to the natural sciences This isn't a case of the humanities simply helping their cross campus colleagues to learn the mechanics of communication so that they might better articulate their ideas Rather these fields of scholarship are ones that demonstrate how the scale and complexity of the issues being explored demand insights and approaches that transcend old school disciplinary boundaries *Energy Humanities A Reader* offers a carefully curated selection of the best and most influential work in energy humanities that has appeared over the past decade To stay true to the diverse work that makes up this emergent field selections range from anthropology and geography to philosophy history and cultural studies to recent energy focused interventions in art and literature The three readers all agree that this is an important ground breaking collection of work Provided by publisher

The Sustainability Mindset Principles Isabel Rimanoczy, 2020-11-29 As we increase our awareness of the planetary challenges and how they intersect with the discipline or profession we choose to focus on we have put our attention on the external forces and impacts What remains untouched however is the set of beliefs values assumptions mental processes and paradigms that we hold and share our mindset But how do we change a mindset This book is the first to introduce the 12 Principles for a Sustainability Mindset presenting educators with a framework that makes it easy to include them into teaching plans and lessons of any discipline Written in a very clear and practical way the book provides examples checklists tips and tools for professionals and educators It transforms the development of a much needed mindset for sustainability into an accessible fun and intuitive task The book is written with educators from a variety of disciplines in mind including but not limited to management educators coaches and trainers No other book comes close to providing such a well organized and solid way of starting to shift our mindsets in the direction of sustainability

Lens to the Natural World Kenneth H. Olson, 2011-12-08 This book straddles the fertile middle ground between science and religion at a time when the conversation is dominated by extremists on both sides Taking seriously the modern view of the universe including the fossil record for the history of life across millions of years the author considers our relationship to the rest of nature In addition the age old questions concerning meaning values and our place within it all are perhaps more pressing than ever before This work provides a broad engagement with major ideas including evolution and earth stewardship while drawing upon a rich heritage of philosophy and literature and doing so in a manner accessible to the general reader

Post-Traumatic Public Theology Stephanie N. Arel, Shelly Rambo, 2016-11-02 This book imagines new modes of religious response to trauma moving beyond simple answers to the why of human suffering toward discussions of profound expressions of faith in the aftermath of trauma Engaging current realities such as war race and climate change chapters feature specific locations from which theology is

done and draw on the resources of Christian faith in order to respond This volume recognizes religious leaders as first responders to trauma and offers theological reflections that can stand up in the current realities of violence and its aftermath The writings provide models for how to integrate the language of faith with the literature of trauma *Christianity and Ecological Theology* E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa

Spirituality Roger S. Gottlieb, 2013 Roger S Gottlieb provides a lucid and accessible overview of what spirituality is enabling a clear eyed understanding of the concept its manifold connections to other aspects of personal and social life its role as a positive psychological and social phenomenon and some of the risks that attend it *The Tao of Liberation* Mark Hathaway, Leonardo Boff, 2009 Drawing on insights from quantum physics deep ecology and the new cosmology they articulate a new vision of liberating action Hathaway and Boff lay out a path of spiritual renewal ecological transformation and authentic liberation *Using the Visual and Performing Arts to Encourage Pro-Environmental Behaviour* David Curtis, 2020-10-06 Ecoarts practice is evolving quickly as a practice While much of it is made by individual artists working alone artists are increasingly combining into multi artist collectives and collaborating with scientists sustainability professionals industry or the community to develop artworks with quite far reaching effects This book describes an extraordinary range of artistic practices pitched to encourage people to adopt pro environmental behaviours by provoking persuading providing information creating empathy for nature or by being built into sustainability practices themselves It brings together 28 contributors who examine different roles of the arts in encouraging pro environmental behaviour There is a wide range of practitioners represented here including visual and performing artists sustainability professionals social researchers environmental educators research students and academics The contributors to this book are united in believing that the arts are vital in promoting pro environmental behavior in the way that they are practiced but also in the connections they make to ecology science and Indigenous culture **Picking Fights with the Gods** Paul Gilk, 2016-08-04 The common understanding of apocalypse suggests End Times Armageddon and the end of the world But the Greek word apokalypsis means none of these things What it does mean is uncovering disclosing and revelatory That apocalypse is so widely misunderstood as predestined disaster isn't due to natural evolution in meaning To penetrate the misuse of apokalypsis is to discover mythic misrepresentation That is apocalypse doesn't generate End Times but just the opposite End Times compels apokalypsis The actual threat of End Times explicitly so with weapons of mass destruction and Anthropocene climate change forces thoughtful people into a search for fundamental causes Where do these destructive energies originate Why are we so reluctant to recognize the obvious consequences and resistant to embrace available remedies Why do we persist in denial

and indifference In these essays Paul Gilk explores the underlying cultural and religious conventions both conservative and liberal that constitute our resistance and refusal To disclose and uncover those conventions to dissolve our oblivion is to awaken to apokalypsis and to realize the depth of our captivity within prevailing mythology both religious and civilizational If End Times is the disease apokalypsis is the cure embed container position relative padding bottom 56 25% height 0 overflow hidden max width 100% embed container iframe embed container object embed container embed position absolute top 0 left 0 width 100% height 100% *The Future Makers* joanna Hafenmayer,wolfgang Hafenmayer,2017-09-08 Are you looking for sense and meaning in your work Would you like to be successful but expect more in the way of reward and fulfilment than just a paycheque The Future Makers offers 23 encouraging responses to these questions It tells the diverse stories of people from around the world who have made a sustainable mark on the world through their careers from an American financial market specialist to tree planters in Africa from Japanese environmental experts to dancers in Argentina The Future Makers are people who make the world a better more beautiful and livable place for current and coming generations The Hafenmayers present these inspiring stories in an accessible entertaining and thoughtful way But they also do far more The book presents a toolkit on how you can forge a career that has a positive impact on the world This step by step process has already had a life changing impact on readers of the original German edition It is packed with helpful suggestions for personal development and reorientation for a work life that will make you happier and deeply satisfied The Future Makers takes you on a journey to people whose values and visions aren't compartmentalized into corners of their lives They live their dreams every day This book will show you how you can do the same **Life Without Money** Anitra Nelson,Frans Timmerman,2011-11-07 The money based global economy is failing The credit crunch undermined capitalism's ability to ensure rising incomes and prosperity while market led attempts to combat climate change are fought tooth and nail by business as environmental crises continue We urgently need to combat those who say there is no alternative to the current system but what would an alternative look like The contributors to Life Without Money argue that it is time radical non market models were taken seriously The book brings together diverse voices presenting strong arguments against our money based system's ability to improve lives and prevent environmental disaster Crucially it provides a direct strategy for undercutting capitalism by refusing to deal in money and offers money free models of governance and collective sufficiency Life Without Money is written by high profile activist scholars including Harry Cleaver Ariel Salleh and John O'Neill making it an excellent text for political economy and environmental courses as well as an inspiring manifesto for those who want to take action
