Sacred Precinct:

Jerusalem Madelaine Adelman, Miriam Fendius Elman, 2014-06-12 Jerusalem is one of the most contested urban spaces in the world. It is a multicultural city but one that is unlike other multi-ethnic cities such as London, Toronto, Paris, or New York. This book brings together scholars from across the social sciences and the humanities to consider how different disciplinary theories and methods contribute to the study of conflict and cooperation in modern Jerusalem. Several essays in the book center on political decision making; others focus on local and social issues. While Jerusalem's centrality to the Israeli-Palestinian conflict is explored, the chapters also cover issues that are unevenly explored in recent studies of the city. These include Jerusalem's diverse communities of secular and orthodox Jewry and Christian Palestinians; religious and political tourism; and the heritage managers of Jerusalem. The Israeli and Palestinian LGBT community and its experiences in Jerusalem and visual and textual perspectives on Jerusalem, particularly in architecture and poetry, are also explored. Adelman and Elman argue that Jerusalem is not solely a place of contention and violence and that it should be seen as a physical and demographic reality that must function for all its communities.

Mexico City's Zócalo Benjamin A. Bross, 2021-12-30 This book presents a case study of one of Latin America's most important and symbolic spaces: the Zócalo in Mexico City, weaving together historic events and corresponding morphological changes in the urban environment. It poses questions about how the identity of a place emerges, how it evolves, and why it changes. Mexico City's Zócalo: A History of a Constructed Spatial Identity utilizes the history of a specific place, the Zócalo Plaza de la Constitución, to explain the emergence and evolution of Mexican identities over time. Starting from the pre-Hispanic period to present day, the work illustrates how the Zócalo reveals spatial manifestations as part of the larger socio-cultural zeitgeist. By focusing on the history of changes in spatial production, what Henri Lefebvre calls society's secretions, Bross traces how cultural, social, economic, and political forces shaped the Zócalo's spatial identity and in turn how the Zócalo shaped and fostered new identities in return. It will be a fascinating read for architectural and urban historians investigating Latin America.

Archytas of Tarentum Carl Huffman, 2005-05-23 Archytas of Tarentum is one of the three most important philosophers in the Pythagorean tradition: a prominent mathematician who gave the first solution to the famous problem of doubling the cube; an important music theorist; and the leader of a powerful Greek city-state. He is famous for sending a trireme to rescue Plato from the clutches of the tyrant of Syracuse, Dionysius II, in 361 BC. This 2005 study was the first extensive enquiry into Archytas' work in any language. It contains original texts, English translations, and a commentary for all the fragments of his writings and for all testimonia concerning his life and work. In addition, there are introductory essays on Archytas' life and writings, his philosophy, and the question of authenticity. Carl A. Huffman presents an interpretation of Archytas' significance both for the Pythagorean tradition and also for fourth-century Greek thought, including the philosophies of Plato and Aristotle.

today Who Really Wrote the Bible William M. Schniedewind, 2025-11-18 A groundbreaking new account of the writing of the Hebrew Bible Who wrote the Bible Its books have no bylines Tradition long identified Moses as the author of the Pentateuch with Ezra as editor Ancient readers also suggested that David wrote the psalms and Solomon wrote Proverbs and Qohelet Although the Hebrew Bible rarely speaks of its authors people have been fascinated by the question of its authorship since ancient times In Who Really Wrote the Bible William Schniedewind offers a bold new answer the Bible was not written by a single author or by a series of single authors but by communities of scribes The Bible does not name its authors because authorship itself was an idea enshrined in a later era by the ancient Greeks In the pre Hellenistic world of ancient Near Eastern literature books were produced preserved and passed on by scribal communities Schniedewind draws on ancient inscriptions archaeology and anthropology as well as a close reading of the biblical text itself to trace the communal origin of biblical literature Scribes were educated through apprenticeship rather than in schools The prophet Isaiah for example has his disciples Elisha has his apprentice This mode of learning emphasized the need to pass along the traditions of a community of practice rather than to individuate and invent Schniedewind shows that it is anachronistic to impose our ideas about individual authorship and authors on the writing of the Bible Ancient Israelites didn't live in books he writes but along dusty highways and byways Who Really Wrote the Bible describes how scribes and their apprentices actually worked in ancient Jerusalem and Judah *This Here Now: Japanese Building And The Architecture Of The Individual* Kevin Nute, 2020-11-04

Within these pages lives a story of love of friendships and of families which are imbedded within a place and time where the most diametrically opposite of human values existed and survived side by side where heaven and hell daily rubbed their social elbows and each of their elements were ever threatening the survival of their counterpart Here is a story of people caught between the gears and wheels of their god's invisible machinery that daily drives their universe Here is portrayed both the physical and psychological landscape of a time whose structures writings and beliefs have now been systematically destroyed by a new foreign master and a new foreign religion which has a so called Modern Strategy about blood sacrifice and intellectual domination Here is the story of lovers whose powerful desire to be forever together is the magic that guides them through an ever fluxing nightmare that is their reality The story opens in the capitol city of the Aztec Empire during the night of November the 8th in the year 1516 CE
