Mordden, 1999-08-20 An American writer sent to Venice to do the autobiography of a famous Greek American opera singer s scandalous life discovers instead his own passions men and music AIDS and American Apocalypticism Thomas Lawrence Long, 2012-02-01 Since public discourse about AIDS began in 1981 it has characterized AIDS as an apocalyptic plaque a punishment for sin and a sign of the end of the world Christian fundamentalists had already configured the gay male population most visibly affected by AIDS as apocalyptic signifiers or signs of the end times Their discourse grew out of a centuries old American apocalypticism that included images of crisis destruction and ultimate renewal In this book Thomas L Long examines the ways in which gay and AIDS activists artists writers scientists and journalists appropriated this apocalyptic rhetoric in order to mobilize attention to the medical crisis prevent the spread of the disease and treat the HIV infected Using the analytical tools of literary analysis cultural studies performance theory and social semiotics AIDS and American Apocalypticism examines many kinds of discourse including fiction drama performance art demonstration graphics and brochures biomedical publications and journalism and shows that while initially useful the effects of apocalyptic rhetoric in the long term are dangerous Among the important figures in AIDS activism and the arts discussed are David Drake Tim Miller Sarah Schulman and Tony Kushner as well as the organizations ACT UP and Lesbian Avengers Hartnett, 2014-09-23 Call Me by P P Hartnett When Liam decides to begin answering the personal ads of London s gay papers he is at first bemused and fascinated After all it is simply a way to entertain himself and pass the time What Liam doesn t bargain for however is his growing reliance on the ads and the men who answer them What at first was a form of distraction is guickly becoming an obsession and Liam is discovering just who finds him so alluring **Created Equal** Michael Nava, Robert Dawidoff, 1994 The authors argue that the movement for gay equality is central to the continuing defense of individual liberty Dawidoff and Nava emphasize that what is at stake is not the fate of the gay community but the future of Gay Widowers Michael Shernoff, 2013-10-18 constitutional principle and the rights of free individuals in American society A recent gay widower may find that once the shock and initial confusion of losing his partner is overcome there are still many hard lonely and overwhelming stages of grief to be worked through Often the bereaved feels isolated and looking around for comfort realizes that he doesn t have many resources to turn to but Gay Widowers Life After the Death of a Partner is a start By offering first person accounts of becoming a widower this book the first of its kind allows others who are about to lose or already have lost a partner to find support validation recognition and fellowship Its editor and contributors hope that by sharing their stories of loss pain and bewilderment they will help others in mourning as well as make one more step forward in their own healing Men of different ages and ethnic religious geographic and economic backgrounds join together in Gay Widowers to remind other gay widowers that they are not alone and that their feelings of pain anger and emptiness are normal and legitimate Not solely a book about life after the loss of a partner to AIDS this book is about rebuilding life as a bereaved gay man regardless of the cause of your partner's death You will find encouragement for moving your life forward

without shutting your memories away as you read about how homophobia can complicate a gay widower's grieving and mourning handling financial and legal matters before and after death specific mental health issues of gay widowers dating again similarities among gay widowers responses to their partners deaths making time for your feelings rather than avoiding them finding love after or during bereavement trauma theory s applications to gay widowers By bringing forth these stories Gay Widowers offers bereaved gay men psychologists counselors and social workers in a society where the mourning process is generally a heterosexual social construct a clinical overview of the psychodynamic issues relevant and perhaps unique to the mourning process of gay men **Biological Exuberance** Bruce Bagemihl, 2025-09-23 A Publishers Weekly Best Book One of the New York Public Library s 25 Books to Remember for 1999 Lavishly illustrated and meticulously researched filled with fascinating facts and astonishing descriptions of animal behavior Bruce Bagemihl's Biological Exuberance is a landmark book that will change forever how we look at nature Homosexuality in its myriad forms has been scientifically documented in more than 450 species of mammals birds reptiles insects and other animals worldwide Biological Exuberance is the first comprehensive account of the subject bringing together accurate accessible and nonsensationalized information Drawing upon a rich body of zoological research spanning more than two centuries Bagemihl shows that animals engage in all types of nonreproductive sexual behavior Sexual and gender expression in the animal world displays exuberant variety including same sex courtship pair bonding sex and co parenting even instances of lifelong homosexual bonding in species that do not have lifelong heterosexual bonding Part 1 A Polysexual Polygendered World begins with a survey of homosexuality transgender and nonreproductive heterosexuality in animals and then delves into the broader implications of these findings including a valuable perspective on human diversity Bagemihl also examines the hidden assumptions behind the way biologists look at natural systems and suggests a fresh perspective based on the synthesis of contemporary scientific insights with traditional knowledge from indigenous cultures Part 2 A Wondrous Bestiary profiles more than 190 species in which scientific observers have noted homosexual or transgender behavior Each profile is a verbal and visual snapshot of one or more closely related bird or mammal species containing all the documentation required to support the author's often controversial conclusions AIDS Narratives Steven F. Kruger, 2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual s bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline

and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it **The Necessary Hunger** Nina Revoyr,1998-03-15 Basketball player Nancy Takahiro s life changes as her father and the mother of the All State shooting guard move in together Rivalry becomes intense friendship as the girls prepare to leave their inner city neighborhood to face future that is no longer easily defined <u>Lavender Mansions</u> Irene Zahava,2019-03-11 George Stambolian Terri de la Pe a Audre Lorde Paul Monette Edmund White and Jaime Manrique are just six of the writers represented in this collection of forty contemporary lesbian and gay short stories Gathered together for the first time in one volume are writings by both lesbians and gay men who represent a multiplicity of ethnic and racial backgrounds Irene Zahava has compiled a unique and necessary collection selecting stories for their artistic power and for their treatment of topics that are significant in lesbian and gay life and politics today An alternative thematic table of contents allows the reader to understand lesbian and gay life according to its most culturally and politically significant themes childhood growing up coming out finding community families oppression resistance bisexuality relationships friendships AIDS and aging dying
