Book jacket Indigenous Networks Jane Carey, Jane Lydon, 2014-06-27. This edited collection argues for the importance of recovering Indigenous participation within global networks of imperial power and wider histories of transnational connections. It takes up a crucial challenge for new imperial and transnational histories to explore the historical role of colonized and subaltern communities in these processes and their legacies in the present. Bringing together prominent and emerging scholars who have begun to explore Indigenous networks and transnational encounters and to consider the broader significance of extra-local connections, exchanges and mobility for Indigenous peoples, this work engages closely with some of the key historical scholarship on transnationalism and the networks of European imperialism. Chapters deploy a range of analytic scales including global, regional and intra-Indigenous networks and methods including histories of ideas and cultural forms and biography as well as exploring contemporary legacies. In drawing these perspectives together, this book charts an important new direction in research.

Equal subjects, unequal rights Julie Evans, Patricia Grimshaw, David Philips, Shurlee Swain, 2013-07-19. This electronic version has been made available under a Creative Commons BY-NC-ND open access license. This book focuses on the ways in which the British settler colonies of Australia, Canada, New Zealand and South Africa treated indigenous peoples in relation to political rights, commencing with the imperial policies of the 1830s and ending with the national political settlements in place by 1910. Drawing on a wide range of sources, its comparative approach provides an insight into the historical foundations of present-day controversies in these settler societies. **To Intermix With Our White Brothers** Thomas N.

Ingersoll, 2005-11. The Native Americans of mixed ancestry in 1830 and why Andrew Jackson implemented a law to remove them. **Empire, Education, and Indigenous Childhoods** Helen May, Baljit Kaur, 2016-05-06. Taking up a little-known story of education, schooling and missionary endeavor, Helen May, Baljit Kaur and Larry Prochner focus on the experiences of very young native children in three British colonies. In missionary settlements across the northern part of the North Island of New Zealand, Upper Canada and British-controlled India, experimental British ventures for placing young children of the poor in infant schools were simultaneously transported to and adopted for all three colonies. From the 1820s to the 1850s, this transplantation of Britain's infant schools to its distant colonies was deemed a radical and enlightened tool that was meant to hasten the conversion of heathen peoples by missionaries to Christianity and to European modes of civilization. The intertwined legacies of European exploration, enlightenment ideals, education and empire building, the authors argue, provided a springboard for British colonial and missionary activity across the globe during the nineteenth century. Informed by archival research and focused on the shared as well as unique aspects of the infant schools' colonial experience, *Empire, Education and Indigenous Childhoods* illuminates both the pervasiveness of missionary education and the diverse contexts in which its

attendant ideals were applied **The Life of William Apess, Pequot** Philip F. Gura,2015-03-02 The Pequot Indian intellectual author and itinerant preacher William Apess 1798 1839 was one the most important voices of the nineteenth century Here Philip F Gura offers the first book length chronicle of Apess s fascinating and consequential life After an impoverished childhood marked by abuse Apess soldiered with American troops during the War of 1812 converted to Methodism and rose to fame as a lecturer who lifted a powerful voice of protest against the plight of Native Americans in New England and beyond His 1829 autobiography A Son of the Forest stands as the first published by a Native American writer Placing Apess s activism on behalf of Native American people in the context of the era s rising tide of abolitionism Gura argues that this founding figure of Native intellectual history deserves greater recognition in the pantheon of antebellum reformers Following Apess from his early life through the development of his political radicalism to his tragic early death and enduring legacy this much needed biography showcases the accomplishments of an extraordinary Native American [The Place of the Pike \(Gnoozhekaaning\)](#) Charles E.
